FOURTH COMMITTEE IS EXCELLING ON PROGRAM

Biggest Celebration Program on Record Rounding Into Shape—Committee Working Hard

As Flagstaff's fiesta days draw nearer the committee on program and arrangements burn the midnight oil drafting a program that will outstrip any previous program ever offered in Flagstaff.

H. A. Hughes, democratic candidate for governor, will make the Independence day address at the court house at 10 o'clock Saturday morning.

There will be horse races both days, the purses aggregating \$575. In order to make the free for all race a drawing card and free from fixing, the committee demands three to start and no money unless a race is made.

A ball game between Flag and Williams will be pulled off the afternoon of the 3rd, and other athletic sports will have their place on the program the following afternoon.

There will be something doing every half-minute, lots of music by the Winslow and Flagstaff bands. A more detailed program will be found on another page of this issue.

VOLCANO IN CALIFORNIA CAUSES MUCH ALARM

Mt. Lassen, at the foot of the Cascade range, in two eruptions of fire and smoke Monday, became the newest active volcano in the world. Two new craters, besides one formed May 30, were opened. The mountain has been emitting steam and vapor for some time.

Two new craters, in addition to one blown open May 30, burst from the mountainside Monday. Fire from them was seen by persons on roofs at Redding, Volta, and other points. This was regarded as establishing the nature of the outbreak, which hitherto has been ascribed to geyser action. A previous eruption early in the day came from the crater of May the 30th.

Lance Graham, a lumberman from Vivea, Shasta county, ventured too near the cloud of smoke as it shot 2000 feet into the air and a gagged rock sawed him nearly in two, cutting off his arm and exposing his heart. He was taken to Volta, a few miles distant and at a late hour was still alive despite his mutilation.

Of the eight members in his party, two, Hugh Addington and Hiram Blodgett, were found later, and one, a man named Tipple, was seriously bruised and cut by rocks. A report that one of the party went insane proved incorrect. Monday evening's eruption, the seventh since May 30, was even greater than the one earlier in the day. The two new craters, as nearly as could be determined, are about a mile apart. They were torn from the mountainside simultaneously with the first appearance of the fire.

Six of the party saved themselves by burying their faces in the snow, and avoiding the poisonous gases which belched from the volcano.

Charles Long Dies

Chas. Long, one time connected with the forest service and an old resident in this community, was found dead in bed Wednesday morning in his quarters at Ray Eddy's home. Mr. Long complained of not feeling well Tuesday evening and retired early. The next morning after he did not respond to repeated calling an examination was made and he was found to have died some time during the night.

SHARP-FELLOWS CO. GET TEMPORARY INJUNCTION

On Tuesday of this week the Sharp & Fellows Contracting Company, through its attorney, E. M. Doe, presented to Judge F. W. Perkins, a petition for a temporary injunction against the Flagstaff Local Union of Industrial Workers of the World and its members restraining the defendants from intimidating or threatening the plaintiff or any of its employees, or intending employees by the use of force, threats, or show of force, or by means thereof, from preventing any of the plaintiff's employees from remaining in its employ, or any persons from seeking employment with it.

The petition contained averments reciting the plaintiff's contract for the completion of the new reservoir before the first frosts, that on the 9th of this month a considerable number of the defendants had stopped employees of the plaintiff, who were upon wagons engaged in the transportation of material for the plaintiff and threatened them, that unless they quit their employ and left the wagons they would pull them off and beat them up, and have at different times attempted to intimidate employees and intending employees of the plaintiff, and that at a meeting of the union, held in Flagstaff on Sunday last, one of the union speakers threatened the use of force by Tuesday or Wednesday, if the demands of the union were not complied with before that time.

The temporary restraining order was granted on Tuesday evening by Judge F. W. Perkins, who required the defendants to show cause on the 25th inst., why the restraining order should not be made permanent. It is reported that one of the leaders of the union referred to the injunction as evidence of persecution, but the injunction only restrains the defendants from the commission of illegal acts.

Stringent ordinances, regulating the holding of meetings etc., intended to regulate the acts of the union, within the town limits have been prepared by Town Attorney Doe and were adopted by the council on Monday last.

Former Vice-President Dies

Adial E. Stevenson, vice-president of the United States through the second Cleveland administration died in Chicago late tonight at a hospital after an illness of several months. His three children were at his bedside when death came.

Students to Make Furniture

All furniture for the Utah state building at San Diego, will be made by the pupils of the state's manual training schools. Contests have been instituted in the schools and the prize specimens will furnish the different halls of the building. At the end of 1915 they will be sent back to the schools that supplied them as trophies.

TWO KILLED AS TRAINS COLLIDE ON SANTA FE

Two people were killed and several badly injured last Friday evening when the Santa Fe limited No. 4, ran in on an open switch and collided with a freight train at Bagdad, a desert station in California. Among the injured is U. G. Orendorf, millionaire manufacturer and publisher of Canton, Ill. No. 4 was about 12 hours late in Flagstaff, arriving here Saturday evening a few minutes ahead of No. 10.

Co. "I" Will Camp

The National Guard of Arizona will camp at Garden Canyon, Fort Huachuca, from August 5th to 17th; Company I will leave Flagstaff about August second so as to arrive at Huachuca in time to start duty August fifth. Garden Canyon is a beautiful spot in the mountains near the Mexican border and the members of Company I look forward to the trip, as they have camped there before and the beautiful stream of water and the many wild cherry trees and wild surroundings make an ideal spot to spend a vacation. The program this year will consist of field manoeuvres and the Arizona National Guard will get some of the real field work that they could expect if called into service.

