

# A Chi-Namel Demonstration That Is Different

You can ask the Demonstrator to show you any Chi-Namel product you may be interested in, actually applied. For instance—White Enamel, Porch Furniture Enamel, Gold and Aluminum Paint, Varnish Remover (the kind that softens old varnish so it can be washed off with a common scrub brush and clear water), Floor Wax, Furniture Polish, Mission Stains, Colored Varnishes for staining and varnishing with one application.

She will not merely show you the package containing these materials, but show it in the brush, and applied before your eyes—in fact, you can take the brush and apply it yourself.

You can see the actual colors—see how easy it is to apply—see how all brush marks disappear before it hardens.

This will be a Demonstration worth while for any one who is responsible for the care and good appearance of the interior woodwork and furniture of a home.

By asking for a Demonstration of any particular Chi-Namel product you will not place yourself under obligation to buy. This Demonstration is to acquaint the public with the use and economy of Chi-Namel in the home.

REMEMBER THE DATE!  
FRIDAY, SATURDAY, MONDAY  
APRIL 18th, 19th and 21st.

**The Hair Shows Your Care**  
There is no adjunct so necessary to a good head of hair as the frequent use of a scientific hair tonic. Dike's Hair Tonic is composed of those ingredients that keep the scalp and hair in a healthy condition. The frequent use of Dike's Hair Tonic will keep the hair from falling out. It will give it health and life and keep it in a condition to make a well-groomed appearance. Hair will be retarded from fast changing to gray, while the already gray hair will be darkened in color, though not restored to its natural color, as some hair tonics are said to do.

**Straight at It.**  
There is no use of our "beating the bush." We might as well out with it first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable cures has gained a world wide reputation, and people everywhere speak of it in the highest terms of praise. It is for sale by Fred Lowry.

**Notice To Farmers!**  
Will pay from 4c to 5c per pound for old rubbers, delivered at the yard, in the next month. We will buy rags and metals of all kinds.

is just as good as it looks. It is strong enough to turn any stock—won't sag at the top or buckle up at the bottom; is galvanized extra heavily—won't rust easily—has self-draining, non-slipping locks that won't catch the manes, wool and tails of farm animals; has wavy strand wires and one-piece stay wires that make the fence self-supporting; requires fewer fence-posts than any other. It is the easiest fence to put up and the hardest fence to break down, and the best looking wire fence ever sold in this county. It is a

A. W. GILLET, City Clerk.

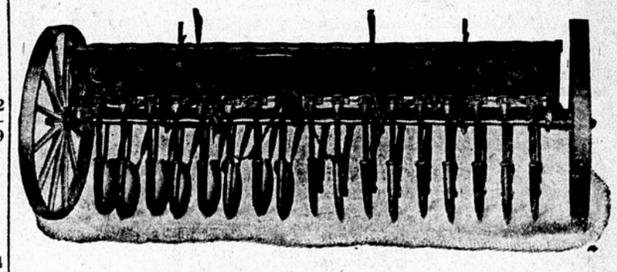

Along with a commission to investigate white slavery should be one to investigate the careless parents who are the first aids to the white slaver. The girl on the street at all times of night, at the public dance until midnight and the Lord himself knows where from that time on until she creeps home in the early morning, needs parental supervision as well as the protection of the law.—Marshalltown Times-Republican.

**Found a Cure for Rheumatism.**  
"I suffered with rheumatism for two years and could not get my right hand to my mouth for that length of time," writes Lee L. Chapman, Mapleton, Iowa. "I suffered terrible pain so I could not sleep or lie still at night. Five years ago I began using Chamberlain's Liniment and in two months I was well and have not suffered with rheumatism since." For sale by Fred Lowry.

When Your Feet Ache

## VAN BRUNT GRAIN DRILLS

AS SPRING APPROACHES and you are preparing to put in your grain crop, we want to call your attention to the old reliable Van Brunt drill, which has been sold here for the past 40 years. Here are a few of its superior points:

**THE FRAME** is built of Heavy Angle Steel and is thoroughly braced. The corners are solid and re-inforced to prevent the slightest springing or sagging.

**THE WHEELS** have heavy, long, strong hubs; well seasoned spokes and wide tires.

**The Line of Draft** is direct from center of disc to frame, consequently no side pull or drifting out of line.

The vital part of a Drill is the Disc Bearings and Connections. Here we invite the closest study, as the bearing is practically indestructible, as it is as hard as flint and runs constantly in a bed of oil and is absolutely dust proof. One good oiling for every 160 acres is enough.

OUR STANDING OFFER. We replace free of charge all bearings that wear out. Call and see us before buying.
