"Sixty Seconds Make One Minute"

And how precious those minutes are at the present time—even the housewife's time as well as her strength is being conserved more than ever before, and no one thing goes farther in doing this than the

One Minute Washer

Everything possible is being adopted for the saving of time and labor, and why not make it as easy as possible for the housewife, as "woman's work is never done?"

This can be done with the One Minute Washer, which is absolutely the finest running machine that has ever been shown and the power necessary to operate it has been brought down to the lowest possible point.

We would be glad to show this machine at any time.

The Brunswick

ALL PHONOGRAPHS IN ONE

All Over Town People Are Talking About the New Brunswick

THE new Brunswick Method of Reproduction has met with instant acclaim. And music lovers predict for The Brunswick complete leadership.

Never before have people known such an advanced type of phonograph. It lacks all the crudities of yesterday. Tone is more natural than ever before. The most difficult selections, such as piano and orchestra, are played with absolute fidelity.

The Brunswick Method of Reproduction includes The Ultona. Now all records can be played in the exact way each requires. A turn of the hand and the proper needle and diaphragm are presented to each type of record.

Heretofore one-record instruments have prevailed. Some require attachments. None of the leading phonographs can offer the advantages of The Ultona.

Your ideas of phonographic values are bound to change now. You cannot be satisfied with yesterday's standards. Times have changed.

Come in today and hear the wonderful Brunswick which is made by The Brunswick-Balke-Coller Co. See if you do not agree that it is the most perfect.

Prices \$32.50 to \$1,500
