

NO SHADOW

Of outward misfortune can darken the smile of the loyal wife and loving mother. But when disease comes the smile slowly fades, and in its place comes the drawn face and tight closed lips which tell of the constant struggle with pain.

When the delicate womanly organism is diseased the whole body suffers; the form grows thin, and the complexion dull. The step to sound health is to cure the disease which undermines the womanly strength.

Dr. Pierce's Favorite Prescription establishes regularity, dries disagreeable discharges, heals inflammation and ulceration and cures female weakness. The wonderful cures of womanly diseases effected by the use of "Favorite Prescription" place it at the front of all put-up medicines specially prepared for the use of women.

"I was troubled with female weakness for eight years, and suffered more than I can write Mrs. C. M. Mosey, of Virginia, Deerfield Co., Montana. My disposition was affected to such an extent that I was a pleasant word to any one was almost an impossibility. I had two operations performed by one of the most skilled surgeons of the West, but did not get relief. Then, against my doctor's strict orders, I commenced taking Dr. Pierce's Favorite Prescription and Golden Medical Discovery, and also followed the advice given in the Common Sense Medical Adviser.

"I continued this treatment for three months, and to-day am as healthy and vigorous as ever. I cannot thank Dr. Pierce enough for his kind letters to me."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

Readers of this paper will be pleased to learn that there is at least one dined disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, it requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

PEOPLE OF THE DAY

Has Made Astonishing Discoveries. The scientific world is greatly exercised over the discovery recently made by Professor Edward C. Pickering of the Harvard Observatory. Professor Pickering has, through instantaneous photography, succeeded in obtaining the first spectrum of lightning ever secured. The result proved to be an unexpected and astonishing revelation. As Professor Pickering interprets it, the spectrum of lightning proves that the element hydrogen is probably

FOR THE CHILDREN

The Kind of a Boy the World Wants. Boys are always in demand because they are the material out of which men are made, and as first class material is always at a premium in every line of trade so the boys who give promise of making first class men are most eagerly sought after.

The boy the world wants today is the one who can be trusted to handle money without any of it sticking to his fingers or finding its way into his pockets. He will take as much interest in the affairs of his employer as if they were his own and will play fifteen minutes without being asked to finish a piece of work after the whistle blows and the rest of the men have quit work. He will be able to write a business letter and spell the words correctly and to add up a column of figures promptly and accurately. He will lift his cap as readily to his sister when she meets her on the street as he would to the sister of some other boy, and he will not be ashamed to walk to church with his mother, show her into her own pew and sit beside her during the service. He will be careful in making a promise and just as careful about keeping it. He will have sufficient moral backbone to say "No" to those who would lead him astray, and he will have enough courage to own that he is striving to make a man of himself.

This is the kind of boy so many are on the lookout for—Selected.

Story of the Toy Cats.

It was night in the nursery. Jack lay in his crib, rosy and sweet, all ready for a dream.

On Jack's toy table stood Mother Spot, the china cat, and her two kittens, Speck and Dot. They had real cat natures hidden under their dainty exteriors, and no one but Jack had ever found it out.

"Speck and Dot," said Mother Spot, "Jack had an awful scare today. His uncle brought him a tin mouse."

"Mew!" cried Speck and Dot, and it sounded exactly as if they were cracking "mouse news."

"I know where that mouse is!" said Speck.

"Tell us," cried the kittens.

"Under the bed. And if you have the least spark of your ancestors' spirit go for it."

Down from Jack's table leaped those three china cats and straight for the tin mouse, who was so frightened he simply stared and without a word awaited his fate.

They fell upon him, those three china cats. They tore him to pieces, and then, covered with glory and brown paint, they crept back to Jack's table and waited.

In the morning nurse found the remnants of the mouse under the bed, and she said sadly:

"Jack, it was naughty of you to break the mouse even if you didn't like him so silly."

And Jack wondered what made nurse so silly.

One Boy's Loyalty.

He was at school in Canada, and it was his first day in class. The geography lesson was called, and it was his turn to answer.

"Which is the largest city in the world?" asked the teacher.

"New York," unhesitatingly came the answer.

"I mean the largest city in the world," said the teacher.

And promptly came the reply, "New York."

"But," expostulated the teacher, "I did not say the largest city in the United States, but the largest city in the world."

"New York," unhesitatingly and emphatically said the boy.

"London has a larger population than New York," said the teacher. "If I do not have the correct answer this time, I shall have to punish you. Come, now," he said, "tell me the name of the largest city in the world."

"New York,"

"Stay in during recess and write me fifty lines."

He wrote the fifty lines, and every line read, "The largest city in the world is New York."

Nut and Popcorn Games.

Chestnuts with initials cut in the side with a sharp knife are set to roast. The company that nut belongs to No. 1 and is examined to see what initials has marked on it. The initials reveal the future fate of No. 1. The second nut which pops reveals the fate of No. 2, and so on. The nuts will have to be watched very closely, for sometimes they pop very close together.

Popcorn can be tried later. Each one puts into the popper as many kernels as there are years in her life—that is, if Mary is fifteen she puts fifteen kernels in the popper and holds it for two minutes over the fire. Then she removes the popper and takes out the kernels. Then some one else tries it. The number of white popped kernels in each one's popper tells in how many years a happy marriage awaits her—Journal Junior.

Economical Edward.

The lunch bill was ringing. "Come, Edward," said they.

"It's time to come in! You must leave off your play."

