We are having lots of rain these days, but we live and enjoy living just the same. It takes more than rain to kill us. How about our spiritual life? Do we let the weather control our life in Christ? Are we as good a Christian in the summer as in winter or do we let the sunshine and the rain control our church attendance? Are we as constant in life as we know Christ is to us and do we demand more constancy in others than we demand in ourselves? Here is the new motto "Rain or shine we're found in line."

We will have our new Sunday School song to learn next Sunday. Come and sing it with us. We contest with the Bedford school. We must have at least 125 out. Let each bring two.

F. H. Rawlinson, South-western District Superintendent for the Iowa Home Society will be with us and will deliver the message in the morning. The evening message will be given by the pastor. The theme is "The Lion hath roared."

RED CROSS ROOSTER

Jack Pershing, the celebrated Red Cross Rooster, who has been curing in a jacket of cotton for several months, was disrobed and is now in the front window of the Nels Hansen drug store for a few days.

It is the intention now, we believe, to place him either in the Smithsonian Institute in Washington or with the wonders of Iowa under the care of Curator Harlan at Des Moines for War Means of raising money for the Red Cross.

FLORENCE OIL COOK STOVES

More Heat--Less Care

Simply turn a lever and apply a lighted match. A blue flame of intense heat starts from the asbestos kindler. All the heat is centered where you want it—close under the cooking, not in the room. This means no waste heat and a cool kitchen. The lever regulates the flame from low to high. A burner's most intense heat only costs about 1 1/2 cents per hour.

There's no worry if you have a Florence in your kitchen—no valves to adjust or leaks to fear. The glass bull's eye shows you the supply of oil in the tank. The glass door of the Florence oven allows you to watch your baking. The oven is portable and for best baking results you should use a Florence oven. Both of these Florence products are sturdily made and fully guaranteed.

IF YOU OWE TEN DOLLARS

to a friend it is right that you repay him promptly when it is due. If you're the right sort of a man you will exert every effort to meet the obligation.

Has it occurred to you that you owe something to yourself—that it is due you and those dependent on you that you lay up some of your earnings for the future? To do so requires but small effort on your part but it is necessary that you have a determination to DO it and then be persistent in staying by your resolution.

A bank account with this bank will assist you to accomplish the desired result, more than an other method. We are willing to help.
