GOV. HENDRICKS WRITES

Objecting to Cleveland's Withdrawal Because of the Scandal.

Letter Concerning Blaine's Interest in a Coal Mine—American Party to Withdraw Its Nominee—Cleveland Regrets.

DUBUQUE, Aug. 29.—The Herald to-day publishes the following letter from Governor Hendricks, received by a citizen of this city, in answer, to an inquiry concerning rumors affecting a change in the National Democratic ticket, consequent upon reports published against Governor Cleveland:

"INDIANAPOLIS, Aug. 27, 1884. 'I have your letter of the 26th inst. I can not consider with favor your suggestion of a change in the National ticket. The action of the Convention can not now be reconsidered, must stand, and I think it ought to stand. I do not agree with you in respect to the probable result. I think the probabilities are favorable to the success of our ticket. The Cleveland scandal will not have weight with the people, and ought not to have weight; it is unworthy the National contest. Three times Governor Cleveland has withstood the test of popular columns—one for the office of Mayor for his own city—and each time he received the indorsement of his neighbors by a vote largely above his party strength. Whatever there may have been of the scandal existing before that, it is not just either to him or the people to revive it. Public welfare requires that he be judged by his public record; by his capability and fitness for the discharge of responsible and important public duties, and not by old and exploded private slander. 'Very respectfully yours, 'T. A. HENDRICKS.'

Justice to All.

NEW YORK, Aug. 29.—The World to-day publishes the following letter: "PIEDMONT, W. Va., Aug. 26, 1884. 'To the Editor of the World: 'You have recently published several articles purporting to be from miners employed in the mines on the West Virginia Central & Pittsburgh Railway, which are gross misrepresentations. I feel sure you would not knowingly lend your paper to parties who would misrepresent a company engaged in developing the resources of the country. In the article reference is made to Blaine. Blaine has an interest in our company and is one of its directors, but he has never had a word to say about the employment or wages of men. A large majority of the officers, including myself, are Democrats and support Governor Cleveland. Among our directors are Hon. Wm. H. Barnum and Hon. A. P. Gorman. 'We believe the men, especially our miners, are receiving the best wages of any persons engaged in the mining of coal anywhere. 'This is not in the interest of any candidate but is written to correct misstatements, which, I think, injurious to our company. 'Yours, respectfully, 'H. G. DAVIS, President.'

The American Party.

WASHINGTON, Aug. 29.—Mr. Edwin D. Bailey, Secretary of the National Committee of the American party (Anti-Secret Society), says that ex-Senator S. C. Pomeroy, who was nominated for President at the Convention held in Chicago June 21 and 22, will withdraw in favor of St. John. When the Convention was in session St. John's name was prominently mentioned. It was thought, however, his nomination would prevent his nomination by the Prohibition party and without that nomination the American party did not desire his name at the head of their ticket. Next to St. John, Pomeroy was the choice. Bailey says Pomeroy was nominated with the understanding that if St. John was nominated at Pittsburg he would withdraw in his favor. The National Committee of the American party will meet in September, when the candidate of their party will recommend that the vote of the party be given to St. John. The withdrawal in favor of St. John, it is estimated, will give him 40,000 votes throughout the country from the American party.

Cleveland's Regrets.

NEW YORK, Aug. 29.—At a meeting of the Executive Committee of the Irish National League a letter was read from Daniel S. Lamont, Secretary to Grover Cleveland, in which he expressed the regrets of the Governor at his inability to attend the reception to Messrs. Sexton and Redmond at Chickering Hall to-night, and expressed the Presidential candidate's sympathy with the object of that gathering.

Mexico Borrowing.

CITY OF MEXICO, Aug. 29.—On the request of Senors Malo and Alvarez, the Commissioners appointed to arrange a city loan, City Council reconsidered the matter, and appointed Senor Fernandez its attorney to terminate the contract in Paris. A cable dispatch to that effect was sent, and power of attorney mailed. The National Bank, having a large cash surplus, lowered its rate of discount.

Ovation to Sheridan.

LOWELL, Mass., Aug. 29.—From 200 to 300 veterans assembled in the Northern depot at 9 o'clock to welcome General Phil Sheridan on his way to New Hampshire veterans' camp, at Weirs. Appearing upon the platform of the parlor car in response to the enthusiastic cheering General Sheridan bowed his acknowledgements, but could not be introduced to speech.

Suspected Conspirators.

SATILLO, Mex., Aug. 29.—General Zapata and Colonel Aguerris, two very popular officers stationed here left some days back for the capital, and it is now feared by their friends that their destination is Gonzalez's military dungeon at Tlalcohuac. Nothing has yet been heard from them, and it is thought they are suspected of complicity in the recent conspiracy fiasco.

Narrow Escape From a Fire.

