The above number represents the circulation, each week of the DAILY and WEEKLY BULLETINS. Advertisers are invited to call and assure themselves of the truth of the statement, and they are requested to bear in mind that our rates for advertising are the lowest.

TO WHOM IT MAY CONCERN.

The attention of manufacturers about moving their location and of those who are seeking a place in which to establish themselves is called to the city of Maysville which offers the following advantages:

Good water power at low rates.
Cheap living which insures labor at reasonable wages.
Timber, iron and coal near at hand and at reasonable prices.

Access to the great markets of the country by railroad river.

An attractive and healthy place of residence, with cheap rents, churches and good public schools.

For all further information desired address THE BULLETIN.

ANNOUNCEMENTS.

For Judge of the Court of Appeals. We are authorized to announce Hon. RICHARD REID as a candidate for Judge of the Court of Appeals to succeed Judge Thos. F. Harris in the First Appellate district of Kentucky, subject to the action of the Democratic party.

We are authorized to announce that Judge ROBERT RIDGELL, of Esch county, is a candidate for Judge of the Court of Appeals in the First Appellate District of Kentucky, subject to the action of the Democratic party.

The Ohio State fair is to be held September 3, 4, 5, 6, and 7, at Columbus.

In 1860, Kentucky had \$20,236,579 invested in manufactures. In 1880 this amount had increased to \$45,813,039.

The Michigan Prohibitionists have resolved to raise a State fund of \$100,000, and use it in beating the Republican party. They have the money raised already—all but about \$69,975.

SENATOR MAHONEY SAYS: "I don't care who the Democrats may bring to the front, they will be beaten in the canvass of 1884. The Republicans may be disposed to wrangle among themselves for the moment, but in 1884 they will be a united party and will be successful."

SENATOR WILSON, of Iowa, in opening the Republican campaign in that State, declared that the real question as to the temperance issue was whether the majority should rule or not, and that the issue would be just the same if the people had declared in regard to the control of railroads, banking or any other policy.

Work on the Bartholdi monument in New York harbor is progressing in a satisfactory manner. The magnificent statue will be ready in September, but when the pedestal can be completed cannot be estimated. About \$100,000 of \$250,000 required to lay the foundation and complete the pedestal have been raised.

PROHIBITION is likely to give the Democrats of Missouri, and Senator Vest especially, a good deal of trouble in the future. The temperance people have begun to find out their power. Unexpectedly to themselves they carried a high license law through the Legislature last winter. This, however, only whetted their appetite, and they now demand prohibition pure and simple. They are strong enough, it is believed, to wreck the political fortunes of any man who may oppose them.

AFTER many sighs to the American flag, tardily explained or apologized for by other governments, it is refreshing to read of the honors paid to our nation through Mr. Williams, charge d'affaires at Montevideo. On the fourth of July President Santos and his Cabinet extended notable courtesies to the American legation, and a congratulatory resolution was passed by the Uruguayan Congress. Such events are getting to be so rare that this may almost mark an epoch in the history of our relations with foreign powers.

We clip the following extract from the correspondence of the Tombstone, Arizona, Republican of a late date:

Returning to Summit Station, we take vehicle for a trip to Bellevue, distant south-east about five miles. The hotel received its pretty name from its affording a magnificent view of the surrounding country, and in honor of Mr. Bell, one of the original locators. Here is located Coe's county's latest wonder, the Golden Rule mine. It is reputed of Baron Von Humboldt, that he predicted the future wealth of the world would be found in Arizona and New Mexico. After taking into consideration the argentiferous wealth of Tombstone, the immense copper deposits at Bisbee and Johnson, and then to inspect this district, and see \$1,200,000 worth of gold ore in sight, it leads one to imagine that the brainy old Baron must have had Coe's county in mind when making his prediction. The district lies on the eastern slope of the Dragon mountains, six miles distant from Coe's county's stronghold. The discovery of the Golden Rule mine was made in the fall of 1879, by L. C. Elliot, A. J. Spaulding and C. M. Hooker, the latter a nephew of Hooker, the great cattle king of southern Arizona. A. A. B. B. Work was at once begun upon the property, which gave evidence of great value from the croppings. After sinking an incline shaft about twenty feet, Elliot and Spaulding, thinking the ledge would pinch out, disposed of their interests to Messrs. Bell & Stevenson, two well known mill men of Silver City, New Mexico. Young Hooker also concluded to sell his interest being purchased by Mr. S. M. Eckels, also of Silver City, New Mexico.

