

Why We Use Distilled Water In Our Prescriptions

The druggist who is careful in the selection of pure, potent drugs, cannot afford to be indifferent regarding the minor details which enter into the compounding of prescriptions.

We use distilled water in all our prescriptions and other compounds. This fact is mentioned because we want you to know that we are careful and accurate in every step of prescription work—from the selection of the drugs to the placing of the label on the finished medicine.

Waist High Road Beam One-Third Mile Long

The New Osgood Lens is a one-piece lens of twelve prisms that direct all the light outward and downward. None thrown into the air—always below waist-height.

Result—74% more light on the road as compared with a plain lens; 91% greater road light as compared with a lens of ground glass.

These figures are based on exhaustive tests made by recognized authorities—including the Armour Institute of Technology, Massachusetts Institute of Technology, and the American Automobile Association.

Give the New Osgood a trial and see the vast difference for yourself. Sold at ordinary lens prices.

THE NEW
OSGOOD LENS
CAVATH LONG DISTANCE TYPE

Lights the Road—not the sky.

FREE--One Week's Trial

Have us install a pair on your car—use them one week. If they are not worth more than the price—say so, and we'll take them off.

The ways and means committee of the Decatur County Red Cross Chapter will give a card party at the library on Friday evening of this week to raise funds for the Red Cross. Admission 25 cents per couple, and a cordial invitation to everyone to be there and help the good cause.

The only Bill Connor arrived in Leon Tuesday afternoon from Camp Cody at Deming, New Mexico, having received his exemption a few days after being transferred from Camp Dodge. Bill says he rode all the way back to Leon, for walking was not very good, and it was a long way back.

G. F. Rinehart, who for several years has been in western states working in the interest of temperance, has decided to again locate in Iowa, and has accepted a position as secretary of the Newton Business Men's Association. He returns to his old home at Newton in order to be with his aged mother, who is in feeble health.

Last Sunday as Roe and Edgar Caster of this city were returning in a Ford from Des Moines, up near Indianola a pin came off and let one of the wheels come off and they went into a small ditch and made a quick stop. Roe going through the windshield, loosening a number of his teeth, and Edgar took the lamp off on the side where he pitched out. Aside from these items, and a slight delay in repairing the car they came out of it alright.

From the Belfield, North Dakota, Times, we learn that the house and contents on the J. L. McCutchan ranch ten miles southeast of that town, was totally destroyed by fire on November 9th. The fire was discovered by Mr. McCutchan's son, Lee, but it had made such headway that nothing could be saved from the house, but fortunately he carried insurance on the house. Besides the household goods there were fifty bushels of potatoes and five guns burned in the house.

Mr. J. F. McGaffee, who was quite seriously injured when his auto plunged off the bridge across Little river between Leon and Davis City, on November 9th, being taken to the Leon hospital for treatment, was able to return to his home in Des Moines Monday. He is recovering nicely from his injuries and will be able to return to work as soon as his broken arm is well. His wife, who was visiting at Belfield, Mo., at the time of the accident, came to Leon and was with him at the hospital. Mrs. Laura Asbury, matron of the Leon hospital, accompanied them to Des Moines to care for Mr. McGaffee on the trip.

Miss Helen Whisler arrived Tuesday of last week for a few weeks visit at the home of her parents, Mr. and Mrs. Silas Whisler, in this city. Miss Helen until a few months ago was in the millinery business with her sister, Miss Maggie, at Amboy, Illinois, but sold out. Miss Helen going to Coudersport, Penna., where she has been employed for several months as a linotype operator and layout of a weekly newspaper, and Miss Maggie entered the employ of a wholesale millinery house in Chicago. Miss Helen expects to visit in Leon until after the holidays, and will then resume her work as a linotype operator, in which she is very proficient.

At the meeting of the board of supervisors last week they paid W. H. Darner \$200 as part payment of the right of way across his farm on the Jefferson Highway, a mile southwest of Leon, the balance of the \$400 for the land, being raised by popular subscription by Jas. F. Harvey. Mr. Darner made a very liberal offer and everyone will be glad to see this dangerous corner, which has been the scene of several bad accidents, eliminated. The new road will cut diagonally across northeast and come out at the corner by C. M. Akes' residence, and will be one of the best road improvements ever made in Decatur county.

Get that Mackinaw now of G. B. Price. A son was born to Mr. and Mrs. Howard Reynolds, of east of Leon, last Saturday. Date your sale with Milt Manchester, the auctioneer who sells for the high dollar. Pure bred stock and real estate a specialty. WHY GARLANDS SELL

Hot Blast Tube—A tube or pipe extending from the top of the stove down to the level of the burning fuel, supplying a steady current of heated air at the front where combustion is taking place, causing complete consumption of the gases, soot and smoke, with a consequent increase in the quantity of heat produced. This construction feature is adaptable to the Royal, Regal and Crema Garlands.

Fire Pot—Of extra heavy construction, capable of withstanding the effects of the hottest fire, thus insuring a long life of most efficient service.

Grate—Draw center grates for coal, flat grates for wood. Both are made of extra heavy cast iron of a special mixture which has stood the test for years.

Screw Draft Register—A patented device absolutely sealing the bottom of the stove and making it the tightest and best fire keeper possible. Adjustable so as to control the draft with great exactness.

WM. CRICHTON & SON
