EIGHT NATIONS LIKE PEACE PLAN

Make Favorable Answers to Bryan's Proposals.

SEVERAL ASK FOR MORE TIME

Italy, Great Britain, France, Brazil, Sweden, Norway, Peru and Russia Will Sign Peace Pact.

Washington, May 31.—Secretary Bryan signaled the day commemorative of the country's hero dead by announcing that eight nations have responded favorably to his peace plan asking that suggestions be submitted in regard to details. The nations in the order in which they have accepted are Italy, Great Britain, France, Brazil, Sweden, Norway, Peru and Russia.

Secretary Bryan said that no nation, to which his peace plan was submitted, had replied adversely, although some had asked more time for consideration.

To each of the governments expressing a willingness to enter into the peace agreement a tentative statement has been submitted embodying details suggested by the president.

The secretary, pointing out that this statement was submitted for consideration, with no intention of insistence upon any particular detail, declined to make public its contents.

Mr. Bryan discussed the progress of his plan in the following statement: "It will be remembered that about a month ago a plan was, by the president's direction, submitted to all the governments having representatives here, the plan being in substance as follows:

Provisions of the Peace Plan.
"First—That the United States is prepared to enter into an agreement with each and every country severally providing for the investigation of all disputes of every nature by an international commission, the contracting parties agreeing not to declare war or begin hostilities until such investigation is made and report submitted.

"Second—The investigation to be conducted as a matter of course by the commission without the formality of a request from either party.

"Third—The report to be submitted within a given time, the time to be agreed upon.

"Fourth—The parties to reserve the right to act independently on the subject matter in dispute after the report is submitted.

"The composition of the commission was a matter of detail to be agreed upon by the contracting parties. The time, also, in which the report should be submitted was a matter of detail to be agreed upon by the contracting parties.

"Eight nations have up to this time responded favorably to the principle and asking that suggestions be submitted in regard to the details, others replying that the proposition is received sympathetically and expressing a willingness to consider the details. The nations, in the order in which they have accepted, are:

"Italy, Great Britain, France, Brazil, Sweden, Norway, Peru and Russia."

"An unusual surgical operation was performed in a local hospital May 27th, when a sesamoid bone was removed from the right knee of Bert M. Graf, 25 years old, a clerk employed by the Iowa Railway and Light Co. The small piece of supernumerary bone, shaped much like an elk's tooth, and about the size, had been bothering Graf for four years. Its growth is supposed to be due to an irritation of some kind. When the bone was at one side of the joint Graf was not bothered, but when it slipped into the joint the knee became locked and nothing could budge the leg.
