MARBRAV FERGUSON NOT GUILTY

Nortonville Man Charged
With Dynamiting Negro
Cabin at That Place
Exonerated

The case of the commonwealth against Marbray Ferguson, charged dynamiting a negro cabin near Nortonville, Ky., which resulted in the death of two negroes, went to the jury this afternoon and in fifteen minutes a verdict of not guilty was returned.

Ferguson immediately left for his home in Nortonville. He took the stand today and denied any knowledge whatever of having stated that some negroes would be "blown to hell." He confessed to having been beastly drunk earlier in the night of the explosion. His son stated that he took his father home from Nortonville about 11 o'clock on this night and that his father was so intoxicated that he had to be partially carried the entire distance.

This story was corroborated by N. J. Wilburn, who assisted the son in carrying the father home. Ferguson's daughter stated she slept in the same room with her father and was awake at the time of the explosion and that her father, sound sleep in an adjoining bed, was not awakened by the explosion.

Ferguson while on the stand told a straightforward story and was not confused in any of the questions submitted in the cross examination. The case against N. J. Wilburn, who was indicted on the same charge but tried separately was dismissed with leave to submit to the grand jury at any time.

Wilburn, under arrest some time after the dynamiting, was in the custody of a deputy sheriff, struck the marshal at Nortonville claiming that the marshal had several times taunted him for this offense. Wilburn was charged with assault and battery and was fined \$50 in court today. He pleaded guilty to the charge.

New Milliner For Brown Brothers

GALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work

There is no reason why a person should take sickening, salivating calomel when 50c buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

One Way of Getting Even

A painful scene was being staged, with Johnny, his father and a slipper in the principal roles. Father gave voice to the ancient platitude, "This hurts me, Johnny, far more than it does you," he said.

Johnny gritted his teeth. "Then," he wailed, "keep it up, I can stand it."

A Distinctive Reason

What is the chief reason for the superiority of Royal Baking Powder?

There are several good reasons, but there is one which distinguishes Royal from other baking powders.

This reason, which every woman should know is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

There is no alum nor phosphate in Royal Baking Powder.
