UNIFORM DESIGNS FOR WINDOW BOXES

Committee From Civic League is Investigating This Feature With View to Getting Best Possible Kind.

TALK WITH MERCHANTS

As Soon as Suitable Design is Selected, Committee Will Present This—No Flower is Chosen.

The committee from the Civic League in charge of plans for window boxes and hanging baskets for the white way poles is investigating the best kind of boxes and baskets. As soon as the committee of which Miss Caroline Baldwin is chairman, secures this necessary information, it will call on the Main street merchants and talk over the proposition with the merchants themselves. There are several things which must be considered in the window boxes and in the hanging baskets as well, and in order to have the display uniform, one style will be adopted. No special flower has been selected for the baskets. Some of the merchants who have planned window boxes are following the example of other cities and are using geraniums. It is understood that these are not the most suitable plants for such use and something better may be substituted. The window box idea seems to have taken in Keokuk and there are several boxes of blooms already appearing in the windows of various buildings, both on Main street and the side streets.

Dandruff Soon Ruins The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

Indictment charging him with conspiracy to blow up the Wolland canal, are still in possession of United States authorities and will be used in the federal jury investigation into the plot now under way. An order from United States Attorney General Gregory is the only order upon which District Attorney Marshall will give them up.

With this positive announcement today, the situation surrounding the arrest of Von Igel and the seizure of his papers took on a grave international significance, because of the strenuous efforts of the German ambassador, Von Bernstorff, to have the papers restored, representing that they are embassy papers and therefore inviolate.

Should the papers disclose criminal conspiracy, it is held, that in view of Von Bernstorff's request, it would show that the German embassy had official knowledge of the conspiracy. Among the papers are code books. They are being translated. Photographs of the more important documents have been forwarded to Washington.

BODY OF VILLA NOT IN THE GRAVE

colony has been depleted to twenty-five members. They have lived here through all the troubles of the last five years, but say if the American troops are withdrawn they will leave with them.

Acting on War Minister Obregon's instructions, General Gutierrez has detained ten carloads of oats and hay shipped a week ago from El Paso by Taylor Brothers, American merchants, intended for the use of the American forces. However, Gutierrez is understood to be permitting provisions to be shipped from Parral to the American camp at Santa Cruz De Viezca. These are transported to the suburbs of Parral where American army wagons meet them.

Prevented Massacre

SAN ANTONIO, Texas, April 21.—General Pershing withdrew his advanced detachments to save them from possible massacre, according to headquarters today. Pershing's latest advice have not been entirely given out, but were said to contain details of the attitude shown by Carranzista troops toward the American expedition chasing Villa. Funston's staff officers having prepared a report for Chief of Staff Hugh L. Scott, would not reveal the exact nature of incidents on which their declaration was based. But they agreed the Americans fell back from the Parral region only when a plan to wipe them out became evident. The expedition was practically stalled today, it was understood here. Future activities depend on the conference of General Scott and General Funston in which General Funston is expected to urge the adoption of recommendations in his survey of the situation. No reports had been received from General Pershing for twelve hours.

Four New Aeroplanes

COLUMBUS, N. M., April 21.—A battalion of the Twenty-fourth Infantry detained here during the night. They were the vanguard of the 2,300 reinforcements sent by Funston to strengthen the communication lines in Mexico. It is understood, however, that the new arrivals will be held in camp here until developments warrant their entrance into Mexico. Army aviators today tested their four new aeroplanes just arrived for use with the expedition. Only two of the original eight machines which entered Mexico are still in commission and they will be condemned immediately after new mounts arrive for the airmen.

Will Deport Foreigners

[By E. T. Conkie, United Press Staff Correspondent.] EL PASO, Texas, April 21.—"Mexico for Mexicans" is believed to be the object of a vigorous movement to deport foreigners opposed to the Carranza government. Consul Garcia today announced that the de facto government has revived an old organization calling on officials to report the names of all foreigners who have been antagonistic to Carranza. They will be deported.

Garcia also made public a message from War Minister Obregon, expressing the hope that "our national and international difficulties soon will be overcome."

The message contained the previously reported statement that Obregon expected momentary confirmation of Villa's death and placed confidence in the future.

Horse and Mule Market. ST. LOUIS, Mo., April 21.—There was less competition for chunky and big stuff, owing to lighter attendance of buyers for kinds, and though they moved, the market was not as strong as was during the previous day's session but there were inquiries and the better grades brought fairly satisfactory returns. Light, chunky common kinds found a slow market and sold on anything but a profit basis.

Retalling is about over for the week, and aside from the fact there was but little activity from the foreign quarter, a dozen commissions were on the market for war horses, but there was not enough material to engage in money. French inspectors arrived on 46 head and Italians 50, while over in the pavilion 20 heavy draft, extra \$11.00; Eastern chunks \$10.00; Southern horses, good \$10.00; Southerners, plain \$10.00; Southerners, common \$10.00; Choice saddlers \$10.00; Plugs \$10.00.

Mules—Trading was hardly brisk as it was the previous week and prices were not as strong. Cines of around \$5 per head had noticeable in places. Many have arrived so far this week that they are accumulating in the pens and are being rapidly disposed of, while yesterday failed to move with any better success.

16 to 18 1/2 hands \$10.00; 15 to 16 1/2 hands \$12.00; 14 to 14 1/2 hands \$10.00; 12 to 13 1/2 hands \$10.00; Plugs \$10.00.

