## USE TABERNACLE FOR CELEBRATION

Contract Practically Closed With the City Today for Use of Building at Twelfth Street as a Coliseum.

## WILL COLLECT PLEDGES

Festival Committee Will Go Out on Monday to Secure Money Which Has Been Promised on Expenses of Celebration.

A deal was practically completed this morning with the city council in which the fall celebration committee of the Keokuk Retailers League will take over the tabernacle building at Twelfth and Main streets, to be used as a Coliseum for the fall celebration here October 2 to 7. The deal was arranged and will be completed when the committee fulfills certain obligations. In order to meet these obligations the committee will visit the business men on Monday to collect on the pledges which were given by the local business interests. Any one who wishes to do so may mail his check to Secretary James M. Fulton, and in this manner save the committee a trip. The coliseum idea is one which the fall celebration committee has had in mind for some time. It is hoped that perhaps this temporary building can be made the nucleus for a permanent one in which public gatherings and conventions may be entertained by the city of Keokuk. The idea was presented to the council today, in the matter of using the tabernacle. The building will remain intact, and the benches and seats will be stored for use next fall. The city meanwhile, it is expected, as soon as the committee from the league performs its obligations, resolutions will be passed by the council governing the sale of the tabernacle. The festival committee will go out next Monday morning to collect on the pledges which are payable any time the committee sees fit to call for them. It is suggested that the committee can be saved several trips if those giving donations will mail checks to the secretary. The committee will meet tonight at eight o'clock to close the contracts for additional attractions.

## TESTIMONY IS INCOMPLETE

(Continued from page 1.)

over which the United States and Great Britain have disputed more than a century and which was partly responsible for one war between the two nations, bristled up again today. Great Britain, in a lengthy note, refused to comply with the American demand for the release of thirty or more Germans taken from the trans-Pacific liner China February 13. The Germans are now held somewhere in the orient. The president and his cabinet presented with the note by Secretary Lansing devoted more thought to the new issue than to the submarine question. Little new information on the latter subject was available. The British note contained an element of surprise, since thus far during the present war, England and France have acceded to American demands for the release of persons seized on United States ships, no matter what the nationality. This country has contended that American ships are substantially American territory, and that belligerents cannot legally board them to capture enemies any more than they could invade the United States for the same purpose. Protests to Great Britain and France have been made three times during the war. Heretofore, while the demands for immediate release have been complied with, the nations have not admitted the right of the United States to make the demand. Great Britain alone is involved in the China case. She has now refused to release the prisoners taken after waiting six weeks to reply to the American protest. The terms of the refusal are not known.

## Refusal by England.

WASHINGTON, April 4.—England has refused to release Germans taken off the American liner China recently while enroute from China to San Francisco. It was officially indicated today, following receipt of the British reply to the American protest in Japan. In previous cases, England has released seized persons upon American request. In the present instance, she apparently intends to have a "show down." Soon after receiving the China note, the state department sent another message to London, but whether this was a renewal of its original protest was not revealed.

## WETS AND DRIES FIGHT AT POLLS

(Continued from page 1.)

will of my fellow citizens," he said. "The vote is a compliment, and I'm human enough to enjoy compliments—but you know politics isn't my work. I'm not out for that sort of thing. I haven't any desire for it—besides I have other work to do." Again the amused smile played over the features of the auto king as he turned to some of the "other work" in which he has real interest. In this case it happened to be a conversation with Jane Addams regarding future plans of the Ford peace propagandists.

**Voting in New York.**  
NEW YORK, April 4.—New York is voting the first presidential primary in its history today—with the thunder of a loud silence from Oyster Bay. The colonel's friends let it out today that the four candidates for republican delegates at large in Massachusetts have replied may to the request that they stop using the Rooseveltian cognomen in their contest. Their letter of refusal, however, stated if elected, the quartette "would go to the convention unpledged in the sense that while Roosevelt is our first choice, we shall be free and open minded to support that man whoever

## Indoor Life Makes Fat

Try Oil of Korelin to Keep Weight Down or to Reduce Superfluous Fat.

People who are confined within doors and who are deprived of fresh, invigorating air and exercise must take precaution to guard against over-stoutness, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat is the result. If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any persons who are satisfied in their own mind that they are too stout are advised to go to Wilkinson & Co. or a good druggist and get a box of oil of korelin capsules, and take one after each meal and one just before retiring at night. Even a few days treatment has been reported to show a noticeable reduction in weight, improved digestion and a return of the old energy; footsteps become lighter and the skin less flabby in appearance as superfluous fat disappears. Oil of korelin is inexpensive, cannot injure, and helps the digestion. Any person who wants to reduce 15 or 20 pounds is advised to give this treatment a trial.

