Theford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.—The efficiency of Theford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Theford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Theford's. E. 88

COUNTY AGENT'S REPORT

Many farmers attended the meeting in the County Court house last week and heard Dr. J. R. Stephenson discuss soils and crops. The farmers that if they want to have fertile soil they must use limestone and phosphate. All the soil of this county is sour and crop growth cannot be at its best in a sour soil. Limestone, ground and applied at the rate of two tons per acre will correct the acidity of the soil and enable the farmers to grow bumper crops. The use of phosphate is also recommended because the soil of the county is deficient in that element of plant food. The use of lime and phosphate will enable farmers to grow clover and clover is always an indication of good farming.

Dr. Stephenson also recommended that the farmers grow more legume crops and turn them under to enrich the soil and to plant a cover crop to protect the fields during the winter to keep them from washing and leaching.

Amos Farris and a few other farmers of Grays will order a car load of phosphate to demonstrate its use in their community soon.

The farmers of Logan Gap are already in full sway demonstrating the use of acid phosphate and ground limestone. At a meeting held at King these farmers attended and gave much attention to the discussion on crop and animal improvement of the community. A definite program was worked out for corn. Later a definite program will be started to improve the livestock of this community.

Three hundred Rhode Island Red eggs were placed in the county last week.

A few farmers have promised to go to the Field Meeting on the Farriston Demonstration Field May 31. Farriston Demonstration Field is run by the Experiment Station and many great lessons are taught to the farmers of this section on this field.

LOGAN INFIRMARY NOTES

Wm. Bailey spent twenty-four hours in infirmary for treatment of a slight gun-shot wound. While he was walking on the railroad track he stumbled on a cross-tie and in the fall his gun discharged the bullet passing thru the calf of the right leg. He went to the home of his sister, Mrs. Tom Hale, on Saturday.

Sunday was a very busy day in the infirmary. At 9:00 o'clock in the forenoon Miss Hallie Gibson, of Artemus underwent an operation for appendicitis. At 4:00 in the afternoon James Miller, Fighting Creek, was brought in and a similar operation was necessary. At 9:00 in the evening Clarence Davis also underwent the appendicitis operation. All are doing well.

Tuesday at 3:00 in the afternoon Miss Fannie Lunsford's condition was such that an operation proved unavoidable. She is now doing well.

BAILEY SEEKS COMPANY WHEN PRISONERS ESCAPE

Mt. Vernon, Ky., April 23rd.—John Bailey, confessed slayer of Beverly White, went from the jail here to the residence of the jailer early today and reported the other five prisoners in the jail had escaped. Bailey asked the officers to go back to the jail and stay with him. Tonight but one of the fugitives had been captured.—Pineville Sun.

NOTHING LIKE IT STATES HARPER

Traveling Man's Strength and Energy Soon Returned After He Started On Tanlac.

"Tanlac put me on my feet eighteen months ago and I have been feeling fine and able to attend to business with plenty of energy ever since," said G. P. Harper, of 2314 Sixth Ave., Birmingham, Ala.

"Before taking Tanlac," said Mr. Harper, "I had been suffering from indigestion for two years. My stomach would not digest anything properly and I would bloat up with gas that caused the worst kind of pains thru my chest and my heart would beat like a trip hammer. I could eat no meats nor drink coffee and I had to stop smoking. My nerves became upset so that I could never get a good night's sleep. I was considerably off in strength, had but little energy and couldn't take proper interest in anything.

"I had tried to find something to correct my troubles but nothing seemed to reach my case. Finally I decided to try Tanlac, and since taking it I feel like a new man. I can eat just anything, drink black coffee when I please and never have the least trouble with my digestion. I sleep like a child and am feeling fine all the time. Tanlac has helped me wonderfully and it's a pleasure to recommend it."

"MY OLD KENTUCKY HOME"

The following letter from our Governor was received by Mrs. Sampson who is acting as local chairman of "My Old Kentucky Home" fund. It expresses the widespread interest in this campaign to commemorate the song no dear to every Kentucky born citizen.

Office of the Governor, Frankfort, April 30, 1921
Mrs. Flen D. Sampson,
Barbourville, Ky.

My dear Mrs. Sampson:— I am sincerely delighted that you are to be in charge of the Women's Organization in the "Old Kentucky Home" Campaign, and I feel confident that the good men and women of Barbourville will rally to your support in this matter and see to it that Knox County subscribes its full quota to the fund which is to be used for the purpose of making into a shrine and an altar the old home-land where Stephen Foster wrote and first gave to the air— "My Old Kentucky Home."

This sentiment should appeal to every man, woman and child who loves the old State and the old song and who has been blessed with its inspiration and made better because Foster gave it to the world. It is at last a song of our home, our fireside, and blends within its heart of melody a thousand tender recollections. Every Kentuckian has applauded it; every Kentuckian should give of his means to preserve the place where it was born.

I hope the press of your county, the leading citizens of the town and all public spirited men and women will help in this most worthy undertaking. I am enclosing you herewith a copy of my Proclamation. Thousands of contributions have been received from out of the State from Kentuckians who do not live here—even from strangers. We must not fail at home.

With all kind regards and best wishes, I am

Most sincerely yours,
EDWARD P. MORROW.

You Just Try
NR For That
Indigestion

Get your organs of digestion, assimilation and elimination working in harmony and watch your trouble disappear. NR does it or money back.

One Day's Test Proves NR Best

The stomach only partly digests the food we eat. The process is finished in the intestines where the food is mixed with bile from the liver.

It must be plain to any sensible person who realizes this, that the stomach, liver and bowels must work in harmony if digestive troubles are to be avoided or overcome. This fact also explains why sufferers from indigestion, also suffer more or less from headaches, biliousness and constipation.

If you are one of the many unfortunate persons who cannot eat without suffering afterward, if you are constipated, have bilious spells, headaches, coated tongue, bad breath, variable appetite, are nervous, lose energy and feel your health slipping away, take this advice and get a box of Nature's Remedy (NR Tablets) and start taking it. Give it a trial for a week or two

and just see how much better you feel. See how quickly your sluggish bowels will become as regular as clock work, how your coated tongue clears up and your good, old-time appetite returns. See how splendidly your food will digest and how your energy, "pop" and "ginger" revive.

You take no risk whatever for Nature's Remedy (NR Tablets) is only \$2 a box, enough to last twenty-five days, and it must help and benefit you to your entire satisfaction, or money returned.

Five million boxes are used every year—over a million NR Tablets are taken by all people every day—that's the best proof of its merit. Nature's Remedy is the best and safest thing you can take for biliousness, constipation, indigestion and similar complaints. It is sold, guaranteed and recommended by your druggist.

WHICH WOULD YOU DO?

If it were pneumonia, scarlet fever or an accident that brought your family physician to your home, could you say "I can't afford it"? Would you usher the doctor in or turn him away because "you could not afford it"? If a man can afford, he should carry life insurance. If a man can't afford, he must carry life insurance.
