PREMATURE AWARDS.

A private letter from a prominent member of the Ohio bar directs our attention to the following extract from the appendix to the Richardson edition of the "Presidents' messages." This was written before the official assaults upon Commodore Schley began:

"The Spanish fleet attempting to escape from Santiago Harbor, Cuba, destroyed by American squadron under direction of Winfield S. Schley." Sampson not mentioned. Again Appendix Vol. 16 page 581. "Rear Admiral Sampson being about seven miles from the scene of battle, the command of the American vessels during the engagement devolved upon Commander Schley, and under his directions the squadron closed in on the fleeing vessels, and in about two hours the entire Spanish fleet was destroyed. The Spanish losses were 600 killed and about 1400 prisoners, including the Admiral. The loss on the American side was one killed and one wounded, while not a vessel was materially damaged."

The first mention of Sampson is in President McKinley's message of December 5th, 1898, vol. 10, page 170, where he says "the Spanish fleet was met by Commodore Sampson and destroyed." Schley is ignored; not even mentioned, while all the honors are showered upon Sampson, including the degree of L. L. D. from Yale—apparently meaning in this instance, not Doctor of Laws, but Doctor of Logs.

The revelations of that official "appendix" are simply startling, and the committee on "naval affairs" ought to have it removed at once.

REPUBLICAN CANDIDATES.

Congressional Race a Year Off, But Aspirants Are Already Laying Their Plans.

[Courier-Journal.]

GREENUP, Ky., Oct. 1.—It is fully a year before a successor to Congressman Kehce will be nominated, but already several men are in the field for the Republican nomination.

County Judge J. B. Bennett, of this county, has long been credited with Congressional aspirations and his friends say he has pledges of support from men all over the district. He was Chairman of the Republican Congressional Campaign Committee last year, and is also a member of the State Committee, which has given him an acquaintance over the district that will be of value to him. R. C. Burns, of Boyd County, is another aspirant. He was a candidate for the judgeship of the Court of Appeals last year, but was beaten for the nomination by Judge Ed. C. O'Rear. Mason County will present a candidate in the person of State Senator William H. Cox. He is popular and a strong man.

It is not known whether former Congressman Pugh will again be a candidate, but it is generally believed that he will not, but will throw his strength to Judge J. B. Bennett.

River News.

The M. P. Wells, on the Covington docks, will receive nearly a new hull and much other work before she will be ready for work.

The Cairo towboat Gleaner was sold this week to the People's Coal Company of Pittsburg and will be taken to Pittsburg next week.

Baylor Spratt, engineer of the Sunshine, arrested recently for making the safety valve fast, was bound over to the U. S. grand jury by Commissioner Adler. Thomas Daniel, a colored deckhand, in endeavoring to protect Spratt incriminated himself, and was lodged in jail. He said he placed picks on the valve so as to prevent the escape of steam in order to "keep the place cool."

THE VICROY-MORAN CASE.

Latter's Wounds Not as Dangerous as First Reported—His Account of the Shooting.

Later information from ex-Constable W. L. Moran, who was shot by Squire Wesley Vicroy Thursday morning, is that he is not so dangerously wounded as first reported. Only three shot penetrated the right lung, the rest of the charge striking him in the shoulder.

His physician, Dr. Reed, thinks he will recover.

Mr. Moran's account of the trouble is entirely different from Mr. Vicroy's. He says he never saw Vicroy when the shot was fired, and that no words had passed between them.

Board of Trade.

A meeting of the directors of the Board of Trade will be held to-night at rooms in Cox Building. Let all be present.

SCARLET FEVER.

Circular Issued by the State Board of Health Regarding the Prevention of This Disease.

To the Health Officials, Physicians and People of Kentucky: Scarlet fever, scarlatina and scarlet rash are different names for one and the same disease. It is an infectious and dangerous disease, and the mildest case may spread the infection and cause the most malignant cases.

Scarlet fever is essentially a disease of childhood, and always results from infection from a pre-existing case. Countries have been free from it for centuries till imported by commerce and trade. Owing to its frequency and fatality, it is of far more importance to the people of Kentucky than smallpox, cholera or yellow fever. In view of these facts, the great importance of prompt isolation and thorough disinfection to prevent the spread of the disease are beyond question.

The following rules have been prepared with care and should be disseminated and, as occasion requires, observed by all interested in the welfare of children:

1. When a child has sore throat and fever, and especially when scarlet fever is in the neighborhood, it should be immediately separated from others until a competent physician has seen it and fully determined that it is not affected with a contagious disease.

2. If scarlet fever, maintain strict isolation, in an upstairs room, if possible, however mild the case may be, until the shedding of the skin is complete and all branny scales disappear, and afterwards, until the patient has been thoroughly bathed and clad in garments which have not been in the sick room during the illness. In giving the disinfecting bath the hairy scalp should receive special attention.

