TO SWEEP REDS OUT OF UNITED STATES

KNOCKOUT OF ANARCHY PLANNED BY UNCLE SAM

Fight to a Finish is Started by Government Departments and Congress, to Clean Reds Out of the Country.

GATHERING THEM INTO PRISONS

To Oust Anarchists Already Here and See That No More Undesirables Slip Through Gates of Immigration.

[United Press Leased Wire Service.]

WASHINGTON, June 4.—A "finish" with anarchy in the United States was planned today by government departments and congress. Changes in the justice department designed to speed up the work of ridding the country for terrorists are announced by Attorney General Clegg with the appointment of Wm. Flynn, formerly chief of the United States secret service, as head of the department bureau of investigation.

Francis P. Gravan, who has been acting as a national custodian and a national investigator in connection with the New York district attorney's office, and John T. Creighton, Springfield, Ill., connected during the war with the intelligence bureau of the war trade board, will assist in the work.

Congress tomorrow will start work on legislation aimed at deportation of undesirable aliens and the establishment of strict immigration bars for the next two years.

First action will be taken in the case where Representative Albert Johnson, Washington, one of the men named in the May day bomb plot, is a bill ready for consideration. The bill provides for the deportation of any offending alien, and closes the immigration door to all aliens except those who formerly lived in this country and have been or now are serving in the allied armies.

Allens must carry registration cards at all times and show them on demand to all officials. They must report semi-annually to the commissioner general of immigration and any change in residence must be reported.

Bomb in Postoffice.
CHICAGO, June 4.—General James Stuart, chief postal inspector here, today investigated the trench bomb which exploded late yesterday in the postoffice distributing room. He said he believed no harm had been meant by Vanderwilt, a soldier here, in sending the bomb to Miss V. Vanderwilt, Oskaloosa, Ia.

Expect Arrest Soon.
PITTSBURGH, Pa., June 4.—The rest of the men who made the bombs that wrecked six residences here Monday night is expected within the next twenty-four hours, according to police authorities here.

The police say that they know the identity of the bomb maker and his arrest has been ordered by the department of justice. The alleged terrorist is said to be hiding in Chicago. A confession as to the identity of the anarchist is said to have been secured from John Johnson, alleged I. W. organizer. Johnson was arrested here yesterday after a gun fight with city detectives.

Sixteen other suspects are held by the police, including L. M. Walsh, alleged I. W. W. organizer, and John A. Borst, 52, chemist of Brooklyn, N. Y.

Police Superintendent Alderice said today that the evidence at hand tended to show that the bomb plot originated in the Russian anarchist headquarters in New York City.

Score of Reds Locked Up.
CHICAGO, June 4.—A score or more "reds" and alleged anarchists were in jail here today and federal agents and chemists tested explosives and bomb-making materials, the result of a series of raids by federal agents and police here last night.

All men arrested were held under a blanket blotter charge to "hold for the federal government to be interviewed by one." All efforts at release by friends, therefore, were fruitless.

Admissions were said by police to have been made by Daniel Colzin, by day a bookkeeper, and, according to authorities, a leader of Chicago anarchists, that "reds" had planned to destroy the government within six months.

During yesterday, Captain Philip J. Barry, department of justice, interviewed fourteen recognized anarchist leaders. Chief of Detectives Mooney is co-operating with the federal agency and by nightfall it was expected the situation would be well in hand.

Early today an automobile was blown to atoms in the northwest section of the city. Police are working on theories either that bombs and explosives exploded accidentally, or that the car was wrecked purposely. The detonation was heard for several miles and windows in the vicinity were broken.

Search For Nest of Reds.
PHILADELPHIA, Pa., June 4.—Search of Philadelphia in an effort to unearth the nest of anarchists here has been fruitless, police say, and those responsible for Monday night's bombings were still at large today.

Identification of the anarchist killed in Washington, and supposed to have come from this city, has not been made. Lloyd Leslie, held under \$1,000 bail, was taken into custody for questioning in connection with the bombings here, but detectives now attach little importance to his arrest.

All Are Released.
CHICAGO, June 4.—All men arrested by federal agents here in the roundup of "radicals", and alleged

SECOND DAY OF STRIKE FINDS CARPENTERS OUT

Railway Men Still at Work Pending Meeting Called for Midnight.