PITTSFIELD, Ill., Aug. 29.—A large farm house in Atlas Township was burned Tuesday night, with a total loss of house and furniture. Five young men were cut off by the fire and jumped from the second story and landed safe. Another named Cook jumped into a burning shed and was badly burned. He will probably die.

A MOTHER'S CRIME.

Two Newly-Born Babies Thrown onto the Rocks from a Bridge.

CINCINNATI, Aug. 29.—Newport, across the river, enjoyed a sensation this morning, second only to the lynching of the notorious Kline several years ago. A story that startled the city from one end to the other was circulated to the effect that a woman had thrown two children from the Railroad Bridge to the rocks below, a distance of ninety feet, and dashed them to pieces.

Crowds were seen running from every portion of the city to the neighborhood of the bridge, and the police were going pell mell in various directions in their efforts to head off the woman.

About 10:30 o'clock a lad named Jimmy Welsh, while fishing with a number of companions at the second pier of the bridge on the Newport side, was startled upon looking up to see a woman throw a parcel over the bridge, which turned several times in its descent before striking the rocks close to where they were standing.

The package burst and exposed to their horror a pair of little twin babes, which were crushed out of all shape from the force with which they struck the rocks.

Young Welsh immediately ran up the bank to Front street and gave the alarm. He had no sooner reached the bridge than he saw the woman walk rapidly up Saratoga street about half a square, when she quickly turned and ran back to the bridge. She hastened back to Cincinnati. The lad describes her as follows:

She was of medium height, cross-eyed, and wore a white dress and black hat. Coroner Dameron, who was summoned to the scene, had the little bodies placed in a box and removed to Smith & White's undertaking establishment, where an inquest was held.

A verdict was rendered in accordance with the facts published. A crowd of men, women and children, numbering several hundred, had wended their way through mud several inches deep in their vain curiosity to witness the horrible sight.

THE FRENCH VICTORIOUS.

Masters of the Whole Line of Fortifications on Min River.

LONDON, Aug. 29.—A dispatch just received from Foo Chow states that the French iron clads again resumed the attack on the forts on Min River between its mouth and the arsenal at an early hour this morning. The forts at Kin Pal pass offered a determined resistance, but the superiority of the French gunners soon began to tell on the works. Gun after gun was dislodged, until finally the Chinese became demoralized at the sight of the destruction going on and fled from the fortresses, leaving everything behind. Admiral Courbet then decided an attack on the forts higher up the river, and made short work of them as the garrisons had become panic-stricken at the sight and fire of the fleet and hastily abandoned the defense, leaving the French masters of the whole line of fortifications on Min River up to the arsenal.

LONDON, Aug. 29.—A later dispatch from the Foo Chow correspondent of the Times says: I have just returned from Kingpar. All the defenses along the Min River are gone. The Chinese troops bolted. The French fleet can bombard, and the occupation of the mainland is impossible.

PARIS, Aug. 29.—Minister Ferry has no intention at present of summoning Parliament. He says that owing to China's treachery it has been impossible to treat her like a civilized nation.

SHANGHAI, Aug. 29.—Chang Si Tung, a Tartar General in the Province of Kiang Su, is appointed High Commissioner for the North and South. Li Hung Chang retains the Governorship of See Chi Li only. Tso Tsung Tang takes command of the troops in the South.

ADULTERATORS OF LIQUORS

In New York to be Prosecuted by a Temperance Organization.

BROOKLYN, N. Y., Aug. 29.—An organization has been formed in this city similar to that of the Citizens' Temperance League, but do not propose to proceed in the same manner. There are about 1,000 low groggeries and "bucket shops" in this city and these they propose to suppress. All these places sell liquors which are known to be adulterated with some poison.

The organization proposes to bring the cases direct before the Grand Jury under Section 29, Chapter 628, of the laws of 1857, which provides that all persons selling intoxicating liquors or wines adulterated with drugs or any poisonous ingredients shall be declared guilty of a misdemeanor, to be punished by imprisonment in the penitentiary or jail for the term of three months, and be fined \$100 each.

Captain Cotter, who has taken an active part in the temperance movements in Brooklyn, has been requested by the organization to take charge of its affairs.

PRIVATE HENRY'S REMAINS.

Definite Steps Being Taken to Authorize their Exhumation.

NEW YORK, Aug. 29.—Coroner Robinson, of Long Island City, held a consultation to-day with Coroner Levi, of this city, in regard to further action in the exhuming of the body of Private Henry, a permit to do so being refused on Governor's Island. Coroner Levi said:

"We sent Miss Buck a letter to-day and demanded legal evidence of her relationship with Henry. I went her to go before a Court Judge and send us her affidavit. Also affidavits of some respectable people of Lincoln, Nebraska, who have known her and can establish her identity. The affidavit she sent Coroner Robinson was very loosely drawn up and entirely too indefinite. After we receive a reply we will have another conference with Perry, and I don't think he will then refuse a permit. If he should do so, we will send a communication to the War Department at Washington."

