

Get Efficiency From Your Tractor

KEEP it in service constantly. The one best way to do that is to give it all the lubricating oil it will take, providing you select the correct oil.

The Standard Oil Company (Indiana) has produced three oils which will correctly lubricate the entire range of tractors. These are:

- Heavy Polarine Oil**
- Stanolind Tractor Oil**
- Extra Heavy Polarine Oil**

Any Standard Oil representative will be glad to show you the chart of Tractor lubrication, prepared by our Engineering Staff. It indicates specifically which of these three oils the Standard Oil Engineers have found will give the best results in your particular tractor.

We have just published a 100-page book, "Tractors and Tractor Lubrication," prepared by our Engineering Staff, which you will find a valuable reference book, and we believe it will save you many days of tractor idleness with the resultant money loss.

It's free to you for the asking. Address
