

The Coconino Sun

VOL. XVIII.

FLAGSTAFF, OCTOBER 19, 1901.

No. 42

NEWS OF THE TERRITORY.

Items of Interest from Our Exchanges and Other Sources Concerning Progressive Arizona.

The Sunset Telephone company has completed its long-distance line from Phoenix to Nogales.

The delegates appointed to represent Tombstone in the territorial statehood convention are Hugh Conlon, E. W. Land, A. Ashman and A. H. Emanuel.

The Nogales town council has elected Captain L. W. Mix, Colonel Robert Williams, Allen T. Bird and Mayor W. F. Overton delegates to represent the town of Nogales at the statehood convention.

Another flow of artesian water has been encountered at Benson on the ranch of Dr. Nesbitt. The flow was encountered at a depth of 900 feet and the average flow is thirty-five gallons per minute.

United States Marshal, M. H. McCord has appointed Will Hill of Phoenix as his deputy, to succeed George M. Smullin, who resigned to accept a position with the Pearce Mining company at Pearce, Arizona.

Two miles of steel have been laid out of Douglas on the road to Deming on the El Paso & Southwestern. The work is now being pushed at the rate of a mile a day. Twenty miles have been laid out of Deming this way, and it is now expected that the work will be completed about the 1st of February.—Review.

An explosion of a boiler in the plant of the Detroit Copper Company at Morenci on Monday instantly killed W. W. Morgan and F. A. Adams, firemen. Harry Davidson, converter engineer, and Joseph E. Antiveras, helper on the engine, and several others were painfully injured by molten metal, but their injuries are not necessarily fatal.

R. G. Goodwin has received samples of ores taken from the shaft which the Oro Cobre Mines company is sinking on one of their claims in Lyon's canyon. It is very fine ore, carrying big values in silver and copper, and there is considerable of it in the shaft. P. J. Cole is quoted as saying that the Oro Cobre company has one of the very best prospects he has seen in this district.—Silver Belt.

The strike at the Sahauro mine, northeast of town, is but another evidence of the richness of the Hassayampa district. So near the surface that it was barely concealed, the ledge had been crossed thousands of times by passersby, and of late a path has been traveled daily by men working on the two shafts on either side of the place where the ledge was accidentally exposed.—Wickenburg Herald.

It is reported that R. R. Richardson of Patagonia has sold his Pennsylvania ranch and all the cattle for \$100,000 to Vail & Gates of the Empire ranch. The new purchase of that firm joins their former holdings on the south, and they have now a continuous strip of country several miles in width, extending from near Bloxton, in the Sonoita canyon, to a point north of the main line of the Southern Pacific railroad, about Pantano and Vail stations.—Stockman.

Our board of supervisors, in compliance with a petition of fifty voters of St. Johns precinct, have ordered a local option election to be held on the 9th of

next month. Benj. Schuster was appointed inspector of the election. Snips has no ax to grind in this matter, and shall vote our sentiments and say nothing. We say, the will of the people be done. It takes a two-thirds vote to carry this election, and whisky cannot even be given away when it goes into effect if the law is enforced. If the law is effective the man behind the pencil will be as happy as ever.—St. Johns Snips.

William Garland, president of the G. V., G. & N. railroad, arrived last Sunday on a special and got out again before we had an opportunity to interview him. However, we can state that his business here at this time is to investigate further the practicability and inducements afforded for building the proposed extension of the G. V., G. & N. railroad to Mineral Creek, and he has been out for several days sizing up the mining situation in the western part of Globe district, through which the line is projected. Mr. Garland will probably go as far as the Ray and is expected to return to Globe to-night. He is accompanied on the trip by Surveyor Pendleton of Globe.—Belt.

Cochise station on the Southern Pacific railroad receives for shipment from two to three hundred tons of ore every day. This ore comes from the Dragoon Mining company and the Copper Prince company, nine miles west; the Good Hope mine and Bingham mine, eight miles south; the Great Western, the Copper Bell, Black Diamond, the Copper Bullion, the Ryan Brothers and the McLittrick mines, near Turquoise, thirty miles south, and from various other smaller properties. Then, from the Great Commonwealth at Pierce, sixteen miles south, comes the big shipment of gold and silver bullion, amounting to about \$83,000 per month.—Tucson Post.

A dispatch from Disbee announces the death this morning at 10 o'clock of C. S. Fly, Cochise county's sheriff from 1892 to 1896. Mrs. Fly was notified yesterday of her husband's serious illness and left hurriedly in the afternoon to be in attendance at the bedside of the sick man. The remains will be brought to Tombstone for interment. Upon the arrival of the body the A. O. U. W. of this city will take charge, under whose charge the obsequies will be conducted. Mr. Fly is a pioneer of Tombstone, having arrived in the camp December, 1879, where he has resided ever since, sharing life's vicissitudes and leaving his survivors to speak the kindest words of him. The bereaved wife has the sympathy and condolence of the entire community.—Prospector.