DR. F. G. BEARDSLEY TO ATTEND MEETING

Pastor Congregational Church Will Meet With Board of Theological School.

Dr. Frank G. Beardsley will go to Chicago Monday to a meeting of the board of examiners of the Theological seminary which is a department of the university of Chicago.

In connection with the Theological seminary proper, there is a foreign institute which trains men to do home mission work among the foreigners in this country. In this institute there are represented the following nationalities: English, Danish, Norwegian, Swedish, Finnish and German. In connection with the institute there is a deaconesses training school, all three of the branches of work coming under the supervision of the board of examiners of which Dr. Beardsley is a member.

Would Arm Old Fort. BROWNVILLE, Texas, April 21.—Ex-governor A. B. Colquitt of Texas, would mount guns on old Fort Brown here for protection against Mexican attacks, he declared in a senatorial campaign address.

"A few substantial cannon with their noses pointed across the Rio Grande would have a wholesome effect," said Colquitt. "If I am sent to the senate I will introduce a bill to arm the fort."

Action is Postponed. WASHINGTON, April 21.—Unable to reach a decision, the senate judiciary committee today postponed action on the nomination of Louis D. Brandeis until Monday.

Bryan's Peace Plan. WASHINGTON, April 21.—W. J. Bryan's plan for preventing war became clear today. He explained it in a crowded series of conferences of senators and representatives. It is a plan to convince congress that involving the U. S. in war rests entirely with the members, that congress is altogether free to exercise the final decision and should exercise it regardless of any act of the president. Once congress appreciates this, Bryan is convinced there will be no declaration of war by the United States against Germany. He is certain the majority of both houses is opposed to war.

The president has authority only to carry matters up to and including the breaking off of diplomatic relations, Bryan argued over and over again. After the break, he maintained, the president's power ends; then it's up to congress.

With this premise accepted Bryan insisted that the president was required to respect the authority of congress in the matter of war making just as he had exacted from con-

gress respect for his own authority over diplomatic negotiations. Bryan insisted he is not "fighting" the president. He is only disagreeing with the legislative branch of government matters that concern the branch.

RUSSIAN TROOPS SENT TO FRANCE

Explanation is That it Was Done to Support Conscriptivists of England.

[By J. W. T. Mason, Written for the United Press.] NEW YORK, April 21.—The landing of Russian troops in France to participate in the fighting along the western front, is probably an effort to support the out and out conscriptivists in England.

Russia cannot spare a sufficient force from her own battle fronts to cause any material change in the military situation in France. But even a small body of Slavs contributed to France must exert a powerful moral influence in Great Britain at a time when the British ministry is threatening to break up over the question of impressing more men for the French front.

RUSSIAN TROOPS SENT TO FRANCE

Explanation is That it Was Done to Support Conscriptivists of England.

[By J. W. T. Mason, Written for the United Press.] NEW YORK, April 21.—The landing of Russian troops in France to participate in the fighting along the western front, is probably an effort to support the out and out conscriptivists in England.

Russia cannot spare a sufficient force from her own battle fronts to cause any material change in the military situation in France. But even a small body of Slavs contributed to France must exert a powerful moral influence in Great Britain at a time when the British ministry is threatening to break up over the question of impressing more men for the French front.

Since the beginning of the Verdun offensive the British have assisted the French by taking over the western front from Arras to the Somme. This has released probably 100,000 French troops for operations at Verdun, but there has been no actual help extended by the British army so far as known. The reason for this, probably, is that the present number of British soldiers under arms does not permit an extension of the British front beyond its present length. To contribute still further to the allies' military strength in the western area, Great Britain must have more men. The appearance of Russians in France emphasizes the difficulties the British government is experiencing in keeping up its reserves.

"Uncle Sam" Farlow Hurt. CAMP POINT, Ill., April 21.—Samuel Farlow, an aged and widely known resident of this city, had a narrow escape from death last evening, when he fell under the wheels of a Wabash car in alighting at the switch near the C. B. & Q. depot. But for the care of the conductor he would have been almost sure to have been crushed to death.

Will Harry Marry Again? NEW YORK, April 21.—Harry K. Thaw is in town today and Broadway has an idea. It is that Harry is going to marry again. There is nothing to base the idea on except that Thaw was granted a divorce from Evelyn Nesbit in Pittsburgh on Wednesday.

Ed Tracy's Barn Burns. MT. SPERLING, Ill., April 21.—The barn at Ed Tracy's home, about two miles south of town, burned to the ground last night about 10 o'clock. It is thought that it was struck by lightning and the building burned in a short time. Mr. Tracy lost two horses, a Ford automobile, all his grain and part of the farm machinery. It is hard to estimate the loss at this time.

But rumor is being circulated Harry is to marry a school teacher here. Thaw left his hotel early today and his secretary said he did not expect him back until near six this evening. He said he knew nothing of the school mistress rumor.

It is probable the papers will be returned to him after the state department and the department of justice have finished with them. A course considered and understood to be practically decided on is to insist that Von Bernstorff identify such papers as are embassy property.

If the embassy should refuse all papers involving criminal propaganda, this government would be free to use them without reservation of any sort. The Von Igel papers with the evidence obtained from Horst Von Der Goltz are believed to show that Captain Von Popen and Captain Boyd were not their own high court in the United States. Attention was called to the emphasis placed in the Von Der Goltz statement on the question that Von Bernstorff personally plans to invade Canada.
