RATES FOR CLERGYMEN.

A number of the eastern railroads having on January 1, 1895, changed their rules regarding the issue of reduced rates to clergymen, and unauthorized statements as to the reasons for making the change have been published.

GENTLEMEN.—I am in receipt of your letter of January 15th, enclosing the resolutions of the Presbyterian Ministers' Association of Rochester.

I deeply regret the publicity which was given to this matter and the discussion which has grown out of it before we had really arrived at what was the best policy for this company and its associates in the Trunk Line Association to pursue.

I am sorry to say that some railroads do not treat their agreements with each other with the same sense of honorable obligation which the officers would observe in their individual transactions.

OF COURSE the essential principle at the bottom of the relations between the railroads and the public is that everybody shall be treated alike; that the railway fare shall be like the postage of the government, the same to everyone who boards the train and becomes a passenger between the same points.

THE MINISTERIAL TICKET was issued at a reduced rate, not as an act of charity, as some have alleged, but because it was believed that the clergy and the church performed an essential service which was felt throughout the vast employment of these corporations.

PERSONALLY, I would be very glad if the privilege could be continued under restrictions which would confine it within legitimate bounds. You will see, however, from the explanations which I have given, how difficult a problem this is.

Yours very truly, CHAUNCEY M. DEPEW, President.

THE WEEK'S TRADE.

NEW YORK, Feb. 16.—R. G. Dun & Co.'s weekly view of trade says: Another week's exports of gold from the treasury will have almost entirely stopped by the contract for purchases of gold from Messrs. Belmont and Morgan.

THE TWO obstacles which block the path just now are exceeding cheapness of farm products and restricted operations in the industries.

THE OUTPUT of pig iron February 1 was 167,291 tons against 158,471 tons in January, but the stocks remaining unsold were 718,073 tons against 645,478 January 1, and indicate a decrease of 16,137 tons in actual consumption weekly during the month of January.

SALES of steel rails were only 150 tons in January, and the weather has retarded structural work and retarded deliveries of all kinds.

CONTINUED dullness is reported in cottons and a reduction in prices by the Amoskeag mills causes some hesitation. In the main the works are well employed, but with extremely scanty profits and considerable doubt whether the market will be found for accumulating stocks of some goods.

TRADE in woollens is by no means satisfactory, though fairly large in volume in medium and low grades, but prices have been generally reduced and competition with cheap foreign goods is felt somewhat more.