Death of James W. Breen

James W. Breen brother of the editor of The Sun passed away in Flagstaff Saturday morning at 10 o'clock. He came to Flagstaff about six weeks ago from Manteno, Illinois, where he had held the position of postmaster for over twelve years, giving up the position the latter part of April. He was a Spanish war veteran, and a 32nd degree mason.

He leaves an aged mother, a sister Mrs. A. F. Switzer, and brother F. S. Breen living in Flagstaff, a brother C. C. Breen at San Antonio, Texas, and a sister Mrs. W. A. Beard, in Illinois.

The remains were taken east Sunday night by F. S. Breen for interment in the family cemetery.

He was a good man, son and brother and did not fear the coming of the end.

FLAG DAY NOT OBSERVED IN FLAGSTAFF SUNDAY

The 137th anniversary of the country's flag occurred Sunday, June 4th. So far as is known the day was not observed in public by citizens of Flagstaff. Although not recognized as a National holiday, it is designated by a number of governors of states and mayors of cities as a day to pay respect to the national emblem and it is only a question of time as to when the entire nation will join in the tribute.

The nation's flag is the supreme symbol of the lofty patriotism without a controlling measure of which the republic could not endure and the following instructions by Gen. J. J. Pershing, regarding the flag, will apply to all Americans as well as the army. "Both in war and in preparation for war, the high duty of the army to stimulate and develop love of country among the people should ever prompt a faithful adherence to the external forms and ceremonies of respect for the national colors. When an individual pays the prescribed honors to the flag in a careless and perfunctory manner, his patriotism at once falls under just suspicion. It is therefore ordered that, during the playing of the national air wherever troops are stationed, silence will be maintained, both work and play will cease, vehicles will halt and officers and enlisted men therein will alight and stand at attention.

"Civilians, of whatever race or nationality, within sight or hearing of the flag and music at retreat will be courteously enlightened should they fail to stand in respectful attention, and in any case of disrespect the offender will be promptly escorted off the military post.

"Children should be taught to assume the required position of respect toward the flag, and should learn from their own parents the full meaning of this fundamental lesson in patriotism.

"A rigid observance of the outward expressions of devotion and honor to the national emblem and the national air is enjoined upon all persons, in the knowledge that the reverent attitude will be to him who inherits allegiance to the Star Spangled Banner, a benediction, and will bring to the alien who comes under its protecting folds a new hope and a new inspiration."

Cotton Gin for Tempe

Plans were launched Tuesday for the erection of a \$15,000 cotton gin at Tempe. The Corporation Commission granted permission to the Tempe Cotton exchange this morning to sell 5000 shares of stock at \$5 per share.

J. L. Byrnes Now Postmaster

James L. Byrnes became Flagstaff's postmaster Tuesday evening, June 15th. The change was delayed until that time because of the semi-monthly report falling on that date, thus saved a double report at the local office and at the general office.

J. C. DOLAN HAS NARROW ESCAPE IN AUTO SMASH

While crossing the Santa Fe tracks on San Francisco street Wednesday J. C. Dolan, general manager of the Flagstaff Lumber Mfg. Co., and John Lind barely escaped a serious accident when the car collided with a freight train switching in the yards. Cars set on either side of the crossing obstructed the view and the auto was on the track before the presence of the freight was known. The car was badly damaged.

GOOD GAME STAGED AT DRIVING PARK SUNDAY

Flagstaff Team Showing Good Form Defeats Williams Sunday 5 to 3 One Error

Flagstaff's Hopes broke their hard luck streak Sunday afternoon by defeating the Williams team 5 to 3, playing good ball throughout the nine innings. Not a ball went through the infield of the locals and only one error was marked against them, it being made in the outfield.

Abbott occupied the slab for Flag and Vandavol did the receiving, both working to good advantage. Sellars was in the box for Williams and Carlson was behind the bat.

The boys will play a return game at Williams next Sunday and on the afternoon of July 3 these two teams will contest for a purse of \$250. which has been offered by the management of the Flagstaff celebration. This prize is a good inducement and the local team is determined not to let the big end get out of town and are practicing consistently.

NEEDLES BRIDGE WILL BE FOR USE OF AUTOMOBILES

As a result of the joint convention held in Needles in which Mohave county, and San Bernardino county, California, participated, on the question of good roads, and particularly the vital matter of opening up the Santa Fe Pacific bridge for auto traffic, the railroad company has concluded to act favorably on the matter.

Judge Carl G. Krook of Kingman, while in the city, stated that assurances have been received that the company will permit the plank-ing of the structure.

Supervisor Butler of San Bernardino stated that his county will co-operate liberally in a financial manner. The plan of opening up this avenue of travel is to install gates at each end of the bridge that are to be opened electrically, and each car must first have clearance before passing in or out. A nominal sum will be asked to defray maintenance expenses. The cost of performing the work will probably be borne by the California county, and the five northern counties of Arizona, making the aggregate a small outlay from each.

Section Man Holds a Live One

During the thunder shower Wednesday a section man was leaning on the wire fence when the lightning striking some distance down the line carried on the wire and gave him a knockout blow. Besides a life sized scare he has a small burn on his hand.

Maricopa Roads Bad

"The Phoenix-Wickenburg portion of the Phoenix-Flagstaff road is in a terrible condition. It is almost impassable in places and is a disgrace to Maricopa county," said Wayland Wood manager of the Arizona Motor company, who with his family and Guy P. Henry and family of Detroit, Mich., returned to Phoenix Monday evening from a 1000-mile tour to the Grand Canyon and vicinity.

Mohave county has let the largest contract for the building of wagon roads ever given a single firm in the state. \$100,000 derived from a recent bond sale is now available.

The Interstate Commerce Commission has reduced the rate on flour from Kansas City and Colorado points into Arizona 39 cents per 100 pounds. This rate goes into effect August 1st.
