WHY The Best Fence Is the Cheapest

The difference in cost between a loosely woven fence made of brittle, poorly galvanized wire and the best fence you can possibly buy is only a few cents, at the most. In fact, it is so slight that you can't afford to consider it for a minute. When you stop to think that it takes just as many posts and just as much labor to put up a short-lived fence as it does one that will last you two or three times as long, and when you stop to figure the cost of repairing broken-down fences—the loss to your crops from cattle breaking through, horses going over and pigs crawling under—you will agree that to buy any wire fence just because it is cheap is poor economy.

Square Deal Fence

will outlast any other farm fence you can buy and costs no more than any other fence of equal weight and quality of material. Every rod is guaranteed by The Keystone Steel and Wire Company—the mill that makes both the fence and the wire that goes into it.

Come In and See It

before you buy fencing. See how trim and neat it looks; how easy it handles; see the non-breakable, non-slipping Square Deal Lock. See the wavy strand wires that keep Square Deal Fence tight and trim the year around. See the one-piece stay wire that makes this fence self-supporting, non-sagging and non-buckling.

Get our latest prices on guaranteed "Square Deal" Fence. No freight to pay. No waiting. McHugh & Lusson, Cresco, Ia. 30-9
