

BAPTISTS CLOSE ANNUAL MEETING

Dr. G. P. Mitchell in Final Address
Last Evening Explains Five
Year Program of
Church.

YOUNG PEOPLE'S WORK SPEAKS OF CONDITIONS

Discussed by Delegates—William
Fouts of Keokuk Again
Elected District
President.

The annual convention of the Keokuk Baptist association closed last evening. This last session was largely given over to a discussion of B. Y. P. U. work. The election of officers for the B. Y. P. U. of the Keokuk association, resulted in Wm. M. Fouts of this city being again selected president.

The sermon last night was delivered by Dr. G. P. Mitchell of Des Moines, state secretary of the Iowa State Baptist association. Dr. Mitchell explained the five years program of the Baptist church and its practical application to every church member. This program, the speaker said, was adopted by a committee at a meeting of the Baptists in Los Angeles, when no other plan for putting the church to the front could be suggested. Briefly the points are as follows:

- To secure 1,000,000 new members in five years.
- To increase the number of home and foreign missionaries to 5,000.
- To raise \$20,000,000 as a fund, the interest to go for aged ministers and missionaries.
- To raise \$5,000,000 for an endowment for home and foreign colleges.
- To give \$5,000,000 annually to missions.

Work For All.

He told his hearers that in the work mapped out, each could find something on which to spend special efforts and that it was only through the co-operation of Baptists all over the country that the goal could be realized.

Dr. Mitchell compared the nearly 2,000,000 Baptists in the northern Baptist convention to a great army, which included famous men in all the arts and crafts. He said that this army must move on and said that the five year program was the vision that was to make for great progress. Iowa Baptists, especially the younger men and women, were urged to lead their endeavors toward the realization of the goal.

The program last evening opened with a solo by Miss Lillian Cash of Fort Madison. Following this Wm. M. Fouts, president, took charge of the B. Y. P. U. session. The following talks were given:

- The B. Y. P. U. Diligent in the Lord's Service, Mr. Fouts.
- The B. Y. P. U. Service, Miss Ruby Hummer.
- The B. Y. P. U. Denominational Aspect, Miss Grace Woods.
- The B. Y. P. U. After a Revival, Clyde Inman.
- The B. Y. P. U. and College Young People, Miss Lillian Cash.
- The B. Y. P. U. Development Through Participation, Anson Berryman.

Resolutions Adopted.

Resolutions of thanks and appreciation for the kind treatment received here during the convention were voted yesterday. It was also decided to turn over to the state mission board some \$2,000 in the treasury of the association, which was being held for pensions for aged ministers. There was discussion yesterday also of backward churches in the district and a committee was appointed to investigate these churches and decide on some way to remedy the trouble. Of special interest yesterday afternoon was a pipe organ recital given by Miss Sallie B. Anderson. A number of the churches in the district have no organs and the recital was much enjoyed.

Glants Make Record.

[United Press Leased Wire Service.] NEW YORK, Sept. 22.—If the Glants, who now have a run of sixteen straight games to their credit, win again this afternoon, they will be within three games of the major league record which was established in 1884 by the Providence club of the old National league. Playing at the gall they are, the Glants may have a big part in deciding the league leadership. They have another series with the Dodgers before the season ends.

Rivals Her Daughter in Youthful Beauty

A well-known society matron whose youthful beauty is so well preserved that she is regarded as her daughter's rival in this respect—though she does not pose as such—attributes her girlish complexion chiefly to two things. She says: "I am convinced that many cosmetics by overloading the skin and pores, tend to age the complexion. Merely washed with just the opposite effect. I keep the pores clean, permitting them to breathe, and removes dead particles of cuticle which are constantly appearing and which give the complexion that aged look. When ever my skin begins to get the least bit off-color, muddy or faded, I go to my drugstore for an ounce of mercurized wax. I apply this nightly, like cold cream for a week or so, washing it off mornings. This is what keeps my complexion as fresh, white and velvety.

"The absence of wrinkles and flabbiness I owe to the use of a simple face ball prepared by dissolving one ounce of powdered salicylic acid in a half pint of witch hazel. This keeps the skin 'tight' and firm."

ENGINEER FROM RUSSIA IN CITY

Alexander Astorff, Professor in the Imperial Institute in Moscow, Spent Some Time at Power Plant.

He Talks Most Interestingly Concerning Prohibition That Really Prohibits, and Munition Manufacturing.

A tribute to German efficiency was paid by Alexander Astorff, a member of the general committee on army supplies of the Russian General Union who spent yesterday in Keokuk, and who inspected the Keokuk power plant. Prof. Astorff says that the Germans are turning out more shells each day in their munition plants than are all of the allies.

