

Perfect Health is Yours If the Blood is Kept Pure

Almost Every Human Ailment
Is Directly Traceable to Impurities in the Blood.

You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strength and vital force.

By keeping your blood purified, your system more easily wards off disease that is ever present, waiting to attack wherever there is an

opening. A few bottles of S. S. S., the great vegetable blood medicine, will revitalize your blood and give you new strength and a healthy, vigorous vitality. Everyone needs it just now to keep the system in perfect condition. Go to your drug store and get a bottle to-day, and if you need any medical advice, you can obtain it without cost by writing to Medical Director, Swift Specific Co., 112 Swift Laboratory, Atlanta, Ga.

I have installed an up-to-date X-Ray Machine for the examination of teeth which may be causing Rheumatism, Heart Trouble, etc. A. L. Parker, Dentist, Barbourville, Kentucky. 16

DANGER IN DELAYS

To trifle with defective vision is to court, perhaps, blindness. And it is dangerous to delay.

Faults taken time, are removed without unfortunate results.

Make it a point to have your eyes examined now.

It may mean to you more than you imagine.

Neglect of the eyes by anyone, is certainly an earthly sin. The world which credits what is done.

Is cold to all that might have been.

Miss Beulah was a girl of fine character and had many friends here who regret her untimely end. The funeral was held Monday at Williamsburg and was attended from here by Mrs. John Hughes, Mrs. Lillie Lawson and others.

Did you ever stop to think that modern industrial concerns contain postoffices as large as many cities in the United States? For instance The Goodyear Tire and Rubber Co. receives and answers 15,000 to 18,000 letters a day—as much mail as would be handled by a postoffice in a city of 30,000 people. At this rate nearly 6,000,000 pieces of mail are received and sent out every 12 months.

GOODBYE, JOHN B

The moonshine is white in my Old Kentucky home,

Our voters are sober, but gay;

The corn top is ripe and the meadows are in bloom,

And we drink cold water all the day.

The stone jug will rise to kiss the waiting mouth,

And the upturned eyes gladly play On the soft blue skies of my sweet Sunny South,

In my old Kentucky home far away.

(Chorus)

Weep no more John Barley, oh, weep no more today,

For things have changed in my old Kentucky home—

In my old Kentucky home far away.

Once the feudman hid in the corner of the fence,

And waited for a shot at his foe. That foeman's soul went kicking to the hence,

To the land where they don't shovel snow;

The coroner would come to investigate the death,

He would tank up so comfortably and gay;

His verdict would say that he died far want of breath,

In my old Kentucky home far away.

Once we wore a shirt of mail beneath our Sunday coats,

And an armor plate under our vest;

That was the safest way when a man would go to vote,

And John was there to protest.

There were gay old times when the 'lection came around,

There was music to liven the day;

While the sexton's spade stabbed the dark and bloody ground,

In my old Kentucky home far away.

HICKORY MILL IMPROVES B. B. I. BALL DIAMOND

T. W. Minton & Co., of the Hickory Mill, have just completed a back stop on the ball grounds of the Baptist Institute and have also put the grounds in first class condition. This has been done in return for the privilege of the Hickory Mill team being allowed to use the diamond for its games, a thing by which both parties to the arrangement will profit.

Putting it off today won't get it done tomorrow. An advertisement in this paper today will bring business tomorrow.

EVEN EXPERTS ARE PUZZLED

Almost Impossible to Distinguish
New Gems From
Diamonds

In appearance and by every test Carbonite Gems are so much like Diamonds that even an expert can hardly tell the difference. To introduce these beautiful Gems into every locality, we will absolutely and positively send them out free and on trial for ten days' wear. These Gems are set in 14-k gold-filled diamond mountings, for both ladies and gentlemen. To take advantage of this wonderful offer you must act quickly as only 5,000 are given out on this plan. Send us this ad and your name and address (no money) and a strip of paper that just meets around the second joint of the ring finger. We will send ring by Parcel Post, prepaid, when it comes, merely deposit \$3.88 with the Postman, wear it everywhere you go for ten whole days and if you, or any of your friends can tell it from a Diamond, send it back—your deposit will be refunded, but if you decide to keep it—it's yours—there's nothing more to pay. Send today, so you will be sure to get one on this plan. Address The Taylor-Wrightwell Co., 20 East Jackson Blvd., Chicago. —Advt.

Construction of the foundations has already begun and it is believed that the new factory will be completed within a year and a half. The factory group will consist of four buildings built to allow for adequate expansion. At first 1,000 employes, mostly Brazilians, will operate the plant, which will probably have a capacity of about 1,500 tires and tubes a day.

The output of this concern will be pneumatic and solid tires, and also mechanical goods similar to the lines now manufactured in other Goodyear factories.

Acquisition of the South American factory marks another step in the expansion policy of the company, which already has plants in Akron, Los Angeles and Toronto, Canada.

Needed Protection

Keep your body well nourished and strong and there is little danger. It's essential that you keep up your resistance. There are thousands of families who would not dream of being without the protection that

SCOTT'S EMULSION

affords. The right idea is to start in the fall with Scott's Emulsion and be protected for a strenuous winter.

It's Scott's you ask for.