[United Press Leased Wire Service.]

VANCOUVER, B. C., June 4.—The second day of the general strike here today added to those who went out yesterday.

The carpenters and teamsters decided to follow the longshoremen, strikers seamen and ship yard workers and will walk out this morning.

Railway men were instructed to maintain at work today, pending further consideration of the strike

question at a meeting to be held at midnight.

Most of the metal trades employees are still at work, said J. G. Hart, secretary of the metal trades employers' association last night. The strike situation as far as this association was concerned was pretty easy and the organization was taking no action in regard to the question. There are between 1,500 and 2,000 men employed in the metal trades, exclusive of the ship building plants, and not two percent of this number had walked out.

In some shops not a single man had quit work.

In other manufacturing plants in the city, while some few union men have been liable to the call, no in-confidence has been caused, and as far as could be learned, none of the men had walked out.

Poisoned Canned Goods Kill Twelve Alaskans

Dozen Prominent Men Dead and Twenty-four Seriously Sick As Result of Dinner at Mining Camp

[United Press Leased Wire Service.]

DAWSON, Yukon Territory, June 4.—Twelve prominent miners are dead, and twenty-four others are seriously sick, as a result of ptomaine poisoning following a dinner at the Yukon Gold Company's Hunter Creek plant on May 22. Practically all of the food was canned goods, so it has been impossible to trace the poisoning.

A rare type of germ, termed "botilus" has been found in bacteriological examination of the victims' blood.

The dead include:
JOHN GRANT, former sheriff at Aspen, Colorado.
WILLIAM C. LAWSON, Fort Scott, Kansas.
GEORGE MUNDEEN, Montreal.
FINLEY M'DONALD, New Glasgow, Nova Scotia.
ANGUS CHISHOLM, Antigonish, Nova Scotia.

All canned goods in the company's commissary have been destroyed, miners refusing to touch this food.

EPIDEMIC OF INFLUENZA.
SAN FRANCISCO, June 4.—Laden with medical supplies, physicians and nurses, the U. S. S. Marblehead leaves late today for Alaska to succor the victims of the influenza epidemic that is sweeping the territory. Wireless messages from Dutch Harbor and Unalaska state that nearly the entire population of these localities are stricken and the situation is desperate.

The Brutus, naval supply ship, and Chalgoa, coast guard vessel constitute the only nursing staff available in the stricken region.

TWO DEAD IN STREET RIOTING

Twenty-five Injured and One Man Loses Leg as Result of Auto Factory Strike.

TROOPS ARE ASKED FOR

Former Soldiers Acting as Police to Protect Overland Plant Where Machinists Union is on Strike.

[United Press Leased Wire Service.]
TOLEDO, Ohio, June 4.—Rioting which surged through Toledo last night bringing two deaths and injury to twenty-five persons, showed no immediate signs of breaking out again today, though thousands of strikers were gathered outside the Willys-Overland plant, the center of the trouble. The plant was closed today.

A plea for state troops was sent to Governor Cox early today by Mayor Schreiber, who so far has received no answer.

Former soldiers, enlisted as emergency police, shot and killed two men in a riot in the Polish district last night. Another man was shot in the leg, making amputation necessary, and a little girl was wounded in the knee.

The men killed were bystanders and did not work at the Overland plant, police said. The night riot occurred when a soldier-police man appeared armed on the street. He was chased to a district fire station, when he telephoned for aid. Four truck loads of soldier-police arrived and fired into the crowd. Captain Leonard Spach, their commander, said the soldiers fired only after they were assailed with bricks. Two of the injured are expected to die.

Riot calls from workers' neighborhoods came into police headquarters all night.

The Overland factory was closed on request of the city. Thousands of strikers gathered outside the plant, jeering and in some cases chasing the fifteen or twenty persons who applied at the gates for admission. Soldier-police men, aided by pickets from the unions, succeeded in keeping the crowd outside the plant moving.

Overland workers walked out a month ago, when the company announced a change from a forty-five hour week to a forty-eight hour

AMENDMENTS TO LEAGUE LAW

Senator Johnson Does Not Think California is Given Proper Protection.