"You think require washing." He answered, "I'll run, and under the tap I will wash only one."

"But, Edward," they murmured, "your hair is so rough!"

"Your caution to wash is hardly enough," "All right," he replied, "yet I think it will do to brush but the side that is nearest to you."

They heard him with sorrow. "Oh, Edward, you should!"

In thinking such thoughts you are greatly to do but if to do half of each task you will try. You should sleep all the night, sir, with only one eye."

THE BEST PLASTER.

A Bad Disease

There is a certain disease that has come down to us through many centuries and is older than history itself, yet very few outside of the medical profession know anything of its nature or characteristics. At first a little ulcer or sore appears, then blanda of the neck or groin swell; pimples break out all over the body, back or some other part of the body and fill with yellow pus; matter; the mouth and throat become sore and the tongue is at all times badly coated. Headaches are frequent, and muscles and joints throbb and hurt, especially during rainy weather. These are some of the symptoms of that most loathsome of all diseases, Contagious Blood Poison.

This strange poison does not affect all alike. Some Blood Poison are literally eaten up with it within a short time after being inoculated, while others show but slight evidence of any taint for a long time after exposure, but its tendency in every case is to complete destruction of the physical system, sooner or later.

S. S. S. is a safe and infallible cure for this bad disease—the only antidote for this specific poison. It cures Contagious Blood Poison in every form and stage. It cures all kinds of skin eruptions, S. S. S. contains no Mercury, Potash or other harmful minerals, but is strictly and entirely a vegetable remedy, and we offer \$1,000.00 reward for proof that it is not.

OUR MEDICAL which was established in 1872, is doing a noble work in relieving suffering. Give our physicians a short history of your case and get their advice. This will cost you nothing, and what you say will be held in strictest confidence. With their help and a copy of our book on Contagious Blood Poison you can manage your own case and cure yourself at home.

A HUMAN OSTRICH

A Pretty Tale From Aesop, But Strongly Vouched For.

GREENSBORO, VA., Dec. 13.—Samuel Hallman, an employe of the Philadelphia, Wilmington and Baltimore Railroad, in the presence of quite a number of the citizens of this place, last night ate a large-size lamp chimney with apparently as little care as if he were eating crackers, stating that he had just come in from the country and wished to have an appetizer.

On ordering the chimney, Hallman told the clerk that it was useless to wrap it up, as he wished to eat it on the spot, and thinking that he was only joking, the clerk consented to give him the article free of charge, and was greatly horrified when he commenced eating it.

The SPORTING WORLD

Promising Young Jockeys. Two young jockeys are well fixed for next year, and their marked success in salary getting will doubtless excite many more youngsters to take to the saddle for a livelihood. Wonderly and Redfern, the two youngsters who performed splendidly the last season, are the lucky ones, and if they continue in the way they have begun but a few years will elapse before they have bank accounts equal to Tod Sloan, Lester Reiff and Danny Maher.

Redfern has signed with John E. Madden's stable for a term of two years. He is to receive \$18,000 for that period, \$8,000 for the first year and \$10,000 for the second. Redfern is but seventeen years old.

J. B. Haggin, the multimillionaire owner and breeder of thoroughbreds, has signed Jockey Wonderly, who is only sixteen years old, to ride for him next year at a salary of \$15,000. Mr. Haggin receives second call on the boy's services. J. H. Carr, owner of the good string of thoroughbreds, developed him and holds the claim to first call. The \$15,000 which Wonderly receives for second call is greater than any salary heretofore paid to a jockey for similar services in either England or America.

International Six Day Race.

The great international six day race at Madison Square Garden, New York, will begin Dec. 9. The teams that left Europe to come here in quest of honors and American gold are as follows: Gougoltz and Sinar, France; Chevalier and Fisher, Switzerland; Muller and Le Poutre, De Roeck and Kerf, Belgium, and Frederick and Jask, Germany.

The contingent of continental cyclists is the most formidable that has ever taken part in Gotham's great annual cycle race, and Yankee speed and grit will be tested to their utmost to prevent one of the foreign teams capturing the laurels in this year's race.

Some of the pedalers who sailed already well known on this side. Gougoltz and Sinar, it will be remembered, were only a lip behind the winners last year and furnished considerable excitement throughout the week by their remarkable spurt in an endeavor to shake off their fast flying opponent, Fisher and Chevalier, the Swiss pair, took part in the 1899 race and created the sensation of the week by stealing the only laps of the race that were gained in that fashion by furious, well timed spurts that killed off one after the other of the opposing riders. Muller rode here before, but was handicapped by a poor partner. This year he has as mate one of the best distance men abroad, Le Poutre, who is no stranger to the six day grind either. He has on several occasions asundered Europe by his wonderful stamens. Frederick, who has also frequently ridden in this country is likewise better equipped with a partner than he has ever before. De Roeck and Kerf will wear the Belgian colors in the coming battle on wheels. They have earned an excellent reputation on the other side and are said by McFarland to be a dangerous team.

Baseball Echoes.

Manager Hanlon claims that Pitcher McInally wants to return to him and that Scott would gladly go back to Cincinnati.

Harry Wolverton and Jack Barry are going into the tailoring business in Philadelphia. Of course they'll try to out their friends.

Catcher Joe Sugden will not be with Comiskey next season. It is said that he has signed a contract to play with the Perfectos.

Among the tens of thousands who have used Chamberlain's Cough Remedy for colds and the gripe during the past few years, to our knowledge, not a single case has resulted in pneumonia.
