# TURN THE CLOCK AHEAD TONIGHT

Just Do This When You Go to Bed  
 Tonight and Then Forget to  
 Worry About That Ad-  
 ditional Hour.

## GIVES YOU MORE TIME

If You Play Golf Just Think of the  
 Extra Daylight You'll Have to  
 Chase Over the  
 Green.

## JUST DO THIS AND BE CONTENT.

Set all clocks and timepieces ahead one hour just before retiring Saturday night.  
 Those who are awake at 2 a. m. Sunday, may wait until that hour to set their timepieces ahead one hour. Ahead—forward—one hour. Understand this and do it, and having done it, be content, nor worry any more about it.  
 This simple instruction, obeyed so thoroughly that every timepiece in the country is thus changed one hour ahead, will carry out the law and prevent any confusion whatever. Every phase of life will move ahead with the clocks—trains, street cars, business, religious services—everything. The 9 o'clock trains Sunday morning will leave at 9 o'clock by the clock. The 7 o'clock street cars will run at 7 o'clock by the clock—everything will be just as it is now, by the clock. And the clock will be the only thing to rely on for time, just as it is now. Just what the clock says, after it has been turned ahead one hour, that will be the time, and the time for everything, just as it is now. There will be no change in anything except the clocks and watches, and no one need pay any attention to the fact that they have been moved one hour ahead.

Complete plans for the daylight saving system, which goes into effect tomorrow have been announced by federal officials and the nation's workers are ready to push the hands of the clock one hour ahead to assist Uncle Sam in his fight for liberty.

Every city in the country, every town and village, everything is in readiness for the new system, a system that will save the nation thousands of tons of coal daily as well as assisting the working man, the shop girl and the laboring class as well as the busy office man.

What this plan means to the nation can be described in a few words. In the first place it means the conservation of the fuel supply. Secondly, it gives the average man more time to devote to gardening, which in turn means a bigger supply of food for the nation and, thirdly, it means a more healthy nation.

The work of the masses will be done in daylight, where, heretofore, it was done in the dark a certain number of hours a day.

### Favored by All.

Since the plan was first spoken of it has attracted the attention of some of the biggest men in the country. Efficiency experts have studied the plans and in very instance have returned a favorable report on their study.

The action has been favored by President Wilson for the past several months. Garfield and Hoover have been ardent supporters of the plan. There has never been an argument against the system and every learned man in the country is of the belief that the plan will greatly aid the nation's savings.

The daylight saving plan will give the following daily advantages:

One hour or more for outdoor recreation. Recreation is a national asset, an immense force for health and moral well-being.

Working mothers and fathers obtain an extra hour for outdoor play with their children, both summer and winter.

One hour less for bad lights in tenements.

Lessened eyestrain for workers and school children due to the use of artificial light.

Smaller risk of accident in industrial establishments, because there will be a light hour instead of a dark one at the end of the working day at the time of greatest fatigue and most frequent accidents.

Lessened risk of accidents due to transportation and traffic conditions, because the afternoon rush will fall in daylight instead of darkness.

Working girls will be the way home in the daylight instead of in the dark in winter.

Our last hour of sleep will be sounder and more beneficial than it is under present conditions, because there will be less light.

General efficiency will, of course, be increased by any improvement in the health morals and social welfare of the workers and others.

### Morning Coolness.

In summer a cool hour in the morning is substituted for a hot one in the afternoon.

In winter a light hour at the end of the day is substituted for a dark one. This is especially valuable because as it does at the time of greatest fatigue, and is peculiarly valuable in some industries where accurate eyesight is essential.

Efficiency is lowest in the later afternoon, the time when accidents are most frequent.

There will be the greatest of all savings—that of human materials, as pointed out above.

Immediate saving in form of reduction of expense for light and heat.

Ultimate saving in the conservation

of coal and other sources of light and heat.

Possible reduction in the cost of living of those who like to work in their gardens, utilizing the extra outdoor hour for this purpose.

A memorandum containing the following important reasons for the universal adoption of the daylight saving plan, looking at the matter from the standpoint of war needs, was sent to the house committee in February:

The training of the national forces will be expedited, and the practice of home guards and similar organizations, the members of which have other regular occupations, will be greatly facilitated.

The production in all plants which are making materials for war use, increased, and the conditions of work for their employes would be improved.

## MERCHANTS ARE IN WAR LOAN

Are Asked to Cover up Bargains if It is Necessary to Display Posters for Liberty Bond Campaign.

A large assortment of posters advertising the third Liberty loan has been sent to all township chairmen, by County Chairman Dunlap, for use in stores and windows everywhere.

