

# SEED TIME

The experienced farmer has learned that some grains require far different soil than others; some crops need different handling than others. He knows that a great deal depends upon right planting at the right time, and that the soil must be kept enriched. No use of complaining in summer about a mistake made in the spring. Decide before the seed is planted.

The best time to remedy wasting conditions in the human body is before the evil is too deep rooted. At the first evidence of loss of flesh

Scott's Emulsion should be taken immediately. There is nothing that will repair wasted tissue more quickly or replace lost flesh more abundantly than Scott's Emulsion. It nourishes and builds up the body when ordinary foods absolutely fail.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

### Pithy Points for Pondering People.

(William J. Burtcher in the (Knex-ville) (Tenn.) Business Magazine.)

There is sunshine for all who will get in it.

Being a perfect gentleman requires practice.

He who misses happiness should aim again.

When a man quits dreaming he quits doing.

Poverty seldom knocks on the door of knowledge.

A man must go after fortune; it will not come to him.

The man who stands waist deep in success began where it was only ankle deep.

The man who is a fool today will be a fool tomorrow—unless he does something for it.

When nature smiles some men frown because they cannot turn her happiness into gold.

It is because some people try to get rich quickly that a good many others get rich that way.

The fellow who hitches his wagon to a star is not apt to stop this side of the stars—if he keeps going.

The man who begins life between two plow handles may end life with a well earned handle to his name.

Some people can say more nice things about themselves in half an hour than all their neighbors could believe in a year.

The man who explores the undiscovered realms of his own soul shall yet discover forces that will move the world to applause.

why your baby should be thin, and fretful during the night. Worms are the cause of this, sickly babies. It is natural that a healthy baby should be fat and sleep well. If your baby does not retain its food, don't experiment with colic cures and other medicine, but try a bottle of White's Cream Vermifuge, and you will soon see your baby have color and laugh as it should.

### According to Dr. Parkhurst,

a man can be wicked without being rich. Yes, but it doesn't pay to be.

### SKELETONS OF GIANTS.

Bones and Curios of Pre-Historic Race may be Exhibited at Jamestown Exposition.

Norfolk, Va. — What archaeologists declare will solve this mystery surrounding the ancient mound builders was discovered recently in one of a series of hills along the Illinois river, in that state. The "find" shows traces of handicraft of past ages, and the bones of those who wrought it. Several skeletons were exhumed more than eight feet long, also pieces of remarkable pottery, beads and curious implements. Under the bones of the ancient dead were found vases, the largest of which are capable of holding more than two gallons, while under a skull was unearthed a bowl in the center of which is a well fashioned figure of a King, seated upon a crude throne. It is believed by scientists that these bones may be those of a great leader of the race that once ruled this portion of the country.

Strangest of all the articles found with the bones were implements that are apparently made of bamboo, some of them evidently shaped for purposes of weaving. Countless beads were found in the mound of a strange material almost white, and possibly made from the best of potter's clay.

Another interesting and curious "find" is a shell shaped dish with a wolf's head, the work on which leaves no doubt that it was carved, even the teeth of the wolf gleaming from it, and an exquisitely executed as some of the ivory carving of the Japanese.

Thousands of persons are being attracted to the scene of excavation by the news of the wonderful discoveries. The soil of the mound has never been disturbed and to this fact is attributed the marvelous preservation of the things taken from it.

Eminent archaeologists are unanimous in the opinion that the mound is a pre-historic burying ground, greater in extent and more perfectly preserved than any yet discovered, and is a valuable contribution definitely settling many mooted points.

An effort is being made not only to secure this remarkable "find" in its entirety for the Jamestown Exposition, but the results of investigations determining the history of this race and extinct race of people.

The year 1903 will be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tackett's lungs that death seemed very near. ### LONG LIFE EASILY ATTAINED

Prof. Metchnikoff Has Simple Scheme to Secure Longevity.

It is well known that the average length of human life has been considerably prolonged in the last century owing to a better understanding and better fulfillment of private and public hygienic conditions. Few, however, attain old age, especially that of 100 years or more, and among these very few enjoy all their physical and mental powers. Prof. Metchnikoff, of the Pasteur Institute of Paris, shows the causes of decrepitude, of premature weakening. He demonstrates that certain cells constituting the human organism become mutinous and devour the nobler cells of the body. He points out a special danger, the intestinal germs and the poisons or toxins elaborated thereby, which penetrate the system and cause the hardening and degeneration of tissues. The professor goes further and says that man can educate and improve these intestinal germs and their toxins. The most practical and easy way is, said he, to drink a beverage which contains the germs of lactic acid fermentation, whose antagonism to the bad germs he has demonstrated.

### Made Happy for Life.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus' Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Quick, sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by St. Bernard drug store. Price 50c.

### Courtesy in Copenhagen.

Copenhagen, Denmark, is a city of canals and cleanliness—a land of pure delight, free from beggars, organ-grinders, and stray dogs. The inhabitants thereof are born courteous, and seem never to have recovered from the habit. When a passenger boards a car in Copenhagen, he exchanges greetings with the conductor; a gentleman, on leaving the car, usually lifts his hat in acknowledgment of a salute from that official. When a fare is paid, the conductor drops it into his cash box, thanks the passenger, and gives him a little paper receipt. He offers change with a preliminary "Be so good," and the passenger accepts it with thanks. If, in addition, transfers are required, complimentary exchanges go on indefinitely. Yet there is always time enough in Copenhagen. —Four Track News.

### The Part of True Wisdom.

The freest government, if it could exist, would not be long acceptable if the tendency of the laws was to create a rapid accumulation of property in a few hands. In the nature of things, those who have not property and see their neighbors possessed of much more than they think them to need cannot be favorable to laws made for the protection of such property. When this class becomes numerous it grows clamorous. It looks on property as its prey and plunder, and is naturally ready at all times for violence and revolution. It would seem, then, to be the part of political wisdom to found government on property, but to establish such distribution of property, by the laws which regulate its transmission and alienation, as to interest the great majority of society in the support of the government.—Daniel Webster.

### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