Harvard Club's Summer Meeting.

NEWPORT, R. I., Aug. 29.—The Harvard Club, of Rhode Island, held their regular summer meeting and dinner at the Ocean House last night with a good attendance and representative gathering. Among the speakers were Senators Miller, of California, and Hawley, of Connecticut; Prof. J. F. White, of the United States Torpedo Station, and Prof. C. A. Brackett. A recitation was given by Henry Bedlow, ex-Mayor of Newport.

ALARM AMONG STOCKMEN.

Did the Pleuro-Pneumonia, Now in Illinois, Originate in Ohio?

Dr. Salmon, Chief of the Bureau of Animal Industry, so Suggests in His Report—The Disease Spreading.

WASHINGTON, Aug. 29.—Dr. Salmon, Chief of the Bureau of Animal Industry, has submitted a report to the Commissioner of Agriculture relative to the investigation of pleuro-pneumonia among cattle in Illinois. He has found eight cases in the vicinity of Chicago, two near Sterling, four near Peoria, one near Springfield, two near Virginia, and one near Jacksonville. A number of reported cases have not yet been traced. Dr. Salmon further says:

"It is impossible for me to get experienced men to assist me without moving them away from New York and Brooklyn, and this I don't want to do until absolutely necessary. Men who have had no experience with pleuro-pneumonia would be useless. Iowa, Missouri and Kentucky have received animals from infected parts. I telegraphed to the Governor of Kentucky a few days ago in regard to the animals that went there.

"We have not been able to decide which of the animals brought it to the Virginia sale, but one that came from Dye, of Ohio, was sick of inflammation of the lungs, supposed at the time to have been the result of exposure. This is most likely the origin of the disease, and if the suspicion proves correct it makes the matter still more serious. Dye is the most extensive speculator in Jersey cows in the country, and has sent cattle into nearly every herd in the West. If his herd is infected the disease must have been spread to nearly every State in the Union. I shall investigate this matter as soon as possible, and, if the infection is traced to Ohio, shall move all my men that will come. I should consider this a last resort. In the meantime I shall indulge the hope that this will not prove true. I will say positively that this disease is neither the result of scrofula nor exposure to inclement weather, or like causes. It is contagious pleuro-pneumonia, and I am just as certain of it as I am that such a disease exists."

CHICAGO, Aug. 28.—The Breeders' Gazette to-day publishes the results of its investigations as to the distribution of cattle sold by a man named Epler last winter, from which it is supposed the recent cases of pleuro-pneumonia originated. Purchases were made at that sale by M. G. Clark, of Geneva, Illinois, D. H. & S. S. Tripp, of Peoria; Peter Yates, of Springfield; Frank Gaston, of Normal, Bevis, of Virginia, Illinois, and Rawlings, of Jacksonville. From these the infection was carried to the herd of Keefer, at Sterling, Illinois; John Boyd, at Elmhurst, and O. J. Bailey, at Peoria. In all these herds there was sickness, and thirty-two animals died or have been killed because they were affected with pleuro-pneumonia. Of those which died before the infection was made public, the disease was variously stated as a severe cold, pneumonia, pleuro-pneumonia, lockjaw and hepaticization of the lungs.

CHICAGO, Aug. 28.—The visit of Dr. P. A. Avery, State Veterinarian, to Elmhurst yesterday, resulted in the killing of ten Jersey cows, appraised at \$3,000. Their lungs when found show a more or less decided trace of pleuro-pneumonia. In some cases the lungs adhered firmly to the ribs, and were decidedly "stapized."

THE CHINESE MUST GO.

If They Don't the Indians Say They Will Force Them To.

OTTAWA, Ont., Aug. 29.—Advices from British Columbia state that several encounters have taken place on the mainland between Indians and Chinamen. A few days since one of the latter was murdered by Indians near Lillooet and robbed of a large quantity of gold dust. The Indians say that if the Dominion Government does not drive them out of the country they will do so. The Chinamen are daily crossing over into the United States territory, where they get employment gathering the hop crop. It is believed here that Louis Riel, who led the Red River rebellion in 1870, is endeavoring to incite the half breeds to another uprising. He had hardly been in Canada one day before runners were sent out among the Indians urging them to demand \$300,000 from the Hudson Bay Company, the price they received for the transfer of their lands to the Dominion. Chiefs Big Bear and Lucky Man at once joined ten other chiefs in the movement and were ordered to report to Riel at once for instructions. Should their mission fail, Big Bear will refuse to go on the reserve unless told to do so by Riel.

THE HOP CROP.

About a Fourth Short and Prices Looking Up.

