VALUE-FIRST
CLOTHES

Straws are here! This is the bell cow's first tingle.

In heralding the arrival of the new 1920 Straws, we desire to call attention not so much to the fact that they are HERE—but that they are THERE.

We selected each number as carefully as a district attorney gathers together his evidence and there isn't one single hat in the whole lot that we wouldn't feel justified in recommending for style and quality to our richest Uncle.

Among them, there is a braid, brim and block to fit and become every sort of brow and the prices will seem reasonable indeed when you start to try them on.

MIDDLE AGED

steals in as a thief in the night; insidious, without warning, like INVISIBLE GOVERNMENT, not manifest but effective.

THE ONLY CHANCE TO SAVE THE HEARING is before it has advanced too far.

It is a WITHERING PROCESS, involving the ear, drum, ossicles, auditory tube. I have treated cases from five to twenty years ago who retain their hearing well at the present time.

What 5,000 Miles
Mean to You

Overland, on frozen, rough Indiana roads, did 5,452 miles in 7 days

Equal to New York to San Francisco and back to Chicago at express train speed—with no change of engines—no let up to the terrific wear and tear. It means more than a year's abuse and not a flaw; stamina, quality in every part; another demonstration of the wonderful riding qualities of the radical new Triplex Springs.

Average, 32.45 miles per hour.
Gasoline, 20.24 miles per gallon.
