Ford
THE UNIVERSAL CAR

To get the maximum of service from your Ford car, it must have careful attention from time to time; a little "tuning up" to keep it running smoothly always adds to its power and endurance. To be assured of the best mechanical service and the use of genuine Ford materials, bring your car here where you get practical Ford parts. Ford prices, fixed by the company, are the same everywhere. Touring Car \$360, Runabout \$345, Sedan \$645, Coupelet \$505, Town Car \$595—all f. o. b. Detroit. On display and for sale by McHugh & Lussan, Cresco, Iowa.

How Do We Do It?

EVER since the GRANT SIX appeared as the first six to sell for less than \$1000, people have wondered how so good a car could be sold at so low a price. Today they wonder how the GRANT SIX price is maintained while all other popular priced sixes have been compelled to advance to prices \$60 to \$110 higher than the GRANT.

So here's the answer: GRANT SIX is so manifestly the best looking and best built car under \$1000 that rapidly increasing sales have allowed the factory to offset increasing costs.

Beyond any question the GRANT SIX is today far outselling any other six under \$1000. It is the biggest bargain in the motor car field. Five minutes' comparison of GRANT SIX features with those of any or all other cars up to \$1100 or \$1200 will convince you of this.

The GRANT SIX overhead valve engine developing 36 h.p. at 2400 R. P. M., its beautiful body lines and finish, its size and roominess, its splendid electrical equipment, its remarkable economy (20 miles to a gallon of gasoline,) make the GRANT SIX a really fine car at the lowest price which any six in the world is sold.
