Allen 40--\$1,395

WHICH DO YOU PREFER?

An absolutely dependable, comfortable and economical car, having as regular equipment all of the up-to-date features, or one without conveniences, and subject to all the drawbacks, expense and annoyance you must expect in a low priced car.

At the same price you would much rather own the better car wouldn't you? For many experience has been an expensive instructor, while many have profited by the mistakes of their friends, and now own safe, dependable, powerful and comfortable cars.

We claim for the Allen 40 a car manufactured and marketed upon Honor; a car of dependability, comfort and beauty of design; a car built for economical, every day service; a car you will be proud to own, and recommend to your friends.

We can only prove our claims by an actual and thorough examination of the Allen Car, and an opportunity to demonstrate the car to you in any manner you may choose. May we have it?
