

ABOUT CATARACTS

So much has been written and said about cataracts and still current general knowledge is very indefinite.

Cataracts develop INSIDE, not OUTSIDE of the eye ball. The eye ball is not taken out in removing the cataract. When the cataract has developed so slight is reduced to only distinguishing light then only the REMOVAL of the CATARACT by operation will offer any cure. An average of eighty out of one hundred of all cases operated obtain vision. Unless born with cataract or it follows injury or diabetes it rarely develops before sixty years of age. I operated for cataract for a lady who was eighty-eight years old with good results.

Cataract can be arrested by MEDICAL TREATMENT if treated in the early stages. I have cured hundreds with medicines in early stages. WHEN DIMNESS FIRST APPEARS IS THE TIME. Eighty-five out of a hundred are successful, about same percentage as operation, but when developed to practical blindness only removal by operation will cure.

The "Gold-Standard"—
—in Tires

GOODRICH Tire Values are not at all "Accidental." They spring from Conditions which are logical as the Laws of the Universe.

The best-intentioned Tire Manufacturer cannot AVOID being heavily handicapped when competing against them.

Because, — Goodrich "Conditions" summarize into this: —

- 1st—The longest Experience in Mfg. the Product.
- 2nd—The greatest Leverage on purchasing of Raw Materials at lowest prices, through ability to take largest quantities.
- 3rd—The lowest Cost of Manufacturing, —through largest VOLUME of Output.
- 4th—The clearly-demonstrated INTENTION to give Consumers and Dealers the full benefit of the large ECONOMIES resulting from possession of the three Cardinal Advantages above defined.

THE Product of such a Rubber-Concern,—when marketed under such conditions,—giving the benefit of such huge Economies to Consumers may well, and logically, be considered—the "GOLD-STANDARD" in Tire Values.

Therefore:—
—When you pay MORE than the Goodrich Fair-List prices, here printed, for ANY Fabric Tire, you are merely "contributing" the difference.

Because,—You CANNOT get "better" Fabric Tires,—at ANY price!

Test them thoroughly,—and see!
