GRANDMA NEVER LET HER HAIR GET GRAY

She Kept Her Locks Dark and Glossy, With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen sponge or soft brush with it and this through your hair, taking small strand at a time. All gray hair disappears. Other applications of this preparation of the same ingredients, 1 ounce, 1/2 ounce, 1/4 ounce, 1/8 ounce, with or without the hair, will give you the same results. Mr. Cray, these theories.

FIRST TOURNAMENT AT COUNTRY CLUB

Blind Bogey Play Will be Staged Tomorrow, Providing the Weather Doesn't Interfere With Enthusiasts.

PRIZES FOR THE CADDIES

New Feature Will be Introduced This Year for Golfers' Valets Who Will be Considered Best.

The first golf tournament of the season will be held tomorrow at the Keokuk Country club. It will be a blind bogey tournament and will be open to all of the senior members. They will play against blind bogeys, which will be between forty and fifty inclusive. Each player will register his handicap before starting out.

Four prizes will be awarded for the play tomorrow. The prizes will be golf balls.

The tournament will be played unless it is raining tomorrow. The rain today, it was said, would not make any difference in the course, and unless the weather is bad tomorrow, play can be made.

The committee is hoping for a large list of entries in the play Saturday. Each of the players will be given the privilege of choosing his own handicap and he will register this handicap before starting.

Prizes for Caddies.

A prize will be given this season to the best caddie. There will be eight awards altogether offered for the best, second best and third best caddies, and five fourth best caddies. The prize for the best caddie will be \$5; the second best will get \$3, and the third best, \$2. Five awards of \$1 each will be afforded for the next best caddies.

The caddies will be scored against for lost balls, and will be rated on the basis of good, fair and poor. A good caddie must know every club in the bag; he must know the distance between holes, and must know the number of strokes and various other matters in which the golfer's valet is supposed to be versed.

THE "ENDLESS CHAIN" DANGER OF CATARRH

S. S. S. the Proper Safeguard.

Catarrh is a "cold" in its chronic form. The air is filled with bacteria which is taken into the mouth and nose through the process of breathing. When the body is in a healthy condition no harm results. But with our present methods of indoor living and sanitary occupations, the mucous membranes are usually not able to "throw-off" this harmful bacteria. Catarrh is a very common ailment. These germs breed and multiply, causing inflammation, the blood adheres to the membranes to fight off the bacilli. When the blood is in a morose condition its "defensive" efforts are successful. Otherwise the blood "hangs on"—turns into catarrh. Catarrh is a chronic inflammation of the mucous membranes. Mucous membranes are the lining on all the internal cavities of the body. Get that—ALL cavities! There is the "endless chain" element of danger. The only way to treat catarrh is to purify the blood. The surest way to purify the blood is to take S. S. S. The Senators are still flitting around second place. They gained a game on the Indians yesterday by beating the Browns, 2 to 0.

Where They Play Today. Burlington at Mason City. Cedar Rapids at Marshalltown. Muscatine at Fort Dodge. Clinton at Waterloo.

A Pitcher's Battle. WATERLOO, Ia., May 12.—Cedar Rapids won a pitcher's battle between Hart and Berger, 2 to 1. Waterloo's only error paved the way for the visitor's victory. Score: Cedar Rapids . . . 002 000 000—2 7 9 Waterloo . . . 010 000 000—1 6 9 Batteries—Berger and Widener; Hart and Brennan.

Muscatine's Winning Broken. MASON CITY, Ia., May 12.—Muscatine's long string of victories was broken yesterday when McCullough let Egan's crew down with three hits and one run while his teammates were finding Wagner for nine hits and two runs. This is the first game Muscatine has lost since the opening of the season. Score: R. H. E. Mason City . . . 000 000 020—2 9 3 Muscatine . . . 000 001 000—1 3 1 Batteries: McCullough and Richardson; Wagner and Hruska.

