## To Every True American

Woodrow Wilson's fight is your fight.

He has put equal justice above special privilege, human rights above property rights, national honor above organized greed, and democracy over all.

The Child Labor law, the Federal Reserve act, the Clayton Anti-Trust law, Workmen's Compensation, Rural Credits, the Shipping bill, the Federal Trade Commission, the Seamen's act, the Tariff Commission and the Agricultural Extension act may well stand as the ten commandments of America; his international policies proclaim to the world America's recovery of the ancient faith, America's renewed devotion to democratic ideals. Woodrow Wilson has given you prosperity with justice and peace with honor.

What are you giving him?

How much does it mean to you that business is no longer at the mercy of panics, that credit and enterprise have been released from captivity, that the standards of America are now the standards of civilization, and that the heart of the land is not torn by the wailing of widows and orphans, the slow shuffling of the blind and the maimed?

America today is no less a battle-ground than in 1776 and 1861, and Woodrow Wilson is no less the champion of liberty than Washington and Lincoln.

Money, however, is the present weapon. It takes cash to run a campaign.

Only from the people, the one master that he has served, can Woodrow Wilson receive campaign aid. Clean money for clean purposes.

To contribute is your duty even as it should be your privilege. Send it in now.

What one of you would not fight to defend your home and your country against foreign foes? Fight, then, against enemies within that hold greater menace than any foe without.

Do not serve notice upon all future Presidents that faithful service is folly, since the electorate is without gratitude, interest and intelligence.

Every dollar contributed is payment on America's insurance policy.

Don't let it lapse.

Even as you have received generously, give generously. Even stint to give. America was built on sacrifice.

**He Is For Wilson.**

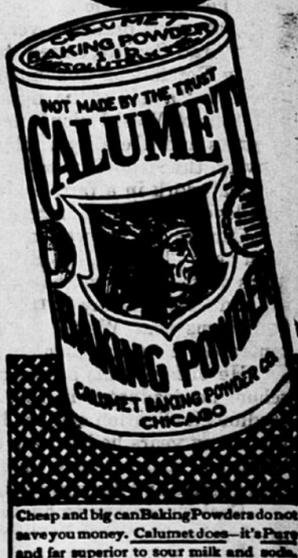

Detroit, Sept. 27.—Henry Ford announced his reasons for supporting President Wilson in a statement made public today.

"I'm for Wilson," Ford said, "because he is on to the interests—the 'unseen hands' that seek to control government—and is holding them off."

"The Republicans are raising a great roar about the eight-hour law and how it will hamper business. I say—and I say from experience, not from guesswork—that the eight-hour law will help business. Business men and employers who are hostile to the eight-hour day do not know their business."

"I know Hughes. Teddy and Wall street are behind him."

"I'm a Republican for the same reason I have ears—I was born that way. But I'm for Wilson because I believe he can do more to enhance the prosperity and assure peace for this nation than any other candidate. Anyone who does not want peace and who wants to gamble with prosperity should vote against him?"—Chicago Herald.
