Uncle Sam Crane, of Exira, has been up at his farm about three miles southeast of town, the past few days painting his barn and getting things ready for winter. There is a little piece of ground on Uncle Sam's place that he was wondering what on earth he would use it for when the idea struck him that he'd plant alfalfa, and this year he reaped three crops off the land and each one was fine at that and Mr. Crane is well satisfied.

L. W. Johnson, of Elk Horn, was at Hamlin the first of the week, having a good visit with his brother, J. C. Johnson, and family.

It ran over to the cornfield where Mr. McNutt was picking corn, doing no damage other than breaking the overcheck.

The Misses Rosella Rice and Etta Spencer were unfortunate enough to get locked in their room at the Rice home and in some way the lock got bent so that the young ladies had to climb out the window and go down a ladder and Mr. Rice had to tear the casing off to get the door unfastened.

MORE HAZING AT ANNAPOLIS

Mild Case Is Unearthed at the Naval Academy.

Annapolis, Md., Oct. 15.—Notwithstanding the severe lessons taught the midshipmen by the courts-martial and dismissals of last spring, hazing has again appeared at the naval academy. So far the recurrence of the practice seems to be an isolated case. Third Classman R. P. Guller, Jr., whose home is in Calais, O., has been called upon by Superintendent Sands to answer the charge of "assuming unwarranted and unauthorized authority over a lower classman in such a way as to humiliate and embarrass" Fourth Classman Godfrey Chevalier of Medford, Mass.

The hazing of Midshipman Chevalier is said to have been a mild case. Guller, it is understood, went to Chevalier's room and asked the fourth classman his name. Upon being told he intimated that it was too big a mouthful, and said: "Hereafter you will be known as '_____' giving the fourth classman a silly nickname. Admiral Sands seemed to think the case an isolated one, as the board of investigation, in its examinations of fourth classmen, has found but one other fact in any way relating to hazing. This was the case of a youth, who has resigned and whose hazing occurred immediately after his resignation had been accepted and taken effect, but before he had doffed his uniform.

MAGOON IN CONTROL

HIS FIRST DAY AS GOVERNOR OF CUBA IS QUIET BUT A BUSY ONE.

Announces His Decision to Postpone Appointment of Cabinet Officers Indefinitely—Cuba to Pay Cost of Intervention.

Havana, Oct. 15.—Charles E. Magoon's first day as governor of Cuba passed busily, but quietly. The palace was singularly still compared with the eventful days of the past regime. Governor Magoon said to the Associated Press that he was looking forward with confidence to a peaceful administration. He expressed the warmest appreciation of the work accomplished by Messrs. Taft and Bacon, both in the pacification of the island and laying the foundation for a smooth and successful system of provisional government. The governor sees no reason to anticipate further sudden changes in the situation, or any especially sensational incident. He is rather of the opinion that now governmental matters will be of the commonplace order compared to the exciting and rapid succession of developments of the past two months. Governor Magoon has announced his decision to postpone the appointment of cabinet officers indefinitely. His intention is to consider thoroughly the conditions and needs of each department and this can be better accomplished at the outset by having the subordinate heads report directly to himself. By this method the governor believes he will be better enabled to select the ministers best fitted for the respective posts. There will be kept a strict accounting of the expenses incurred by the American army of occupation as are chargeable to Cuba. These will include only such expenses as would not have been incurred but for the coming of the troops to the island.

The last demonstration of welcome to returning ex-rebels took place here upon the arrival of General Betancourt, who was formerly Guerra's chief of staff. Betancourt has been detained in Pinar del Rio collecting insurgent arms and settling other matters. He is popular in the capital. A crowd of 2,000 persons met him at the station and greeted him with roars of delight. Padre Miret, a revolutionary priest, who accompanied the general, was enthusiastically welcomed. The crowd was composed almost entirely of negroes. With three bands of music, they paraded through several squares, and finally left Betancourt at his home.

The City of Washington, with the headquarters and First battalion of the Eleventh Infantry on board, and the Admiral Schley, with company I of the signal corps and the Seventeenth and Eighteenth batteries of mountain artillery, have arrived here.

General J. Franklin Bell intends to distribute a battalion of engineers throughout the island for the purpose of verifying, correcting and completing the large army map of Cuba begun during the former intervention, but not completed, except for the provinces of Havana and Matanzas.

The twenty-five marines ordered to the Isle of Pines by Secretary of War Taft proceeded thither from Batabano on board a coasting vessel.

Francis of St. Louis calls the congress to order, and that there will be more senators, representatives, governors and other notables present than at any previous congress. Governor Folk will deliver the address of welcome.

The Photographer Advises.

A photographer suggests that when having a photograph taken the lady dress her hair in a becoming fashion without regard to the latest mode, which will certainly change and make the picture look old fashioned, while a becoming style will not. Do not wear a new dress, and only young people should be photographed in white.

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow package. Nick Doffing.
