INDIGESTION FIVE YEARS

Relieved by Vinol.

Strength and even life itself depends upon the nourishment and proper assimilation of food, and unless digestion is good, the whole body suffers.

Mrs. L. D. Cook, Vineland, N. J., says: "I was sick five years with indigestion. My stomach seemed to have a heavy load in it, and at other times it seemed to be tied in knots. Nobody knows how I suffered.

"I tried a great many doctors and a great many kinds of medicine, but nothing did any good until I took Vinol. It has helped me wonderfully. I am improving fast, feel better and am getting my flesh back again. Vinol has done me a world of good."

We know the great power of Vinol, our delicious cod liver and iron tonic without oil, in curing chronic stomach trouble and building up all weakened, run-down persons, and that is why we guarantee to return your money if it does not help you.

Take a Note Book and Pencil To The Auto Show

There's a message there for you, a demonstration of what separates one automobile from other automobiles, technical yet vitally important fundamentals of engineering and quality materials that give distinction, even among the best.

So, when you go to the Automobile Show take your note book and pencil, and, if you are not as well informed as you would like to be, invite some friend who is posted in engineering and mechanics, then go over every car in the same price class, or all cars selling at top-notch prices, compare notes, and you will find that there is positively no car at any price superior to

STAVER

We affirm that this Chicago-built car is one of the three greatest American-built cars now upon the market. Indeed, we believe that we can demonstrate to you that at the price there is no car its equal. Its separate constructional units cannot be bettered, while the reputation the Staver has made for reliability in many of the greatest road endurance tests with other cars during the past two years has stamped the Staver as a car you cannot afford to overlook at the Show.

Comparison proves merit. Compare, analyze, test. If we had space here we could show you a chassis and demonstrate the truth of the Staver's superiority. There are several hundred Stavers in Chicago. We can give you the name of every owner. Each and every one will tell you all about the Staver—what a truly great car it is. Here it is practically, at the price, in a class by itself. This can be proven to you right here in Chicago.

Think of the best cars at the Staver price. Make a note of them. You will find them among the most widely advertised, one or two supposed to be the best cars in their class; but—get at the real truth of this supposition—find out for yourself. You'll discover lots

of vital things that you should know, and after you have learned that there is a difference between supposedly high grade automobiles, a tangible, important difference to you, you will, for yourself, on your own judgment, know that when we say the Staver is a truly great car—a car that is worthy to rank as one of the world's best automobiles—we are stating facts that can be demonstrated.

AT THE CHICAGO SHOW

Right at the Southeast Corner, First Regiment Armory, you will find the three Staver cars:

- "45" 4 cylinder—wheel base 118 in.—price, \$1875.
- "55" 4 cylinder—wheel base 120 in.—price, \$2250.
- "65" 6 cylinder—wheel base 138 in.—price, \$2750.

See them—they are made in Chicago—they are sold in Chicago and elsewhere—they are cars that every citizen will be proud to recognize as the product of a manufacturer who has been in business 34 years in this city. They have an unexcelled factory organization behind them and a guarantee of service built into them that cannot be surpassed by any car at any price.

All Staver Cars are equipped with the latest and best proven devices for comfort and convenience—electric starting and lighting, etc. We shall build 2,000 cars this year.
