Al Dollahide the boss contractor in west Audubon has just had the coloring on his residence retouched with a coat of paint that adds much to its appearance and wear.

Rev. A. A. Wolburn of the Methodist church, left last week for Ft. Riley, he being chaplain of the Fifty-first National Guard and as such is very popular in the regiment. He fully understands the boys, appreciates their peculiar traits of character, lives a manly yet not a narrow life and commands their honor and respect.

The Audubon Foot Ball eleven went to Atlantic last Friday and went up against the Maroons and got wiped off the earth. The Atlantic team had the advantage in the weight of their lineup and in having college men on their team who knew every trick in the game. The Audubon boys simply could not hold the Atlantic line and the punting of Hopley was simply terrific as was his line smashing. McGinnis was Audubon's star but all the boys did good work and played hard against the terrific odds against them. The game stood 38 to 0. Following is the lineup:

Atlantic	Audubon
Aston, Barnheart	L E Taylor
Curtis	L T Mantz
Brehmer	L G Bamsey
Bruff	C Mushrush
Vall	R G Carrol
McFadden	R T Robison
Bircher	R E Rippey
Johnson	Q McGinnis
McGahan	L H Deishoyde
Morrow	R H Carper
Hopley	F B Dryden

EVERYBODY IS GOING

Now that a big corn crop is assured, interest money is coming easy and much principal can be paid buyers are looking for homes and investments. The past five years has proved that North Dakota is the new paradise as crops have been tremendous. No wheat has gone less than 10 bushels per acre and most of it over 20 bushels per acre. Why do you want to rent? Read this one example—we have many like it. A good quarter section near schools, town, good water and all for \$1.00 per acre down and the rest one half crop payments. At present crops and prices for the past three years you could pay for this in three years. There is another quarter near this one that you could rent for a period of years. What do you want better than this? Farms average from \$10 to \$30 per acre for improved land. Can give many pieces of land to pay out at half crop payments. The country has good climate, good water, good pasturage, good crops, unexcelled opportunities. I also have several good farms in Audubon county listed for sale.
