**CHRONIC CONSTIPATION**  
 Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual matter of the food. If you will drink an abundance of water, eat raw fruits and take lots of outdoor exercise, you may be able eventually to overcome it entirely. In the meantime use the most mild and gentle laxatives. Strong and harsh cathartics take too much water out of the system and make a bad matter worse. Chamberlain's Tablets are easy and pleasant to take, and most agreeable in effect. Give them a trial.

**HANDS, ARMS, LIMBS ASLEEP**  
**And Was Run-Down, Weak and Nervous, Says Florida Lady.**  
**Five Bottles of Cardui Made Her Well.**  
 Kathleen, Fla.—Mrs. Dallas Prine, at this place, says: "After the birth of my last child... I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time... I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. —about my taking Cardui. He said, 'It's a good medicine, and good for that trouble', so he got me 5 bottles... After about the second bottle I felt greatly improved... before taking it my limbs and hands and arms would go to sleep. After taking it, however, this poor circulation disappeared. My strength came back to me and I was soon on the road to health. After the use of about 5 bottles, I could do all my house-work and attend to my six children besides."  
 You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of mild, vegetable, medicinal ingredients with no bad after-effects. Thousands of women have voluntarily written, telling of the good Cardui has done them. It should help you, too. Try it.

**PRICE OF CANNERS, TIN CANS AND OTHER EQUIPMENT**  
 While Secretary of the Mineral Wells Chamber of Commerce, the editor sold, without profit to himself, thirteen canners and, co-operating with the Weatherford Chamber of Commerce, thousands of tin cans. These cans were filled with snap beans, tomatoes, peas, beets, peaches, dewberries etc. Labels which cost but little were bought thru a Baltimore firm and these are as pretty as those one buys on store goods. If it is desired, the name of the farm where the canning is done may be printed on the labels. The vegetables and fruit are readily saleable thru the local grocers or to mining commissaries.  
 The name of the concern which handles these canners is the Farm Canning Machine Co., Meridian, Miss. Price \$5.75 each or where six neighbors club together, one canning outfit is sent free as a premium. If one individual sends an order for two canners, two premiums are given and the freight is paid.  
 Cans in carton lots \$4.75 per carton of No. 2's or No. 3's. The cartons hold 125 of No. 2 and 100 of No. 3's. In 1,000 lots No. 2's are \$37.50 and No. 3's \$47.50. Solder hemmed caps are included.  
 The editor gives this information since Mr. J. McMesser, of Himyar, asked him to secure it and it may be of interest to others. One farmer in Texas lost \$1,000 thru inability to sell his peaches. The next year thru use of the canner the editor bought for him, he canned those he could not sell on the market and cleaned up over \$1,000.  
 We have the soil, the markets and by canning vegetables and fruit Knox County may make or save thousands of dollars annually. Write for literature, club together and try it.

**READ P. BLACK SAYS V. M. C. A. MADE GOOD**  
 The editor of the Advocate had the pleasure of a talk with Mr. Read P. Black this week. While unwilling to talk of his own share in the great work of the V. M. C. A. he was full of enthusiasm over the work of the organization itself. The "Y" furnished amusements for the boys including baseball equipment, billiards, pool, croquet, pingpong, etc., luxuries and most important of all, a home. The "Y" was real "Mother" of the boys over there and the criticism which has been levelled against it is of the same character which boys at home are often guilty of toward their parents — some minor thing annoys them and this overshadows the greater good for the time being. Ask any soldier boy what the front would have been without the "Y" and he will say it would have been frightful.  
 From General Pershing down, the efforts of the "Y" were highly praised. It should also be remembered that men who unnecessarily lay down their lives or risk wounds and gas are certainly equal to those who criticize them. The "Y" men did more than their duty and did it well.  
 When you hear criticism of the "Y" ask the question we propound above and remember that all human organizations have their element of weakness.  
 With the exception of ten days in the hospital at Limoges with blood poison of the foot, Mr. Black enjoyed excellent health. His friends are giving him the joyful high sign of friendship since his return.  
**To Prevent Belching**
