

Chronic Deafness

in the MIDDLE AGED

steals in as a thief in the night; insidious, without warning, like INVISIBLE GOVERNMENT, not manifest but effective. THE ONLY CHANCE TO SAVE THE HEARING is before it has advanced too far. It is a WITHERING PROCESS, involving the ear, drum, ossicles, auditory tube. I have treated cases from five to twenty years ago who retain their hearing well at the present time.

"The Cash Store"

Out of this season's bewildering dictates of Fashion, one thought stands clear—you must appear natural. Uncorseted? No! Emphatically No! Certainly frocks and suits never more definitely demanded the foundation of a clever corset. When Paris says you should look "uncorseted," Paris means you should wear a corset so deftly designed to be a part of yourself that it merely accents the natural beauty of your figure and the most critical observer will not be able to trace your charm to its subtle support.
