Unusual Value-In Tires for Small Cars

Not only is characteristic Goodyear merit conspicuous in Goodyear Tires for small cars but ordinarily the first cost is found to be not greater than that of other tires; often it is actually less.

The combination of unusual value in first cost and very low final cost, of course, is a result of Goodyear experience, expertness and care employed as insistently in the making of 30x3, 30x3 1/2 and 31x4-inch tires as it is in the construction of the famous Goodyear Cord Tires used on the highest-priced automobiles.

For this reason more cars using these small sizes were factory-equipped last year with Goodyear Tires than with any other kind.

Get this unusual tire value to enjoy on your Ford, Chevrolet, Dort, Maxwell, or other small car, at the nearest Goodyear Service Station. Get these tires and Goodyear Heavy Tourist Tubes at this station.

30x3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread.....	\$20.00
30x3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread.....	\$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in water-proof bag..... \$3.90

GOODYEAR

BRING THEM TO ME SATURDAY **Bob Akes**

Time Determines Value

When you look back in your experience the most satisfactory investments were the ones that cost the most at the time of purchase. Time and use determine value. In the light of this experience, we have purposed to handle Good Goods, ONLY.

There is such a thing as quality. Quality in merchandise is what intelligence is to a man—fertility to the soil. It is the one prime essential to worth and value. In these days of continuous advancing high prices, only merchandise which possesses this prime essential has earning value enough to justify the investment. Quality considered our prices are always right.

Auto Delivery

A success is a man who has stuck to one job long enough to do it well. One ton of coal is equivalent to two cords of wood for steam purposes.