3. Placard the house, and keep all children, all having the care of children, and all going where children are, away from it. It should be borne in mind that the poison of scarlet fever surpasses that of any other eruptive disease, except smallpox, in its tenacious attachment to clothing and other objects, and in its portability to other houses or even to distant localities.

4. Burn all discharges from the mouth and nose, and disinfect all other discharges from the patient. Burn all refuse from the sick room. All spoons, cups, glasses, &c., used in the sick room should be washed separate from other dishes, and should remain some time in boiling water.

5. Disinfect all bed and body clothing, and everything else used in the sick room, before removing it therefrom, by immersion for six hours in a solution of chloride of lime, four ounces to the gallon of water. They may then be wrung out and put into the wash. Remember, however, that no disinfectant in the occupied sick room can do away with the necessity for abundant fresh air and sunlight.

6. After complete recovery, or death, carefully and thoroughly disinfect the room and its contents. To do this stop all apertures well, dampen the floor and bedding, and use nascent formaldehyde, or burn three pounds of sulphur, dampened with alcohol, for each 1,000 cubic feet of space, leaving the room closed for at least twelve hours. Afterwards the room should be thoroughly ventilated, and all ledges, woodwork and walls washed with strong soap, and rinsed with the disinfecting solution. This work should be done thoroughly, otherwise it will give only a false sense of security.

7. In case of death the body should be wrapped in a sheet saturated in disinfecting solution and buried as soon as practicable, without public funeral service. Newspapers, in giving notice of death, should state that it was from scarlet fever, and that children, and persons having the care of children, should not attend.

8. The law requires that all cases of contagious disease shall be reported to the city or county Board of Health, by the head of the family or physician, within twenty-four hours. This law should be observed in every case.

By order of the board.

J. M. MATHEWS, M. D., President.

J. N. McCORMACK, M. D., Secretary.

MRS. SARAH A. SIDWELL,

Mother of Mrs. John L. Chamberlain and Mrs. Walter Sherwood, of This City, Passed Away Thursday Afternoon.

Mrs. Sarah A. Sidwell, wife of Mr. John B. Sidwell, died Thursday afternoon at 5:30 o'clock at the family residence near Tuckahoe, of asthma, complicated with other troubles. She had been a sufferer for fifteen years, and had lingered the past week or so in a critical condition.

Mrs. Sidwell was a Miss Holton and was about fifty-six years of age. She belonged to one of the old and highly respected families of the county, and was esteemed by all who knew her for her many Christian virtues. Her husband, who is one of Tuckahoe's prominent and successful farmers, survives her, and she leaves seven children.—Mrs. John L. Chamberlain and Mrs. Walter Sherwood, of this city, Miss Mattie, William, Nathan, Holton and Leslie.

The funeral arrangements will be announced to-morrow. The service will take place Sunday morning.

James Brown, who was struck by the C. and O. yard engine a week or two ago while sitting on the track near the coal elevators, has brought suit against the company for \$1,850. C. Burgess Taylor is his attorney.

A reunion of former Kentuckians now living in Vernon County, Mo., was held at Nevada, the county seat, Thursday. Mr. W. W. Holton, for years a resident of Maysville, is President and delivered the opening address. Ex-Governor Crittenden and Ex-Governor Stone delivered the principal addresses.

ITEMS OF INTEREST

Contributed by the Bulletin's Corps of Country Correspondents—Paragraphs Personal and Otherwise.

ORANGEBURG, Oct. 2nd.—Grant Wilson and son, Duke, have returned from Cincinnati.

Miss Martha Best has gone on a visit to Foxport.

Martha Collins' baby boy, a bright little fellow, is sick.

Martin Heflin and Win Hord are attending school at Rectorville.

Tobacco is about all housed and is a very fair crop, considering the season.

The wigwag corn now dots the fields.

Its stately columns to the corn knife yields. Mrs. Ella Cooper is sick, threatened with fever. Some of the tobacco is said to be rotting in the barns.

Will Kennan is the Democratic candidate for School Trustee to fill out Robert Bullock's unexpired term.

Charles Calvert is in the field as an independent candidate for Magistrate, and has a strong petition containing a long list of names, backing him up in his aspirations.

Mr. and Mrs. Grant Wilson and Mr. and Mrs. Charles Calvert formed a theatre party and visited Maysville last Thursday evening.

Al. Corryell's little three-year-old son, while standing at a window, had his arm badly bruised by the sash falling on it.

Ed. and Lem Stevens are still absent at Sciotoville, O. They are "baching" and having lots of fun, with a little work thrown in occasionally.

There was a very heavy fog at this place Tuesday morning, lasting till nearly noon, and in dissolving was similar to a light shower of rain.

