

# The Cheerful Life

It is the right of everyone to live and enjoy the cheerful life. We owe it to ourselves and those who live with us to live the cheerful life. We cannot do so if ill health takes hold of us.

The wife, mother and daughter suffering from hot flashes, nervousness, headache, backache, dragging-down feeling, or any other weakness due to disorders of irregularities of the delicate female organs—is not only a burden to herself, but to her loved ones.

There is a remedy. Forty years experience has proven unmistakably that

## DR. PIERCE'S Favorite Prescription

will restore health to weakened womanhood. For 40 years it has survived prejudice, envy and malice. Sold by dealers in medicine in liquid or tablet form. Dr. Pierce's Favorite Prescription Tablets can be had of druggist or mailed on receipt of one-cent stamps—for \$1.00 or 50c size. Address R. V. Pierce, M. D., Buffalo, N. Y.

## SAFEGUARDS ARE NOW SUFFICIENT

Mexican Situation Gratifies Washington Officials.

### READS WILSON'S DISPATCHES

Cabinet Meeting Discusses Information From American Ambassador and Concludes Nothing Further Remains to Be Done at This Time to Protect American Interests.

Washington, Feb. 26.—The administration is taking a much more hopeful view of the outlook in Mexico. This was reflected in the cabinet meeting when all of the recent dispatches from Ambassador Wilson and American consuls in various parts of Mexico were read and discussed. The conclusion was reached that nothing remains to be done at this time to safeguard American interests in Mexico, in view of the excellent disposition professed toward Americans by the Huerta government.

The only threat of serious trouble came from the consul at Ciudad Porfirio Diaz, who reported that Colonel Jesus Carranza, brother of the governor of Coahuila, had arrived in that town with an armed band of 200 men. It is strongly suspected, however, that the apparently bellicose attitude of some of the Madero governors and other officials, as well as that of a number of rebel leaders, had been assumed in the hope of thereby inducing the new government to provide them with remunerative offices.

The attitude of the revolutionists in the Durango district toward the Huerta regime remains problematical. A band of sixty-eight bandits sacked and partially burned property of the American Smelters Securities company near Velardena Sunday night and the American manager, who was attacked and beaten, saved his life only by the payment of \$50 Mexican money to his assailants.

### Rebels Burning Bridges.

The consul at Durango further reports that 200 volunteers have deserted from the Torreón garrison, presumably to fight against the new government. He says bridges on the Mexican railroad have been burned north and south of Torreón and between that city and Saltillo.

Although there is some increase of brigandage around San Luis Potosi railroads are operating to the south and east in that section. Hermosillo remains quiet, except for the excitement attending sensational rumors which have reached the capital.

War department reports related principally to the extensive movements of troops toward Galveston under the recent concentration orders. General Steever, after having personally inquired into the situation on the south side of the river near Brownsville, Tex., which led to a threat of Texan invasion, reported to the war department that the apprehension was groundless. United States Deputy Marshal Linton had told General Steever that everything was quiet on the American side of the river; there had been no outrages there and he knew of none in Matamoros, on the Mexican side. Altogether the outlook was decidedly peaceful.

The department announced that the transport Meade, with a detachment of marines aboard, which is now at Guantanamo, will proceed to Galveston at once to take her place with the other army transports there.

### Aviators Ordered to Galveston.

Augusta, Ga., Feb. 26.—Orders were received by Captain Chandler, in charge of the army aviation camp here, to report immediately with all officers, men and machines at Galveston.

### WIFE AGAIN AIDS SICKLES

Files Chattel Mortgage on All His Furniture.

New York, Feb. 26.—Mrs. Caroline G. Sickles, who pawned her jewels several months ago to save the household effects of her husband, General Daniel E. Sickles, from going under the hammer, may again prevent the sheriff from selling him out.

General Sickles' effects were to have been sold at public auction March 7 to satisfy a judgment held by a bank, but Mrs. Sickles filed with the sheriff a chattel mortgage covering all furniture in the general's Fifth avenue home.

The mortgage is for \$13,000, was executed Dec. 6, 1912, and was witnessed by General Sickles' lawyer.

### JAPANESE CRISIS NOT OVER

Reassembling of Deputies Postponed to Feb. 27.

Tokio, Feb. 26.—The political crisis in Japan brought about by the resignation of Premier Katsura has not been definitely solved, despite the formation of a new cabinet under Count Yamamoto.

Prince Katsura's opposition at present is supported by the majority in the chamber of deputies.

The fact caused a further postponement of the reassembling of that body until Feb. 27.

## BE RID OF CORN ROOT APHIS.

By R. L. WEBSTER, Iowa Agricultural Experiment Station.

