WEEKLY KANSAS CITY STOCK MARKET REPORT

Kansas City Stock Yards, September 13, 1915.—Cattle prices held up well last week, good cattle selling stronger, medium grades steady, low grades lower. Country demand was extraordinary, taking more than sixty percent of the total supply of cattle. Receipts today are 25,000 head, market around 10 lower on bulk of the cattle, 10 to 15 lower on some. Kansas and the Panhandle loaded freely yesterday, and the impression is out that shippers are trying the market out this week, and unless prices are satisfactory, arrangements will be made to put many cattle into winter quarters. This, of course, will cut down the fall supply, and restore prices. Among the consignments today was a 10 car shipment of big Montana grass steers, 1318 lbs. average, which sold at \$8.00. Several strings of Colorado cattle were due, but disabled railroad service got them in too late to sell today. Panhandle cattle sold largely around \$7.25, a few choice cattle up to \$8.25, stock calves up to \$8.50. More than one half the supply today is classed as stockers and feeders, an opportune assortment, as there are a large number of buyers here to take the surplus. Favorable corn weather continues, making almost two weeks of good maturing weather since the last government estimate of nearly three billion bushels was made, and it is highly probable that the crop will exceed that figure. Sheep receipts today 22,000 head, which includes about 5000 head of feeders going through to Missouri points. The market is 10 to 15 lower, several lots of killing lambs selling at \$8.50, and feeders generally around \$8.25. Some New Mexico feeding yearlings brought \$7, a strong price, and breeding ewes are still worth \$6 to \$6.75, fancy ones up to \$7.25, plain feeding ewes, broken mouth, at \$5 to \$5.65. Demand from the country increases each week, and commission men here say the strong country demand will prevent any material drop in fat lamb prices, since feeders and fat lambs are so near together.

J. A. RICKART, Market Correspondent

Ranchers Will Have Big Grain Crops
Mr. W. G. Stevens, a prosperous rancher of the Pitman Valley country, was in Flagstaff Friday attending the farmers demonstration meeting. As a result of his visit he has secured agreements to thresh out about all the grain crops in this section of the country. He made a trip around east of the mountain in the Doney Park country and was agreeably surprised to find so many splendid crops of grain. Local ranchers advised him that there would be in the neighborhood of 65,000 bushels of grain to be threshed this fall. Mr. Stevens has a steam outfit and is well equipped to do the work. He was hardly more surprised at the big yield of grain produced in this dry farming section of the country than the people of Flagstaff who have not been out to see the waving grain fields where once the festive prairie dog went hungry for a few green things to eat.

At the Tombstone meeting of the Cochise County Cattlemen's Association, a resolution was adopted favoring an amendment to the state constitution permitting the leasing of large areas of classified grazing land to individuals, companies or corporations.

The drought has so badly affected southern Arizona cattle ranges that many cattle owners are either selling or moving their stock to better winter ranges.

M. S. Black has purchased the Sumpter Grison bunch of cattle and his ranch in the Doney Park country.

GETS 62 CENTS FOR 3,000 CRATES OF MELONS
Mr. Armstrong advised a rigid investigation of the returns from that crop this year. He said that a grower near Mesa attempted to examine the books of a commission firm there through Mr. Armstrong but was told that the books were not to be seen and were the private property of the firm.

He said that one man from ten acres received \$126 for his crop and that another man with 3,000 crates received a total of 62 cents for his crop. He said the government reports of what the melons sold for were correct, but that they were at variance with the returns. He declared that the growers must fight out the matter here at home.—Chandler Arizonian.

JUST AROUND AMONG US PEOPLE UP NORTH

A twenty-quart bootlegger was relieved of his suit case at Winslow last week.

Winslow is advocating the building of an auditorium-gymnasium for the city schools.

B. First, one of the pioneer merchants of Holbrook, died last week in a Los Angeles hospital. He had been in poor health for sometime.

The trouble between the city of Winslow and the light company has been adjusted and Winslow will have street lights within the next week, after a few months darkness.