Marshalltown Victor. MARSHALLTOWN, Ia., May 12.—Penner pitched a great game for Marshalltown yesterday and Clinton was defeated 5 to 1. In the last inning Durham let Harrel's single go through him and a poor throw to the plate allowed Harrel to score the only Clinton run. Score: R. H. E. COMMERCIAL BALL MAY BE POSTPONED

Weather Likely to Interfere With the Three Contests Scheduled For Saturday Afternoon.

WILL PLAY IF POSSIBLE

Contests That Will be Played, if the Weather Permits, Will be Hot Once—Fight for Leagueship.

The rainy weather of today seems to indicate that the Commercial league games scheduled to be played tomorrow may have to be postponed and the most disappointing of all is the fact that the weather man refuses to make any rash promises for the morrow. However, the report comes from the Y. M. C. A. that the baseball diamond at the athletic field drains pretty well and with a little sunshine it will be in condition to be played on.

The games scheduled for tomorrow are as follows: 2:00 p. m.—Kellogg-Birge Co. vs. Y. M. C. A. 3:30 p. m.—S. Hamill Co. vs. Electrics.

5:00 p. m.—Huskamp Bros Co. vs. Irwin-Phillips Co.

All three of these games give promise of being fast and there has been a good deal of speculating as to which team will come out on top of the percentage column after these games. Kellogg-Birge Co. and the Y. M. C. A. both won their games last week and there will be a battle royal for victory in this game. Manager Merrill of Kellogg-Birge Co. had a strong line-up in the game last week, but claims to have strengthened it this week and expects to get the heavy end of the score in the game with the "Y." Irwin-Phillips Co. won its game last week, also, but Manager Huskamp threatens to bring them down a peg tomorrow. S. Hamill Co. and the Electrics have strong teams, but it looks like the loser will have to take the cellar position.

AMUSEMENTS.

At the Grand. Did you ever visit twelve Broadway stars one right after the other? That is what Molly did—and it was on her first assignment as a newspaper reporter at that!

Molly Malone, arriving straight from Ireland as a surprise to her brother, finds a greater surprise waiting for her. Her brother is not at his customary desk at the Tribune office, but has left unexpectedly for the war a few days previous. The little Irish girl is at a loss what to do—her funds are limited, and she is a stranger in America. Just at this critical moment, Miss Hilton, one of the Tribune reporters who has been detailed to interview Mme. Fjorde, upon her arrival in America aboard the Adriatic, comes in with the report that Mme. Fjorde was not aboard the steamer. It is Molly's chance, and with true Irish spirit, she is quick in snatching it.

"Sure, she was on the Adriatic, wasn't she after talking with me herself?" she blurts out. "Is that what they're paid for, these reporters, for not finding a person? Sure, I could do that well, meself."

As a result of this frankness, Molly is detailed to interview Mme. Fjorde in Miss Hilton's place. Her try-out proves successful—so successful in fact, that the Sunday editor decides to give her another chance at the game. An idea for a big Sunday story has come into the office. It is a plan to interview ten theatrical stars in their summer haunts. The name of Lulu Glaser is given as a start-off. Each actor or actress as interviewed in turn, is to suggest the name of some other one, until a chain of ten has been interviewed. The impossible part of the task consists in the shortness of the time in which the interviewer is to get the task completed—three days being allowed for the assignment.

This is Molly's real try-out. From Lulu Glaser in her apron and flower garden at Mt. Vernon, the little reporter follows her Irish and newspaper nose first to May Robeson at Sheephead Bay. From there, one by one, she makes a successful canvass of Henry Kolker, Cyril Scott, Julian Eltinge, Charles Ross and Mabel Penon, Robert Edson, Leo Dietrichstein, Julia Dean and finally Henrietta Crossman. In her race across the country, she is constantly followed and hand-

WOMEN SHOULD GET THIS HABIT AS WELL AS MEN

Don't eat bits of breakfast until you drink glass of hot water.

Happy, bright, alert—vigorous, and vivacious—a good clear skin; a natural, rosy complexion and freedom from lines are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "run-downs," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere. An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Those subject to sick headaches, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.