Charles R. and Porter W. Fleming report a most remarkable discovery of gold in the Galluro mountains, about seventy-five miles north of Tucson. The vein of ore, according to the Flemings, is 200 feet wide and 6,000 feet in length. A canyon cuts the ore on either side the entire length of the cut. The Fleming brothers assert that from the bottom of the canyon to the surface the outcroppings of ore will run from \$5 to \$1,000 to the ton. They estimate the amount of gold in sight at the enormous sum of \$7,000,000. The Tucson Star is authority for the statement that the story told by the Fleming brothers is authentic, and that it has verified the facts as above given. If the find turns out as rich as the report brought by the two prospectors seems to indicate it will be one of the greatest gold discoveries ever made in Arizona.

The Greenlaw Residence Fire.

At 9 o'clock Wednesday night fire was discovered in the second story of the frame residence of C. A. Greenlaw. The Ed Ayer and Nevin hose companies responded to the alarm, and through the efforts of the firemen the flames were confined to the second story.

The damage by fire was small compared to that done by water, everything in the front part of the house being flooded with water.

The residence was occupied by Geo. H. Coffin and wife, and the fire started in the room occupied as a sleeping apartment. The family were absent during a portion of the evening.

The damage to the building is estimated at \$300, fully insured, and to the furniture at \$800, on which there is \$300 insurance. Mr. Coffin estimates his loss on wearing apparel at \$150.

Mr. Greenlaw and family, who live at Greenlaw mill, were in Thursday to view the damage done by the fire.

Statehood Delegates.

The executive committee of the Democratic county central committee met Thursday and appointed the following delegates and alternates to the statehood convention to be held at Phoenix on Saturday, October 26: J. B. Jones, T. A. Riordan, George Babbitt, E. S. Gosney and Henry F. Ashurst. Alternates—R. J. Walker, James Walsh, D. L. Cunningham, J. W. Weatherford, J. Salzman.

The executive committee of the Republican county central committee met yesterday and appointed the following delegates from Flagstaff: M. J. Riordan, E. S. Clark and C. M. Funston. The remaining two will be appointed by the Williams members of the executive committee.

The delegates from the town of Flagstaff will be appointed by Mayor T. E. Pollock on his return from the East next week.

Martin-Wakely.

Miss Edna Joy Martin and J. D. Wakely were married at the residence of the bride's parents on the 15th instant. The Prescott Courier says of the contracting parties: "Miss Martin is the daughter of Mr. and Mrs. J. C. Martin, Mr. Martin being the editor and proprietor of the Journal-Miner, the leading Republican paper in Northern Arizona, and receiver of the United States land office at Prescott. Miss Martin is a handsome, bright, accomplished and amiable young lady. Mr. Wakely is a young practicing attorney of Prescott, who cast his lot here some years ago. He came here a stranger. He is to-day well and widely known, and has by close attention to the interests of his clients, strict personal integrity and exemplary conduct established a splendid reputation, a solid business and a growing clientele."

LETTER LIST.

List of letters remaining in the post office, uncalled for, for the week ending October 19, 1901:

Anderson, Fred	Arters, Arthur
Biggs, Mrs	Burdi, Geo
Carson, J G 2	Trammel, E G
Possinger, William	Shafer, Harry R

Flagstaff Theatre.

Flagstaff is going to have a modern, up-to-date theatre building. It will be a ground floor theatre with a balcony and gallery. The stage will be large and equipped equal to the best metropolitan theatres. The theatre will have first-class appointments and will be successfully managed to the satisfaction of the most critical theatre goers.

Mr. Johnson, theatre promoter and builder, has made a very liberal proposition to the people of Flagstaff.

This will be a great advantage as a place of amusement for the gentlemen and ladies of the city. The ladies will certainly enjoy the theatre and ball room in connection, and will surely do all in their power to help the project along.

The hall room will be the largest Flagstaff has ever had and will be a fine place for fairs, kirmisses and the like.

Mr. Johnson should be given all the encouragement possible in this great enterprise.

A. O. U. W. Smoker.

Flagstaff Lodge, No. 13, A. O. U. W. entertained a number of invited guests at a smoker Thursday night.

The program consisted of vocal and instrumental music and short talks, after which a fine lunch was partaken of. There were about one hundred members and guests present and all enjoyed the entertainment provided for them.

Flagstaff Lodge, No. 13, A. O. U. W. was organized on May 25, 1893, with a membership of twenty-five. During the eight years past it has never had a smaller membership and now has sixty-seven members in good standing, and it is the ambition of the lodge to increase its membership to one hundred before the first of the year. The officers and members are enthusiastic in their labors for the progress of the order.

Will Elect New Officers.

On Monday night, October 21, the members of Co. I, N. G. A., will hold an election the following officers of the company: Captain, first lieutenant and second lieutenant.

Captain Geo. W. Glowner has resigned and his resignation has been accepted. Lieutenant L. W. Quinlan having been promoted to adjutant of the Third battalion, and Lieutenant W. F. Gibson having been retired, three vacancies occur in the commissioned officers of the company.

The election will be presided over by Major George Hochderffer of the Third Battalion.

The boys of Co. I are preparing for a lively election and a reorganization of the company, and a number of recruits will be added to the company.

Assessable Valuation of Flagstaff.

Town Tax Assessor L. W. Quinlan has completed the assessment for 1901. The following figures show the taxable wealth within the corporate limits of Flagstaff:

Real estate	\$ 92,640 50
Improvements	182,960 00
Personal property	149,402 50

Total

The town tax rate for 1901 will be just one-half of that of former years, as the council will without doubt make the rate one-half of one per cent.