The Russian engineer came to Keokuk from St. Louis where he had been on a mission concerned with supplies. He was on his way back to New York where the Russian committee maintains its offices, and stopped over here to see the power plant. Manager C. W. Kellogg arranged to show the visitor the plant that evening, and in the morning Prof. Astorff appeared for a daylight inspection of the wonderful works here.

When he is at home Monsieur Astorff is a professor of mechanical engineering in the Imperial Technical Institute of Moscow.

Prof. Astorff is most interesting to talk to. He told Mr. Kellogg that the Russian government owns all of the railroads there. The various municipal palities own certain other public utilities.

When asked regarding the Russian prohibition, the engineer declared that it actually prohibited. This was because the manufacture of the liquor was a government monopoly. When the decree of prohibition was entered, the government of course stopped its manufacture. This was prohibition secured. That it was a wonderful thing for the country, is the belief of the engineer.

The Russian visitor considers the Keokuk power plant a most wonderful structure. He has asked for data and literature concerning it.

AMUSEMENTS.

At the Grand. Tonight will be the last chance for the lovers of strong dramatic pictures to see "Going Straight," the big Griffith Triangle feature which is being shown at the Grand for two days. The cast is headed by that universal favorite, Norma Talmadge, and the supporting cast numbers among its members Ralph Lewis and the Triangle kiddies. It is the story of a reformed crook who is leading a respectable life devoted to his wife and children. There comes a blackmail who forces him into one more big theft and the consequences of that one false step are exciting to say the least.

The comedy is called "Willie's Wobbly Ways" and features William Collier. There are some real thrills in this picture and some Ford jokes that are the latest model on the market. At the Grand tonight.

Saturday and Sunday, for two days showing comes the greatest favorite the screen has ever known, Mary Pickford, in a quaint and lovely photoplay, "Hulda from Holland." Critics who know have pronounced this the greatest picture Miss Pickford has ever made, which is saying a great deal considering such masterpieces as "Poor Little Rich Girl" and "The Bonding." The supporting cast includes such well known favorites as Frank Losee and John Bowers.

As a special attraction for the children Saturday afternoon only, there will be shown the moving pictures which have been taken at all the public schools during the past week. Here is a chance for all the school children to see themselves on the screen.

There will be no advance in price in the showing of "Hulda from Holland." Children 5 cents, adults 10 cents.—Advertisement.

Carlyle Blackwell Tonight. The eminent artist of the screen, Carlyle Blackwell, is featured in the leading role of the latest "Braymade" photoplay, "Sally in Our Alley," which is to be presented at the Hippodrome theatre tonight.

All admirers of Carlyle Blackwell will undoubtedly like their hero in this play as it is one of the best that this noted player has ever appeared in. "Muriel Ostriche, the dainty and piquant beauty of the film, is co-starred with Mr. Blackwell in "Sally in Our Alley," which is one of those extraordinary sweet pictures that prove a treat for the entire family—from baby to grandpa.

Francis X. Bushman, Beverly Bayne, Maurice Costello, Ethel Grandin and numerous other noted stars will be featured in their latest photoplays at the Hippodrome theatre tomorrow afternoon and evening.—Advertisement.

Orpheum Theatre to Open.

The Orpheum theatre will open Saturday, Sept. 23, with a Pathe Gold Rooster play entitled "The King's Game," in which that adored actress Pearl White, who played the leading role in "The Perils of Pauline" and "Exploits of Elaine," will be featured. Sunday will have the opportunity of seeing that famous English actor, Cyril Maude, in another Gold Rooster play, "The Greater Will," in five acts. Cyril Maude needs no introduction to you as many of you have seen him in the larger cities in Grumphy and paid \$4.00 a seat.

The Orpheum has always shown the best that was to be had in clear pictures and will continue to show the best feature picture that the market affords and will from time to time put on some musical tableaux for those who like to see the actors in the flesh.

In addition to the above features there will be a comedy of unusual merit that will make you forget your sorrows.—Advertisement.

"The largest undertaking on earth" in a business sense, William Necker of Union Hill, N. J., has arrived at the destination whither he piloted unnumbered involuntary patrons. Undertaker Necker was a rare New Jersey institution. His chief aim in life was to popularize death and demonstrate to heirs the importance of saving money by investing in superior wearables at low prices. He played the cut-price game alone, smeared the billboards with cut-rate literature and lost social standing with the trade. But he made big money and left a big roll.