JAPAN'S OPPORTUNITY

When Pact Comes Up in Senate, League Fight Will Grow Even Hotter Than It is Now.

[United Press Leased Wire Service.]

WASHINGTON, June 4.—Amendments to the league of nations covenant to safeguard America's and particularly California's interests, will be offered by Senator Hiram Johnson, he announced today.

Johnson will seek to amend the covenant so that Japan cannot put the California alien land law, immigration or Japanese or California school legislation relating to orientals, before the league.

"These questions belong to the people of California," said Johnson. "They and they alone have the right to settle them. If the league becomes a fact, Japan will seize an early opportunity to bring the land law and immigration controversies before it."

"And despite what league advocates say to the contrary, the league will assume jurisdiction and will pass upon these purely domestic questions if they are raised. This means that matters which California has a clear right to settle for itself, according to its own welfare, will be settled by foreign diplomats, whose governments have secret treaties with each other."

"The covenant, according to its advocates, prevents purely domestic questions being brought before it, but eleven it is also declared to be the fundamental right of each member of the league to bring to the attention of the assembly or the council any circumstances whatever affecting international relations which threatens to disturb either the peace or the good understanding between nations upon which peace depends."

"Obviously this is enough. The immigration and alien land questions have already come in that category and of course would be subject to league action. That means the action not of Americans, but of one American and a group of foreigners."

"But there is another provision in article twelve, which binds the United States to submit either to arbitration or to inquiry by the council any dispute with another nation likely to lead to a rupture."

Other amendments Johnson will offer will include one to provide for a peoples' referendum on declaration of war, elimination of article ten, an amendment to protect the Monroe doctrine and an amendment to the peace treaty to modify the Shantung

YOUTHFUL RUSSIAN RED ARMY

Well Fed, Well Paid, Enthusiastic Boys Who are Playing War Game.

THREE MILLION TROOPS

People Held Under Bolsheviki Rule by Fear of Return of Czarism Through Outside Attacks.

[By Frank J. Taylor, United Press Staff Correspondent.]

PARIS, June 4.—The bolsheviks are concentrating their every resource of soviet Russia for military resistance against their outside enemies whose aggression, more than anything else, has enabled Lenin and Trotsky to keep the Russians united under the red flag.

Every man of military age is mobilized either for fighting or laboring. According to the best available information, the red army numbers about 3,000,000.

Some authorities believe the bolsheviks are over-mobilized as Russia has always been in previous wars, but using men in the army prevents unemployment while so many factories are at a standstill.

While passing through various military camps recently, enroute from the front to Moscow, I found soldiers, young, satisfied, well clothed, well fed and well paid. Many of them were armed with American rifles and ammunition, sold to the old government. The staffs appeared boyish. I saw no evidence of the oft-reported cruel discipline, or abused ex-officers forced to labor under threat of death. On the other hand the army assembled was a huge group of simple minded, enthusiastic boys playing at war. Once while I was awaiting orders from a division staff the bicycle courier was over-long in returning. I later learned that the entire staff had deserted their posts to quarrel over the privilege of riding the bicycle around the court yard.

The few intellectuals I encountered in the army long for normal times, but frankly admitted they would fight under the bolsheviks rather than permit the white guards to restore czarism. War enthusiasm runs high among the Russians. As a result of the bolshevik propaganda

HAIR TRIGGER READINESS ALL ALONG THE RHINE

Allied Armies Take up Strategic Positions for Quick Advance Into Germany if Peace Treaty is Not Signed.

NEUTRALS PREPARE TO TAKE ACTION

Austrian Press Bitter Over Terms Which They Declare are Unacceptable and Will Lead to Complete Ruin.

[By Fred S. Ferguson, United Press Staff Correspondent.]

PARIS, June 4.—Neutrals as well as allies are making preparations to meet the situation that would be created by refusal of the Germans to sign the peace treaty.

Both Norway and Switzerland have made known their intention to refuse to enter any blockade agreement against Germany in the event the armistice is ended. The decisions of Holland, Sweden and Denmark are expected shortly.

Everything along the Rhine is reported in hair-trigger readiness. The allied armies are understood to have taken up strategic positions, ready for a quick advance into Germany, and to be in possession of full "marching orders."

