CURED AT HOME

Climate Failed; Medicine Effective

It has been absolutely shown that rest, fresh air and good food do help many persons suffering from Tuberculosis. But it must be admitted that the disease is seldom more than "arrested." Something more is needed.

Ekman's Alternative is a medicine made for the treatment of Tuberculosis. It has conquered this disease again and again. Often these benefits have been obtained where the surroundings were not ideal—yet recoveries resulted. Now we argue that Ekman's Alternative should be used in every case of Tuberculosis, in addition to good, nourishing food and fresh air, which we all need. A remarkable case follows:

"Gentlemen: Through Ekman's Alternative I have been saved from a premature grave. On December 14, 1904, I was taken with Typhoid Pneumonia. My lungs became very much affected; my sputum was examined, and Tuberculosis Bacilli were found. On February 21, 1905, I was advised to go to Fort Worth, Texas. While there an abscess in my right lung broke and discharged. I grew worse, and became very much emaciated. My physician informed me that I must go to Colorado as quickly as possible. I left City, June 3 very feeble. After being there two weeks, my physician informed me that my case was hopeless. Three weeks later I returned home, weighing 103 pounds, the doctor having given me no assurance of reaching there alive.

"On July 14, 1905, I began taking Ekman's wonderful remedy for Consumption. Today I weigh 158 pounds. I am stout and well and can do any kind of work about my grain elevator. I have not an ache nor pain in my lungs, cut well, sleep well, and never felt better."

(Seven affidavits) **ARTHUR WEBB,**
Ekman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisonous or habit-forming drugs. POLICE ARREST
YOUNG DENTIST

Further Developments in New York Brutal Murder.

WOMAN IS ALSO IN CUSTODY

Dr. Muret and His Housekeeper Are Being Held on a Technical Charge of Counterfeiting and Further Sentations Are Promised—Cablegram From Germany Says Rev. Hans Schmidt is Insane.

New York, Sept. 16.—Dr. Muret, a dentist, was arrested by Police Inspector Faurot in connection with the murder of Anna Aumuller, to which Hans Schmidt, the priest, confessed. Inspector Faurot, as he left headquarters with Detectives O'Neil and O'Connor, said they were going to Upper Manhattan where they had under arrest in his own home a prominent physician.

Later they arrested Dr. Muret, a dentist of 301 St. Nicholas avenue, which is in the vicinity of One Hundred and Thirty-fifth street and near St. Joseph's church, where Father Schmidt was arrested. Mr. Muret is about thirty years old.

Inspector Faurot declared the new developments would prove fully as sensational as Schmidt's arrest.

The dentist seemed unconcerned when he was taken into custody.

The police say that Father Schmidt was often seen in the apartments in West One Hundred and Thirty-fourth street with Dr. Muret.

Saw Muret With Schmidt.

The agent of the flat is also said to have identified Muret as having been in the apartment with Father Schmidt.

Dr. Muret's housekeeper, Bertha Zeck, also was brought to police headquarters.

Dr. Muret is being held on a technical charge of counterfeiting and the woman as a material witness.

It is alleged that under the name of George Miller, Muret hired an apartment in West One Hundred and Thirty-fourth street and that in this apartment were found plates and presses and portions of partially destroyed proofs of \$20 gold certificates.

Inspector Faurot said he wanted it understood that Father Schmidt had made no confession implicating Muret.

Dr. Muret said he first met Schmidt when the priest visited him to have some dental work done and it is alleged by the police that Muret told Inspector Faurot that Schmidt first broached the subject of counterfeiting.

"Does Muret or Miller admit knowing the Aumuller girl?" Inspector Faurot was asked.

"Yes," was the reply.

Dodges Pointed Question.

"Have you any evidence that tends to show that Muret or Miller visited the Bradhurst avenue house with Father Schmidt and the Aumuller girl?"

"I won't go into that," was all the inspector would say.

Hans Schmidt is in the observation ward of the Tombs prison under the care of Dr. McGuire, the prison physician.

Warden Fallon declares the man is insane—one of the most dangerous men ever confined in the prison, and in this view he was upheld by Deputy Commissioner of Corrections Wright.

From Aschaffenburg, Germany, there came to Mgr. Joseph F. Mooney, vicar general of the archdiocese of New York, a telegram from the secretary of the bishop which said that Schmidt had been suspended by the bishop.

The message read:

"Schmidt born in Aschaffenburg. Priest of diocese of Mainz. Ran away from Mainz because of attempted frauds; arrested by police. Declared insane by court and discharged. Suspended by bishop for acts and for presenting falsified documents regarding studies he pretended to have made. Then left diocese."