SPRINGFIELD, Mass., Aug. 29.—Reports on the New England homestead from two hundred hop-growing towns in New York, Maine and the province of Quebec indicate a crop at least a fourth short of the average, but this is believed to be an underestimate. The averages for each State are as follows: Maine 78, Vermont 80, Quebec 70 and New York 70. Buyers have been prospecting here and there, offering twenty-five to thirty cents a pound. Growers, however, are generally confident of higher prices, and are disposed to hold for thirty-five to fifty cents; especially is this the case in New York, where forty and fifty cents have been offered in a few instances for new hops, and where growers are well posted. Old hops are pretty much out of growers' hands, only an occasional small lot being reported here and there in New York. The new crop is of extraordinarily fine quality.

Folger's Condition.

ROCHESTER, N. Y., Aug. 29.—Judge Folger is at home, at Geneva, suffering from nervous prostration, caused by overwork. This morning he is reported better. He has been out riding every day until yesterday. Friends are hopeful of his speedy recovery.

The Art of Printing.

OTTAWA, Aug. 29.—Josiah Blackburn, Richard White, of Montreal, were chosen Colonel Chamberlain, Queen's Printer, to accompany him to Washington, Albany and other capitals of the United States, to inquire in the working of Government Printing Bureau.

The jury in the case of Wilbur F. Storey, proprietor of the Chicago Times, after being out thirty minutes returned a verdict to the effect that Storey is a distracted person, incapable of managing or controlling his estate, and has been in such condition for an unknown period prior to this date. The question of the appointment of a conservator of the estate was then taken up by the court.

A YOUNG BIGAMIST

Arrested at the Instance of Her Own Mother.

BOSTON, Aug. 29.—Katie Dunn, a pretty and well developed girl of seventeen, has been arrested on the charge of bigamy, the girl's mother being the informant. When Katie was ten years old her parents removed from Charlestown, Prince Edward's Island, to Halifax. Four years later she became acquainted with George McDonald, of Summerside, and they were married. They did not live happily together, and, after five months, parted. Not long after she became infatuated with a young man named Maynard, and after keeping company with him three months they were separated, owing to his being transferred with his regiment to England.

Subsequently she became acquainted in Halifax with William Bannister, a harness cleaner. Two years ago she and her mother removed to Farmingham, Massachusetts. The lovers kept up a correspondence, and she induced Bannister to come to Boston. Five weeks after her departure he came here, and they agreed to get married. Bannister heard that his intended had kept company with other parties and asked if there was any truth in the story. She denied it, and on Saturday last they were married. The mother learning of the wedding, came to Boston and informed the police. This morning the girl was arrested for bigamy.

MYSTERIOUSLY MURDERED.

A Young Farm Hand Killed and His Body Dragged to the Woods.

WASHINGTON, C. H., O., Aug. 29.—The body of John Floyd Mason, a farm hand who has been missing for about two weeks, has been found in a woods adjoining the farm of Robert Jefferson, Esq., in this county, by a colored boy. Mason was undoubtedly murdered near the road and his body dragged through the leaves and grass by the feet to the spot where it was found, as the trail was distinctly marked by blood stains on the leaves. His hat, comb and pen-knife were found along the trail.

The condition of the body indicates that the crime was committed about ten days ago. Mason was formerly from West Virginia, and was a young man of good appearance. The object of the murder is a mystery, as \$25 in money and a certificate of deposit on the Mt. Sterling bank was found on his person.

New Line to Europe.

SAVANNAH, Ga., Aug. 29.—A prominent business firm of this city announces that a line of steamers between Savannah and English and French ports will be established early this fall. The steamers will be run in connection with the new through line from Cincinnati to seaboard by way of the East Tennessee, Virginia & Georgia Railroad. The enterprise is regarded as certain to greatly advance the commercial interests of the Southern States.

MacGahan at Zanesville.

ZANESVILLE, O., Aug. 29.—MacGahan's remains reached this city at 2:15 this afternoon and were received by Company B, O. N. G., Uniform Rank No. 82, K. of P., Hazlett Post G. A. R., and a large concourse of citizens. They were deposited in a private vault.

Chinaman Hung.

PORTLAND, Ore., Aug. 29.—Jim Lee, a Chinese high-binder, was hung here to-day for the murder of his Chinese mistress at Pendleton, in a fit of jealousy. He was a hard case, and met his fate with stoic indifference.

The Xenia Bank Apparently O. K.

WASHINGTON, Aug. 29.—The Acting Comptroller of the Currency has received a telegram from Bank Examiner Ellis stating that the Xenia Second National Bank will probably be able to meet all demands upon it. There apparently is no necessity for the appointment of a receiver.

She was a Revolutionist.

ODESSA, Aug. 29.—The woman who fired a pistol at Colonel Katansky, of the gendarmerie, last week, is identified as an active member of revolutionary society. She was sent to St. Petersburg.