Work was resumed on the mine, and in January last three partners sold a one-half interest to Mr. C. P. Crawford, banker of Silver City, for \$100,000. The property was then incorporated under the name of the Golden Rule Mining Company, with 100,000 shares of stock. The stock was held by twelve men, all residents of Silver City, save two, who reside in Washington City, and own 10,000 shares. The stock is valued at \$10 per share. In March last Mr. W. A. Farrish, superintendent of the Carlisle mine, offered, on behalf of eastern capitalists, \$500,000 for the entire property, which consisted of a group of eight mines. The offer was declined.

WORK OF DEVELOPMENT, ETC.

After six months of active work, the property now shows a well defined ledge of good quartz, averaging thirty inches in width, and assaying from \$35 to \$60 per ton. Mill returns from the Carlisle mill average \$10 per ton. There is now on the dump from twelve hundred to one thousand and five hundred tons of this character of ore, and no stopping yet has been done. The work of hoisting is done by whims. Captain P. L. Mitchell, foreman of the mine, and a thoroughly practical western miner, has lately invented a new style hoist of this character, which greatly increases the speed in hoisting. The invention has been patented. The company is now erecting a twenty-stamp mill about six miles from the mine, which will be in running order about September 1st. Mr. S. H. Eckels, the Superintendent, and one of the largest stock holders, informs me that by October 1st, without doubt, Coe's county will have added to her list of dividend payers. The working force at present numbers about 100 men, who are paid at the rate of \$3.50 per day for eight and ten hours work. Excellent board is furnished at 27¢ per week, and the miners are the most contented lot of men I have yet met in my travels.

The Golden Rule mine referred to is one of ten valued at \$20,000, and for the purchase of which, some eighteen months since, Messrs. George W. Sulser and C. B. Anderson, of this city, formed a company, having previously obtained through Dr. Peter, of Lexington, an assay of their ores, running as high as \$338 per ton, and making an average of \$90. The company deemed it advisable that Mr. Sulser should return to the mines for a more thorough examination, and re-assay, which he did, accompanied by Mr. George W. Tudor, and these gentlemen, after a thorough and satisfactory investigation, closed the purchase of these same eight mines for \$12,000 contingent upon approval of the company, which was advised by wire of their action, and at once ordered them home for consultation, ten days option having been obtained. Some dissatisfaction having arisen, this consultation resulted very unfortunately, it would seem, in the abandonment of the purchase.

We understand Mr. Sulser and Mr. Anderson have since acquired mining interests of much promise—one in Arizona, and one in New Mexico. We sincerely wish them better fortune in these interests.

O'NEILL'S JOURNEY.

The Mission of the Detective to Little Rock.

ST. LOUIS, Aug. 26.—Detective O'Neill's mission to Little Rock is no longer a secret. It does not relate to the disappearance of Mary Churchill, but to a gambling transaction that occurred during the June race meeting. "Dink" Davis, the sportsman who won \$70,000 this spring from New York faro banks, dealt a game of faro in this city at the Southern Hotel while the races were going on, and one of his patrons was a local sport named Donnelly, who lost \$3,500. After the races were over Davis went to Hot Springs. Donnelly remained at home to learn, as it is stated, that Davis dealt a brace game and "skinned" him out of his money. He brooded over his loss for a while, and then put it in charge of Charles P. Johnson with the result that O'Neill is now at a near Hot Springs, armed with a warrant and requisition for Davis for having committed a felony in the State of Missouri. A rumor was in circulation among the gamblers that the arrest had been attempted and resulted in the death of both Davis and Donnelly, but telegrams to Little Rock and Hot Springs failed to establish that such an affair had occurred.

Illegal Voting in Utah.

SALT LAKE, Aug. 26.—At the late election a number of votes were cast by Mormons for Territorial offices which the commission had decided were not elective, but appointive, and the commission therefore decided that there should be no election for them, and that all ballots having such names on should be null and void. In spite of this the votes were cast, and the Mormons sought to have them counted and certificates issued on them. This the commission and the Canvassing Board refused to do, but the Mormons will hold on to the offices all the same.

Saving a Passenger Train.

MOBILE, ALA., Aug. 26.—From passengers arriving by the delayed train on the Mobile and Ohio railroad it is learned that at Waynesboro, Miss., last night freight train No. 7, north bound, came near dashing into the south-bound passenger train standing on the main track at that station. A collision was prevented by the thoughtfulness of a railroad man, who changed the switch and threw the freight engine and six cars from the track. There was a bad smash-up, but no one was injured except the fireman, who was slightly wounded.

RETAIL MARKET.

Corrected daily by G. W. GIBBS, Grocer, Second Street, Maysville, Ky.
