

FIRST HUNDRED IN LEE COUNTY

Order Numbers in Sequence of Call to the Colors, if the Man is in Class One in the Classification.

THIRTY-FIVE IN KEOKUK

Order Numbers Published for First Time of Registrants in New Draft in This County and City.

The following list of one hundred names tells the sequence in which men in Lee county registered September 12, are to be called to the colors, if put in class one.

The order numbers are taken from the master draft list from one to four hundred and seventy five. The names of only thirty-five Keokuk men are to be seen. Port Madison will be called on to give a goodly number of registrants to the draft.

Sensation at Vatican. [United Press Leased Wire Service.] ROME, Oct. 9.—Germany's request for an armistice produced a tremendous sensation at the Vatican. Immediately after the details of the proposal were received Cardinal Gasparri, papal secretary of state, conferred with the pope. Afterward he had a long conference with the Berlin minister.

HOW WILL TEUTON MEET OUR TEST? (Continued from page 1.)

then and there for a permanent armistice, officials say. President Wilson will probably go before congress to cast further light upon the position he took in his inquiry to the German Prince Max as soon as the latter replies. It became known that the president's declaration for evacuation of occupied territories before an armistice, did not contemplate the evacuation of Alsace. Instead it meant evacuation of invaded territories and the intention, as shown by the president's fourteen peace terms, to leave the fighting of the wrong done France, to determination in the final peace conference.

It was said by a high authority that this "righting" was open to the interpretation of return of Alsace to France. A white house viewpoint on the Wilson query was elucidated thus: The inquiry does not bind President Wilson to any special course. It is distinctly an inquiry, not a reply, to Prince Max's peace offers; and it will clear a way for the president to make a fitting reply as soon as he knows for certain whether Germany wants peace on his terms or is merely making an insincere peace move.

Particular attention was called to the fact that among the president's peace terms are complete freeing of Russia, Belgium, occupied France and reparation of the wrongs of Alsace-Lorraine. Also there is a distinct emphasis upon the fact that self-determination shall be the governing factor in territorial alignment.

The president felt that a curt answer would have served as ammunition to the Teuton war lords to stimulate the peoples of Germany and Austria to fresh efforts under the guise of self defense. As the matter now stands, Germany knows clearly that complete evacuation of occupied territory must be the preliminary to any peace move. The German leaders are told that they must show their true colors, not alone to the world, but to their own people.

YANKEES AND IRISH CRASH INTO GERMANS (Continued from page 1.)

was reported in Field Marshal Haig's night communique, which stated that the fight was continuing. The villages of Brancourt, Premont, Beauregard, Serain, Malincourt, Villers-Octreux, Lesdun, Esnes, Seranvillers, Niergnies, Rouvrois and Fontaine-Uterte have been captured, with 1,000 prisoners.

Farther to the north, the British advanced on a front of about five miles from the Scarpe northward, occupying Neuville and Fresnes-Lez-Montauban. French and American troops advanced along the Arnes river in the Champagne, carrying their lines nearly two miles north of St. Pierre. They also reached the outskirts of Lancon, in the Argonne forest. Along the Sulpice river, the French repulsed several counter attacks. German attacks against the Belgian position in the neighborhood of Roulers were broken up.

Verdun is Free. [By Fred S. Ferguson, United Press Staff Correspondent.] WITH THE AMERICAN FIRST ARMY, Oct. 9.—Verdun is now freed from German artillery domination, as was Rheims.

Success of the Franco-American attack east of the Meuse which began yesterday, already has released the famous city from the enemy's four year grip. Fighting over fields which had not been stirred by battles since 1916 the French and Americans have advanced more than two miles on a front of about seven miles.

This operation also has greatly strengthened the right flank of the Americans west of the Meuse although heavy rains over the whole front have made the going difficult, increasing all along the line. The Germans between the Meuse and the Argonne forest are in danger of being shoved back a considerable distance.

Heavy Artillery Concentration. [By Frank J. Taylor, United Press Staff Correspondent.] WITH THE AMERICAN FIRST ARMY, Oct. 9.—The Germans are reported to be concentrating heavily behind Romagne, which forms the exact center of the enemy front between the Meuse and the Argonne massif.

