Roy Emerson to be Tried at Mt. Airy.

Roy Emerson, of Creston, will be tried for the murder of his mother, in the district court at Mt. Airy, commencing July 8th. Tuesday of this week the application of Emerson's attorneys for a change of venue was heard before Judge Fuller at Creston, sitting in place of Judge Winters, the application stating that on account of the feeling against Emerson he could not secure a fair trial in his home county, and Judge Fuller after considering Clarke, Adair and Taylor counties, decided that Ringgold county was the best place for the trial. Emerson was indicted for the murder of his mother in their undertaking establishment at Creston, and Emerson has been in jail since his arrest on July 8th after his mother's death. He has retained Judge Thomas L. Maxwell as his chief counsel and he will be assisted by several other attorneys. Judge Fuller ordered that Emerson be taken to Mt. Airy on Monday, July 7th, by the sheriff of Union county and delivered to the sheriff of Ringgold county, and as the county jail and the residence of the sheriff at Mt. Airy are not in the same building, the court ordered that deputy sheriff Ed Hayner, of Creston, accompany Emerson to Mt. Airy and remain with him as a guard until the trial is finished.

There is little need to tell you who Mabel Normand is. Her association with the screen has ever been marked by happy clean fun and in Mickey she again shows that Peter Pan spirit that has made her hold a special place in the hearts of the film fans of the world.

The kindest act that a friend can do for a friend when Mickey comes to town is to tell him to see it early. The crowds will be spreading when you say good-bye to him. He runs up and down the scale with all the skill of a virtuoso, leaving you the better for his having pleased you. The George M. Cohan motto "Always leave them laughing when you say good-bye" is being put to everyone in the countless crowds that have aided to establish Mickey as the film sensation of the season.

It is reported that some one has offered to pay \$10,000 for the original of the "round robin" signed by thirty-nine senators who opposed the League of Nations. Is the legislation to preserve or to suppress this curious pronouncement?

Our idea of sinful waste is for a person to leave some ice cream in his dish.

Christian Church.

Remember the Sunday school hour at 10:45 a. m. Loyal Workers, the young married people, the Bible school. Next Sunday at the study hour, they will adopt a constitution and all their members are especially urged to be present. Why not let this class get real busy and not let this class get away of us? After the preaching service last Sunday morning by Dean Caldwell, there was a big surprise awaiting the members, when Dr. Foxworthy announced the gift Mrs. A. E. Gardner, wife of the late Mrs. Gardner, had made to the church, in the way of a residence property located on south Main street to be used as a parsonage, and Julian Harris read the deed which Mrs. Gardner is in feeble health and was not able to be present, so a committee was appointed and called on her that afternoon to receive her the very appreciative gift. The church was in need of a parsonage and had been contemplating purchasing or building one for some time. After services a basket dinner was held on the church lawn. It was a day long to be remembered. Don't forget usual services next Sunday.

Our choir has taken on new life. Come, all that can help in this service. We now have violin and cornet which adds greatly with the singing.

The Ladies' Aid will meet next Tuesday afternoon, July 1, at the church.

The C. W. B. M. will meet with Mrs. Ella Jenkins at her country home just east of town next Wednesday afternoon, July 2.

Mickey Is Coming.

"How can we keep the crowds in line?" has been the main worry of the theater managers. Mickey has been seen and there is every reason to suppose that the same worry will face the manager of the New Theatre since Mickey is booked for an engagement starting Wednesday.

Every so often an attraction comes into the public's scope which is sure to appeal to everyone and to be seen by everyone. No one has forgotten the success of The Birth of a Nation nor the acclaim that greeted "Tillie's Punctured Romance." Those pictures contained the hundred per cent drawing power that made the public want to see them.

There is nothing like it in the film world today. It has demonstrated that Mack Sennett is the supreme master of the funny and the scale with all the skill of a virtuoso, leaving you the better for his having pleased you. The George M. Cohan motto "Always leave them laughing when you say good-bye" is being put to everyone in the countless crowds that have aided to establish Mickey as the film sensation of the season.

The Standard Oil Company and the Automobile Industry

(Indiana)

PROBABLY no existing industry serves such a useful purpose in so many ways as the automobile industry, and certainly no industry has had such a meteoric increase in proportions.

Such an increase would have been impossible of accomplishment if a market for moderate priced cars had not been found, and without the Standard Oil Company (Indiana) it would have been impossible to find this market.

When only the rich could afford an automobile the Standard Oil Company (Indiana) had the vision of most everyone driving his own machine.

The Company set out, not to find a way to make gasoline prices higher, but to keep them low in the face of the enormous demands made by the automobilists, which in the average industry would have caused abnormal increases in price.

The efficiency of the Standard Oil Company in making a constantly increasing number of by-products has kept down the price of gasoline and enabled the man of modest means to run an automobile after he got it.

The Standard Oil Company not only makes gasoline to sell at a low price, but to fit the requirements of the modern automobile engine in such a manner as to enable the owner to get out of his car all that the manufacturer designed it to produce.

This is a salient example of the usefulness of the Standard Oil Company not only in contributing to the success of other industries, but in discharging its obligation as a public servant so that all may benefit from its efficiency and by its operations.

Are you acquainted with the champion dairy cow in Iowa for the month of May? If not meet Miss Mary Charlotte de Kol, 5 years old, belonging to Edwin Mason of Union, and the producer of 104 pounds of butter fat in thirty-one days. Miss De Kol is a Holstein and is a member of the herds comprising the Marshall County Cow Testing Association. During the month of May, when Miss De Kol was able to have all the grass she wanted, she gave down 2,301 pounds of milk, testing a little better than 4 per cent butter fat, and as much profit to her owner as any four average cows in the association. Records compiled for May among the various cow testing associations of the state show Miss De Kol to be the champion for Iowa for May.
