Over fifty years ago a young physician practiced widely in a rural district and became famous for his uniform success in the curing of disease. This was Dr. Pierce, who afterwards established himself in Buffalo, N. Y., and placed one of his prescriptions, which he called "Golden Medical Discovery," in the drug stores of the United States so that the public could easily obtain this very remarkable tonic, corrective and blood-maker. Dr. Pierce manufactured this "Discovery" from roots and barks—a corrective remedy, the ingredients of which nature had put in the fields and forests, for keeping us healthy. Few folks or families now living have not at some time or other used this "Golden Medical Discovery" for the stomach, liver and heart. Over twenty-four million bottles of this tonic and blood remedy have been sold in this country.
