## FOR YOUR HEALTH'S SAKE

### GERM KILLERS.

Sunshine and fresh air kill disease germs. This is why you should see to it that both these health giving agencies are not excluded from your homes.

Don't live or work in rooms that have no fresh air. Such rooms are dangerous. Always sleep with your window open in winter and summer. Don't be afraid of damp air. Don't be afraid of night air. They are not dangerous, but rooms that are kept closed are dangerous, because the poison of disease is in the air of such rooms. Let all the sunlight and fresh air that you can into your rooms. Sleep in the fresh air. Live only in the fresh air.

## REFUSES TO ARBITRATE

### SPREAD OF GEORGIA STRIKE IS THREATENED.

United States Commissioner of Labor, Charles P. Neill Calls on Strike Headquarters.

Atlanta, Ga., May 25.—Hope for settling the strike of firemen on the Georgia Railroad centers on the visit here of United States Commissioner of Labor Charles P. Neill, who is coming from Washington.

Governor Smith proposed arbitration by a commission of Georgians and the firemen accepted but the railroad did not. Manager Scott, of the Georgia railroad will be here to confer with Mr. Neill.

The danger that the strike if prolonged may spread to other railroads became serious when Vice President Earl of the Firemen's organization said diversion of the Georgia railroads freight business to other roads will cause the firemen of those roads to vote on whether or not they will accept diverted freight. It was reported here that about 10 cars of Georgia railroad had been diverted over other lines. Mails and passengers usually carried by the Georgia went by other roads and in a few instances automobile service was resorted to. Preparations are under way by postoffice authorities to establish an automobile mail service between Union Point and Athens, Ga.
