TO THE PUBLIC!

We have come into your community to make our business a benefit to you and to ourselves. We do not aim to make a large profit, but have reduced our prices on all meats so you get the benefit.

Then we sell on large sales and small profits when most other merchants sell on small sales and large profits. We charge you the odd cents; that is we charge you just what an article comes to, no more or no less.

Since we have come into your community not only have we reduced prices but have caused others to reduce their prices a great deal.

We have not come to cause anyone to quit business or run anyone out of business, but are here to do as anyone else is doing.

Our meats are gotten in fresh every day and are all U. S. government inspected. We don't handle a cheap line of meats. Just because our prices are cheap that is no sign that our meats are cheap for we are handling only A No. 1 meats and sausages.

Not only do we sell retail, but sell wholesale also. Our business is to satisfy everybody. If you come into our market and do not see what you want, kindly ask any of the clerks and they will gladly get it for you if we have it in stock.

Let our market be your headquarters for your meats and you will find in a short time that you are saving money by dealing with us.

Fur-trimmed coats and suits are in high favor this fall

As civilization advances, fur-bearing animals are slowly but surely being exterminated; therefore the price of furs is consequently

advancing. So whatever you may buy this year in the way of furs or fur-trimmed garments, will be bought at lower prices than similar articles can be bought next year.

We include in our stocks a number of fur-trimmed garments—coats and suits—designed by the Wooltex Style Bureau, thus assuring their absolute style authority. They are made from such splendid materials and by such skilled tailors that they are sold with the guarantee of absolutely satisfactory service.