Their artillery is extremely dense there and their machine guns are believed to average only a few yards apart. At the same time a great movement of German artillery is reported under way toward the rear, indicating that this concentration may be preparation for a big rear guard action, covering a further withdrawal. Much of the artillery now going backward is being stationed in the vicinity of Grandpre. This village guards the eastern entrance to the cut through the Argonne forest, along which the Monthols-Apremont railway runs.

Artillery is active along the whole front. The Cunel and Mota woods were drenched with drum-fire all night. Briullees is still burning. American "archies" shot down a German airplane and a balloon yesterday. Two Ploker battleplanes attacked an American observation

LOUIS, Mo., Oct. 8.—Horses—The market presented a similar appearance to that of the early part of last week. Quality was a universal characteristic of the offerings, and afforded keen competition for the many buyers. Saddle mares and young broke mares with polish were chief in demand. Sound animals with flesh and right age found an easy and satisfactory sale. Horse quotations: Eastern chunks, \$150 @ 185. Farm mares, southern type, 125 @ 165. Southern horses, choice, 115 @ 130. Southern horses, medium, 65 @ 100. Flugs, 25 @ 40. Southern horses, cheap, 20 @ 60. Mules—A large run, including many left over from last week. Buyers were not scarce and there was a fair trade on all grades. Quality ranged from medium to good, which included a big offering of miners. The market ruled steady with last week's trade. Mule quotations: 16 to 16 1/2 hands, \$200 @ 225. 15 to 15 1/2 hands, 140 @ 225. 15 hands, 165 @ 225. 14 to 14 1/2 hands, 90 @ 125. 13 to 13 1/2 hands, 50 @ 125. 12 to 12 1/2 hands, 50 @ 125. St. Louis Hay and Straw. ST. LOUIS, Mo., Oct. 8.—Hay—Two days' receipts of 136 cars included 84 timothy, 27 clover mixed, 17 clover, 5 alfalfa and 3 prairie. A very good local and shipping demand was noted for the increased offerings of timothy and clover mixed at strong prices. Strong prices are readily obtainable for the current moderate receipts of clover. Not enough prairie or alfalfa selling to show extent of demand or accurate values. Sales: Mixed at \$29 to \$32; timothy at \$28 to \$32; clover at \$27 to \$30.50. Straw—None on the market. Nominally at \$10 per ton for wheat or oats.

"Suicide by Inches" THOUSANDS of people commit suicide by inches! If one should take minute daily doses of some irritant or poisonous drug, no particular effect might be noticed until accumulation of the poison made its action evident. Yet how many realize that irritant and poisonous substances are formed constantly, even in health, during food digestion and the preparation of its waste for elimination? If the bowels act regularly and thoroughly, such dangerous matter is safely gotten rid of. But if constipation exists, there results stagnation of intestinal waste, increased production of poisonous substances, and their absorption into the blood, which carries them all over the body. The result is disease or disorder, which, if neglected or allowed to continue, cripples or kills. The victim of such self-poisoning commits suicide by inches. Constipation is a bad habit. It is a sin against the body. But there is an even worse habit, a crime against Nature, the taking of pills, castor oil, laxative mineral waters, and salts to "force the bowels to move." Because such drugs do not cure constipation. They make constipation a habit. They do not prevent "suicide by inches." On the other hand, the Nujol Treatment not only overcomes constipation, but prevents stagnation and makes self-poisoning impossible. Nujol is not a drug, does not act like any drug; it is absolutely harmless. Nujol helps Nature re-establish easy, daily, thorough, bowel evacuation. Warning: NUJOL is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes. Nujol Laboratories STANDARD OIL CO. Few New Cases. [United Press Leased Wire Service.] CAMP SHERMAN, Ohio, Oct. 9.—Comparatively few new cases of Spanish influenza were reported at Camp Sherman today, but deaths continued as pneumonia developed among the cases reported several days ago. Deaths officially reported today for Nels Nelsen, Hurley, S. D.; Chas L. Vogelsang, Chicago. —Read The Gate City.

Do Not Get Careless With Your Blood Supply Impurities Invite Disease. You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strength and vital force. By keeping your blood purified, your system more easily wards off disease that is ever present, waiting to attack wherever there is an open-