In Cincinnati exclusive feminine parties are called "Kaffee Klatches," a German term which in English means coffee and small talks. A most successful party of this kind, called a dining, was given Wednesday, September 25th, at Mrs. John Pollitt's. Those present were Mrs. L. M. Collins and daughter, Lou, Mrs. James Beckett, Mrs. Howard Taylor, Mrs. Amanda Calvert and daughter, Elizabeth, Mrs. Best, Mrs. Ella Cooper, Mrs. Fanny Bullock, Mrs. Ab. Bramel and daughter, Ella Hord. A very pleasant time was enjoyed by all.

Ab. Bramel hasn't got done laughing yet about an accident that recently happened to a concealed young rooster of his flock. This rooster is a Shanghai and the dandy of the farm-yard. He strutted and crowed and strutted and strutted. He would bristle up and yell defiance at a cheerfully crowing brother half a mile away. He seemed a favorite with many the hens, especially the giddy young pullets, and hence was not very popular with the sedate and dignified roosters. But pride must have a fall, and his time came to take a tumble. A tin slung-bucket containing about two gallons was hung on a hook alongside the summer kitchen to keep the little chickens from being drowned therein and older ones from abstracting the solid parts of the hog's menu.

Mr. Shanghai flew up and perched himself on the rim one day, and while critically picking out and devouring the tidbits therein, became over-balanced and plunged headlong into the receptacle for solid and fluid kitchen offal. It was awful, so it was, and after giving a smothered squawk and two or three kicks he would have perished had not one of the folks seen his predicament and pulled him out. But a wonderful change has come over him since his bath. He sits moping in corners, pays no attention to the blandishments of the feathered feminines, and there isn't a strut or crow in him.

Constable Gus Tolle has a turkey hen which is foraging around with four turkeys of tender age, the result of a late setting. While going out the pike last Sunday near his residence Gus heard a commotion over in the weeds near the fence, and on investigating found the old turkey hen bravely defending her frightened brood from the attacks of a large hawk. They were in a death grapple, but as Gus approached, the hen, realizing that help had arrived, let go while the hawk started to seize one of the young ones which were cowering in a frightened heap near by. As the hawk had not noticed Gus he concluded to pay him a little attention, which he did, paralyzing his spine with a well-directed blow of a big fat rock. The hawk, although badly crippled, was full of fight yet, and while trying to bite Gus, was killed by having his head crushed by a stamp of the latter's foot. Gus says he hopes the turkey hen won't toll away her chicks and have another finish with a hawk, as he might not be there to decide in favor of the defendant.

PLEMVILLE, Oct. 2.—Mr. and Mrs. J. L. Bean visited her parents, Mr. and Mrs. Martin, in Fleming County recently.

Robert Lee Mattingly, of this place, and Miss Lydia Story, of Lewis, were married at home of the bride September 25th.

Mrs. Julia Bean was bridling her horse where it was eating Monday and it bit her on her face, breaking one of her teeth out and otherwise lacerated her.

Mrs. William Whaley, of Maysville, who is seriously ill with consumption at the home of her mother, Mrs. Bean, is reported much worse.

The C. W. B. M. of the Christian Church will meet to-morrow afternoon at 3 o'clock with Miss Sallie S. Wood of Forest avenue.

About 200 delegates are attending the Kentucky Conference of the M. E. Church, South, at Shelbyville. Bishop Hargrove presides, and Rev. F. S. Pollitt is Secretary.

As cool weather comes on we are reminded of the many horrible accidents, often deaths, which result from children and sometimes grown people, having their clothes catch fire from open grates. There is no safer protection from such disaster than to provide your fire-places with wire guards. Besides being ornamental, they are very inexpensive, and no family ought to be without them. The Frank Owens Hardware Company carry all sizes in stock and can fit any fire-place.

Banker Routs a Robber.

J. R. Garrison, Cashier of the bank of Thornville, O., has been robbed of health by a serious lung trouble until he tried Dr. King's New Discovery for consumption. Then he wrote: "It is the best medicine I ever used for a severe cold or a bad case of lung trouble. I always keep a bottle on hand." Don't suffer with coughs, colds, or any throat, chest or lung trouble when you can be cured so easily. Only 50 cents and \$1. Trial bottles free at J. Jas. Wood & Son's drug store.

THAT USEFUL ARTICLE,

.....THE.....

Walking Skirt!

Our fall line has just come. New cuts, new designs. Made in the latest style, flaring at bottom; black, oxford mixtures, brown. There are decided reasons for women buying these Skirts. They are strictly tailored, consequently have a stylishness and "bang" that work from the average dressmaker lacks. Then consider the price you pay for material and making. Double the cost of these ready-made skirts—that's certain.

\$5, \$5.75, \$6.50.

Just Arrived