Wherever the corn root aphid, or root louse, has been destructive to the corn crop it is a good time now to make plans for its extermination the coming year. Destructive as this little pest is, it may be killed out quite readily.

The most effective step that can be taken against the insect is to establish a system of crop rotation which calls for only one or two consecutive crops of corn. While the aphid feeds to some extent on other plants than corn, yet if a different crop is put on land infested by the insect its growth may be effectively checked. Where a system of crop rotation is well established and carried out, little injury is often inflicted by the aphid.

THE CORN ROOT LOUSE, WINGLESS FEMALE—THE CORN ROOT LOUSE, WINGED FEMALE.

If rotation cannot be practiced, cultivation will tend to reduce injury by the aphid.

Doctor Forbes, state entomologist of Illinois, says of cultivation: "The burrows of these ants do not often reach to a depth of more than six inches, and if plowing to this depth is followed by a deep stirring of the ground with a disc harrow, the attempts of the ants to recover their property and to reconstruct their nests are greatly disturbed and rendered largely fruitless. The more thoroughly, frequently, and deeply the ground is stirred in the interval between the first plowing and the corn planting, the fewer will the root lice in the field in the beginning of the season. . . . Fortunately the labor of this treatment of the field will usually be more than repaid by an improvement of the corn crop independent of all protection against aphid injury, this being practically the preparation for corn, especially recommended by our best teachers of high grade agriculture, and practiced by some of our most successful farmers."

## EMILIO MADERO REPORTED SLAIN

Said to Have Been on His Way to Join Rebels.

### RUMOR IS QUICKLY DENIED

Hope for Immediate Peace in Mexico is Slight, as Insurgent Activity in the North Has Increased and the Government's Efforts to Settle With the Zapatistas Appear to Have Failed.

Laredo, Feb. 26.—A telegram received from Monterey denies that Emilio Madero had been shot near that city. Everything is quiet, according to the dispatch.

Mexico City, Feb. 26.—Emilio Madero, a brother of the late ex-President Madero, has been shot and killed north of Monterey, according to information received here.

With an escort of thirty-five men Madero, it is said, was attempting to join the rebels holding Laredo, when he was overtaken by troops sent by General Trevino. The reports do not indicate whether Madero was killed in action or was executed.

The shooting of Madero took place between Villandamo and Bastamente.

As the rebel leader in the Laredo district, Geronimo Villereal, is a partisan of General Trevino the government expects that the trouble in that vicinity will soon be adjusted.

Emilio Madero, in conjunction with his brother Raoul, a few days ago began a counter revolution at San Pedro, in the state of Coahuila, in the expectation of uniting the rebels about Saltillo with those in the Laredo district.

Hope for immediate peace in Mexico is slight. Rebel activity in the north has increased and the government's efforts to enter into arrangements with the Zapatistas appear to have failed.

Whether the rebels, whose center is the state of Coahuila, have increased numerically is not generally known, but they have so conducted their operations already that communication with the frontier has been stopped, that region between Laredo and San Luis Potosi being practically isolated.

#### Zapatistas Burning and Raiding.

In the south the Zapatistas continue burning and raiding and an attack on a military train between Ozumba and Mexico City leaves little doubt as to their attitude toward the new administration. The attack was of the ordinary ambush type. The train was stopped by a burned out bridge and the fighting continued for more than two hours.

One of the demands of the Zapatistas, made by commissioners representing that section of the rebels, was that all Zapatista officers be admitted to their regular establishments with corresponding rank, some having assumed the title of general. To this the government strongly objected.

The commissioners left in order to report to their chief and soon word came back that the Zapatistas considered the revolution still in progress.

The government has sent forces southward toward Cuernavaca along the line of the Central railway, a portion of which, destroyed by rebels, will be rebuilt.

To offset the antagonism of the Zapatistas, however, the government believes there will be no difficulty in concluding arrangements for peace with Juan Andrew Almazan and Julio Radillo, the two most prominent leaders in the state of Guerrero. Nor is there much doubt felt that arrangements can be made by the government agents sent to El Paso with representatives of Orozco's army.

### TWO PERISH IN ANTARCTIC

Dr. Mawson and Six Companions Are Left Behind.

Sydney, N. S. W., Feb. 26.—Two members of the Mawson Antarctic expedition, Lieutenant Ninnis, an Englishman, and Dr. Merz, a Swiss, have died. Dr. Mawson and six of his companions have been left for the winter on Adelie Land, a barren tract in the Antarctic, because they were unable to reach the expedition's ship Aurora before she was compelled to leave. The news was received here by wireless from Adelie Land by way of Macquarie island.

The party left Tasmania in 1911, accompanied by a large body of scientific men to explore thoroughly the regions around the Southern magnetic pole.
