THE TELEPHONE IN MEDLEY.

The 'phone's coming 'round the bend, Halloo! my lover, Halloo! reverse the old song and a greeting send Halloo! my lover, Halloo!

There's this about the telephone, That gives some people fear, It's the auditory nerve Of the neighborhood's ear.

But the fact is, that fact's wholesome, For as the old song's sung, It puts a cutting wire bit Upon the rattling tongue.

'Tis folly, my friends, to resist evolution Just as well, with our dogs, go bay at the moon.

'Tis the Almighty hand, there, stretching those wires Let us bow in gratitude and accept the boon.

Ring off over there you country dude, Or I'll churn you into breakfast food, Ring off, I say, and let me through, You know very well I didn't call you.

Send me a kiss along the wire! Halloo! my lover, Halloo! I'll be over tomorrow with the papers and square

Halloo! my lover—good bye.

Time Table Exira, Iowa

GOING NORTH. 341.....8:05 a. m. 342.....12:45 p. m. 343.....3:28 p. m. 344.....5:00 p. m. Daily except Sunday.

GOING SOUTH. 341.....8:05 a. m. 342.....12:45 p. m. 343.....3:28 p. m. 344.....5:00 p. m. Daily except Sunday.

Attention Farmers.

Why remain in the North and stay in doors six months in the year consuming what you raise during the other six months?

Go south where you can work out doors every month in the year, and where you are producing something the year round. If you are a stock raiser you know your stock are now "eating their heads off" and, besides, have to be protected from the rigors of winter by expensive shelter.

Economical stock feeding requires the combination of both flesh-forming and fat-forming foods in certain proportions. Alabama and Florida produce in abundance the velvet bean and cassava, the first a flesh producer, and they are the cheapest and best fattening materials known to the world.

More money can be made and with less labor, in general farming, fruit and berry growing and truck gardening along our road in the South than in any other section of the Union.

If you are interested and desires further information on the subject, address

G. A. PARK, Gen'l Immigration and Industrial Agent, Louisville & Nashville R. R. Co., Louisville, Ky.

Taking a tumble to the fact

That we close our year's business December 1st, we desire to call our patrons attention that we wish to get our books settled before that time, and in order for us to do this we will ask our patrons to please call and make settlements on their accounts before that date. As we have too large a list of customers to call on each one personally, we take this method of calling your attention to the matter, and trust you will give it your prompt attention, as by doing so you will be doing us a favor by assisting us in getting our business settled up for our new year.

Thanking you for favors shown us in the past, and trusting that we may have a continuance of your patronage and assuring you that we will do our best to merit it, we remain

Yours respectfully,

Green Bay Lumber Co.

Stock is low and the ice season is over. One market with all the trade can sell lower than two possibly can with double the expense and at the same time keep a much better assortment. We cite you to Audubon, Harlan, Atlantic, Anita, Adair and Guthrie Center—all two market towns—adjoining us that do not or CANNOT sell at these prices and pay expenses.

We expect these prices to make more business and have engaged Herb Herrick to assist us. If you want beef dressed clean and in workmanlike manner he will bring our derricks and do it for you and save you on extra hide and meat more than enough to pay the \$1.00 we charge you for dressing. Will also dress your hogs at our slaughter house in nice shape. No one has complained of our meats and we shall keep up the old standard.
