AMUSEMENTS

YES! MAGICALLY!
CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of freezeone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet. A few drops of this new ether compound applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers. This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while freezeone is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Don't let father die of infection or lockjaw from whitening at his corns, but clip this out and make him try it.