Interest is now centering in the degree to which the peace terms will be modified, since there appears to be an unanimity of opinion that they will be modified. In French circles it is authoritatively stated that they have received the definite impression from the Americans that there will be no fundamental changes in the treaty.

Premier-Lloyd George was expected to issue a formal statement today outlining the contemplated changes in the text, as suggested by British, French and American experts.

Unverified Report.
PARIS, June 4.—An unverified report was circulated today that the big four had agreed to China making reservation regarding the Shantung settlement when she signs the German treaty.

Austrian Peace Terms.
[By Lowell Mellett, United Press Staff Correspondent.]
PARIS, June 4.—The big four today takes up discussion of the Austrian peace terms.

Yesterday's conference on German counter proposals is reported to have developed some "plain talking", especially by President Wilson, who abandoned his present policy of aloofness in an effort to adjust divergencies between premier Lloyd-George and Premier Clemenceau.

Chancellor Renner, head of the Austrian delegation was enroute to Feldkirch today, accompanied by Herren, Muller, Marini, Gruener and Stadler to confer with Secretary of State Baiter.

Austrian Press Bitter.
VIENNA, June 2.—Austrian newspapers were bitter in their comment regarding the peace terms.

"The treaty is worse than our worst expectations," said the Neue Freie Presse. "It will lead to complete ruin."

"They have torn the living flesh from stupefied Austria," according to the Arbeiter Zeitung.

The Neue Welner Journal declared, "It is unacceptable."

Daylight Law Still in Force
Repeat Knocked Out of Bill in Congress on Point of Order Before Measure Passed.

[United Press Leased Wire Service.]
WASHINGTON, June 4.—The house today passed the agricultural appropriation bill, carrying \$31,600,000.

The vote was 345 to 1. Repeat of daylight savings was knocked out of the bill on a point of order before it was passed.

Only Forty-Two Out.
[United Press Leased Wire Service.]
NEW YORK, June 4.—Only forty-two persons out of a working force of about 600 have walked out in the plant, said Newcomb Carlton, president of the Western Union Telegraph Co., today. "There are about 400 persons in Atlanta offices of the Western Union directly concerned with the operating department," he continued, "so you can see what effect the strike of forty-two would have."

Carlton said the company has on the way to Atlanta or already in that city more than 100 persons waiting to fill the places vacated by the strikers. He declared the walkout was called in sympathy with striking telephone

(Continued on page 2.)

operators and not because of any grievance with the telegraph company. "We have received no demands from the men whatever," he said.

Railway Mail Superintendent.
[United Press Leased Wire Service.]
WASHINGTON, June 4.—Claude Slater was today appointed railway mail superintendent of the eighth division with headquarters in San Francisco. He succeeds Jess E. Roberts, deceased.

HIGH TREASON IS CHARGED
President of Rhenish Republic Accused of German Chancellor Who Begins Proceedings Against Him.

[United Press Leased Wire Service.]
BASLE, June 4.—Chancellor Scheidemann, in response to Dr. Dorten's telegram asking permission to elect an assembly for the new Danish republic and send representatives to the peace conference, began proceedings against Dorten for high treason, a Berlin dispatch reported today.

(Dorten is president of the Rhenish republic.)

The German government also has sent a formal protest to Paris against the attitude of the allied armies of occupation toward the new republic.

TELEGRAPHIC TABLOIDS FROM FAR AND NEAR

Some Short and Snappy Items Which Make News Wire Sparkle.

[United Press Leased Wire Service.]
NEW YORK, June 4.—Convicts in state prison would better look up the title to the penitentiary. Alex Poturuk is on his way there after sales of Brooklyn bridge, the subway system and the news stand privilege.

Pastor Resigns.
DETROIT, June 4.—"It is impossible to lead a christian life and at the same time be a successful minister," Rev. I. Paul Taylor told his congregation in resigning his pastorate.

Newsboys in Jail.
SPRINGFIELD, Ill., June 4.—Two hundred newsboys will march into the local jail Friday night. No! They are not pinched. A lecture will be given them on encouragement and advice.

They Were Smuggled.
NEW YORK, June 4.—Customs officials peeking into a grocery wagon leaving a pier, discovered a large quantity of silk whatyoumaycalls and everything, alleged to have been smuggled.