## DISEASE DEADLIER THAN BULLETS

(Continued from page 1.)

ing supply. A river is doubtful and the water must be tested frequently; well water is not likely to be infected, especially if the soldiers dig their own shafts. There is slight danger of typhus in this latitude, though farther south the disease has ravaged the native population. As a precaution, however, no man is allowed to go near the Mexican towns where he might carry away vermin. In necessary cases the messengers bathe on their return. The average of illness in foreign service has been four per cent. If the army's present health continues, the expedition will have established a new mark for health in a country where, officers agree, the average of sickness might have been very high.

**Four Soldiers Dead.**  
EL PASO, Texas, April 4.—Four American soldiers have died of illness or accidental injuries suffered in Mexico pursuing Villa. Over three hundred soldiers of the expedition forces have been returned today in Mexico and are being treated today in Fort Bliss hospital here. No American soldier has yet been killed in battle with the Villistas in Mexico.

**Swift Advance.**  
EL PASO, Texas, April 4.—American troops today were approaching the Durango state line south of Chihuahua City on Villa's trail. Their swift advance surprised border officials. Friday, Colonel Dodd's cavalry column appeared at San Antonio near Cumburiachi. At the time Villa with only eight men passed through Satevo, about fifty miles south of the American vanguard. He was reported to be fleeing for his old haunts in the Durango mountains. Villa has no intention of forming a junction with Canuto Reyes in the

## Primary Law Humbug.

Leslie's Weekly: The new system of nomination by primaries is proving itself to be the route to political millennium. Using her standard primary law for the first time Indiana finds that it plays into the hands of the rich candidate. Ed Durn was compelled to make his own organization all over the state practically on a scale to correspond with a political party organization. The presidential primary offers a level field for "favorite sons" to get on the list to the future embarrassment of their state delegations, men of real presidential caliber, such as Root, Hughes and Roosevelt, who showed remarkable interest in helping their names over the primary line in Minnesota the bewildering contradictory provisions of the primary law have produced a situation whereby Senator Cummins, "favorite son" of another state, stood practically alone of the republican ball. Minnesota Tribune declares: "Ever since the Minnesota vote, we thought that other states concluded from this that Minnesota was Cummins, they would proceed to 'knock the harm out of harm's way.' The predicament in Ohio and Massachusetts is even worse. There a candidate for delegate is required to obtain the consent of the delegates to the president to whom he pledges his support. 'If the legislature does not repeal the law,' says the Ohio State Journal, 'and make a nomination a matter of honest judgment, instead of a bucked and gagged affair, it will be universally discredited.'

## COLUMBUS, N. M., April 4.

Several carloads of ammunition manufactured in the arsenal at Rock Island, arrived in Columbus today and were unloaded and packed in a temporary adobe magazine. Army men regarded the Columbus coming at this juncture of the Villa hunt, as significant and ominous. Hundreds of thousands of rifle shells were unloaded, packed in heavy green boxes holding twelve hundred 30-30 calibre shells each. The magazine is a short distance from the headquarters of the camp.

## DICKEY CANDIDATE FOR LEGISLATURE

Keokuk Attorney Has His Papers All Ready to File at the Proper Time. Clarence H. Dickey will be a candidate for state representative on the democratic ticket at the June primary. Mr. Dickey has completed his papers, all but the filing. These will be filed as soon as possible under the law. Mr. Dickey is quite popular in Keokuk and is a prominent attorney here.

## The Milkmen's Strike.

CHICAGO, April 4.—Health Commissioner Dr. John Dill Robertson today took steps to limit Chicago's milk supply to a sufficient amount for babies in case the strike of farmers in middle western states for better prices is not ended within three days. He told distributors their motto must be "homes first, saloons last." Reports from St. Louis and Cleveland, Ohio, declare both cities are facing a milk shortage as a result of the spread of the strike. The South-

## ern Milk Producers' association at

Louis yesterday decided to withhold 25,000 gallons of milk or sixty per cent of the city's supply, unless the ers meet their demands.

## Primary Law Humbug.

'If the legislature does not repeal the law,' says the Ohio State Journal, 'and make a nomination a matter of honest judgment, instead of a bucked and gagged affair, it will be universally discredited.'

## IOWA PRESS COMMENT.

Marshalltown Times-Republican: Ed Durn is now denounced as a "chronic office seeker," while Meredith is lauded to the skies as the purest of democratic perfection. Beats all how times change in Iowa democratic politics. Only a few months ago Ed Durn was the shining star and hope of the Iowa democrats.

## Davenport Times: If the people of

this country uphold the presidential policy, which seems to be drifting toward a break with Germany, it will have to understand that it means the formation of vast armies and the expenditure of billions of dollars and the forming of foreign alliances against which Washington warned the nation in his farewell address.

## Waterloo Courier: Everybody is

for good roads if we can have them at no greater cost than the present bad ones. And it has been demonstrated in plain figures that we can