Last Friday Carl Dickinson, of Flagstaff, came here to complete his job of digging out his automobile that got stuck in the mud on his return from the snake dance.—Winslow Mail.

In Navajo county the sheriff is actually arresting men for stealing sheep. Many years ago this used to be a serious offense in the old country and for many years in Arizona it was considered a real good joke.

Babbitt Bros. of Flagstaff, recently purchased the trading post of F. H. Hathorn near Keams Canyon. Mr. Hathorn intends moving to Holbrook and has bought one of Julius Wetzel's new residences in the northern part of town.—Holbrook News.

Joe Pechetti and Miss Chemis recently arrested at Prescott for bootlegging and released on bond, were re-arrested by federal authorities charged with selling liquor without a government license. They had been indicted by the federal grand jury.

New Catholic Church at Holbrook
Work on a Catholic church building in Holbrook was commenced last Monday. The lumber for the building was shipped from Flagstaff, and this with rock for the foundation is now on the ground. The building will be constructed of lumber with a foundation of rock; it will be 24x50 feet in size, with a 12x12 addition. G. W. Medley of Flagstaff has charge of the work, which will be done by day's labor. The cost of the building when finished will approximate \$1000.—Holbrook News.

Pleasant Visit to Flagstaff
Mrs. M. A. Newsum and Mrs. W. F. Purcell and daughter Helen returned last Friday from a pleasant visit to Flagstaff and the Grand Canyon. The trip was made in the Purcell car driven by Maurice Barth. Saturday Mrs. Purcell took her daughter to Gallup and made arrangements for her to enter school in that city.—Holbrook News.

Lyman Ditch Troubles
The Lyman Irrigation Co's property, which was advertised to be sold at Sheriff's sale, was so disposed of at public sale, the 7th inst. The Plaintiffs in the action for damage brought Messrs. E. R. DeWitt and W. A. Saunders, bought in the property at the price equal to the amount of judgment given in their favor, in the Superior Court, \$66,566.00.—St. Johns Herald.

NEWS FROM OVER THE STATE

Arizona's first regiment band is back from San Francisco and report only a few losses.

Mrs. Thos. F. Weedon, wife of Thos. F. Weedon, register of the U. S. Land office, died at her home in Phoenix last week. She was buried at her old home in Florence.

Officers at Duncan seized 550 gallons of whiskey that was being brought into the state from New Mexico by two wagons at night by Pete Burette and Mike Sava. Neither one claimed that it was for their personal use.

The Parker Post says the government cleaned up \$100,000 by laying out a town site on the desert, appraising lots at a high value selling them to deluded investors. The investors relied upon the implied promises that the surplus lands of the Colorado Indian reservation would be opened to settlement within a reasonable time. The Post further avers that if "any cheap real estate grafter had gotten away with a one-hundredth part of the amount which Uncle Sam filched from Parker people, he would be serving a term in the penitentiary." This is only another version of "the king can do no wrong."

Fun to Predict, Anyhow
Some are predicting an early frost this year; they claim to base predictions on former years. But any one will tell you that each year acts to suit itself in this country, regardless of what has gone on before in the matter of weather.—St. Johns Herald.

Claims Elk Herd is Growing
From the Sitgreaves forest comes a report, sent in by Ranger Hughes, that a total of 49 elk and 19 calves are at the present ranging on the Chevalon district. This is the herd of 85 head liberated in 1913 by the state game warden and the Elk lodges of the state. Since a certain proportion of this herd is known to have scattered to the Coconino and elsewhere, it would appear that they are doing well.

It Was Bad Hail Storm
"Uncle" James Pearce, of Taylor, while here last Saturday informed us that the recent hail storm was not the worst one by any means to visit his section. He stated that twenty-odd years ago Snowflake and Taylor were visited by a storm that totally destroyed all crops. All the grain had been cut and the hail and rain damaged it so badly that even the straw could not be used, so no threshing was done that season.—Snowflake Herald.
