The Famous "Chatham" Grain Grader and Cleaner

Come to our store and see this remarkable machine for cleaning and grading your seed grain. More farmers have bought "Chatham" Mills than all others combined. Compared with any other grader and cleaner, a cream separator, manure spreader or gas engine, this machine is amazingly low-priced. Yet, it's a bigger farm money-maker than all three of those machines. For it will increase your crop yield 20 to 35% with practically no more work.

Handles Any Grain on Your Farm

It grades, cleans and separates wheat, oats, peas, corn, beans, barley, flax, clover, timothy, etc. Takes cockle, wild oats, tame oats, smut, etc. from seed wheat; any mixture from flax. Rids clover of buckhorn. Takes out all dust, dirt, chaff and noxious weeds from timothy. Sorts corn for drop planter. Removes foul weed seed and all the damaged, shrunken, cracked or feeble kernels from any grain. It can't be beat at chaffing, either. Handles 60 bushels per hour. Gas power or hand power. Easiest running mill on earth. Over 250,000 in use.

Priced Right The "Chatham" at the price we ask, is far the best value ever offered in a Grain Grader and Cleaner. Come in and see this machine. We are perfectly willing to let you try it on your farm. (49)