The supply for Keokuk will be distributed, probably by boy scouts, throughout the business district and it is hoped that merchants will give them a very prominent position in their windows, as the way to help can the kaiser.

Some of these posters are works of the highest art, and some are not so artistic. Some are in black and white and some are in colors. All of them are attractive and have a lot of force of appeal in them.

These posters were not designed to harmonize with the color scheme of the millinery or the hardware in the store windows," said Chairman Dunlap this morning, "since that was impracticable. But we believe that every patriotic merchant will give the posters sent him the most prominent place in his windows, even if they do hide some mighty good bargains in spring styles or some goods formerly eight dollars and now down to ninety-eight cents. Raising three billion dollars to win the war is not exactly a matter of doing things conveniently, you know."

## Tax Slackers.

St. Paul Pioneer Press: Collectors of internal revenue announce that tax slackers are to be prosecuted as rigorously as draft slackers. The man who evades a money obligation should be punished more severely than one who balks at endangering his life for his country.

A motion picture outfit has been sent from England for use in the camps surrounding Jerusalem.

morning. The jury in the circuit court returned a verdict finding Joseph Boston, alias Joe Boston, guilty of petit larceny, and finding the value of the property taken as of \$3.37, and the age of the defendant was given as fifty years. The court has fixed sentence as six months in the county jail.

Attorneys Johnson and Siebenora who appeared for Boston on the trial of the case, fought the same valiantly, and were successful in securing the nominal punishment of a jail sentence for their client, and are being congratulated on their success in the case.

James Edgcomb, alias Jim Edgcomb, who was charged with the crime of burglary and larceny, and found guilty by the jury of said charge, has been sentenced to the penitentiary for one year, as a punishment for said offense.

The indictments against both Joseph Boston, alias Joe Boston, and James Edgcomb, alias Jim Edgcomb, for assault with intent to kill and murder, were nolle prossed by State's Attorney Earl W. Wood.

In the case of William E. Lyon, composing the firm of W. E. Lyon & Co., vs. Fidelity and Casualty company of New York, and Aaron T. White, in suit of debt, leave was given to withdraw the affidavit and all pleas and to file new affidavit and plea. The same were filed and the rule discharged. Motion was entered by plaintiff to strike pleas 1, 2, 3, 4, 5, 6, from the files.

In the chancery suit of the LaHarpe Loan and Building association vs. James D. Butcher, in suit to foreclose mortgage. Report of master in chancery filed; decree signed approving same; ordering sale.

Dephne Faler vs. Roy Faler, divorce; granted.

Frank Seger vs. George B. Tilton, et al. foreclosure. Defendants called and defaulted; order of reference signed.

Hancock county's next contingent of soldiers will be called to Camp Dodge Monday, at which time the following will respond to the call:

- Wilber D. Gibson, Hamilton.
- James R. Hurley, Warsaw.
- John Frederick Salsbury, LaHarpe.
- Harry Newton Link, Carthage.
- Cloris Henry Chimer, Warsaw.
- Vaughn Darrold Stillwell, West Point.

**NEW COUNCIL MEETS MONDAY**

First Session of City's Governing Body Will Convene on That Date With One New Member.

**FIRE BOYS HOLD LOTTERY**

All Men of Each Station in the City Gather at Headquarters Today for Big Drawing.

Monday, April 1, the new council for the city of Keokuk as chosen by the voters at the recent election will meet in its first session. There will be one new member take the oath at this initial meeting, he being D. J. Hemmy, who replaces Fred Hilpert, Jr., as commissioner.

The famous Louisiana lottery had nothing on the one that was staged at the Sixth street fire station this morning. Every fireman in the city was on hand and the lottery was held under the direction of Fire Chief Anderson. The drawing was held to give the men the dates of their annual vacations and was as spirited as though a new prize automobile was at stake.

The first business that will be taken up is the assigning of the different departments to the mayor and commissioners. The mayor will be superintendent of the department of public affairs and whether Commissioner Hickey will again have charge of the department of streets, parks and public improvements and whether Commissioner Hemmy will take the department of accounts and finances and public safety formerly in charge of Commissioner Hilpert is not known at this time.

Neither is any idea to be had whether there will be any change made in the appointment of the different city officials, but that there will be any great changes seems unlikely at this time. The appointments that will be taken care of at Monday's meeting are as follows: City clerk, city assessor, city treasurer, city engineer, city assessor, city physician, city marshal, street supervisor, civil service commissioner. The bonds of the various city officials will also be approved at this time.
