We Face a Water Famine!

There are only about ten million gallons of water left in the big reservoir,

ABOUT 430,000 GALLONS BEING USED DAILY
ONLY 145,000 GALLONS FLOWING DAILY

Which Means---

THAT AT THE PRESENT RATE OF USE THE
Town will be out of water in about
thirty days

The superintendent has been instructed to cut down the supply of the mills and railroad, and in addition to this, he

Appeals to the householder

to be as saving of water as possible, by

Repairing any leaks. Don't let the faucet run while washing your hands—put the stopper in.

Help the Water Department

and yourself by saving water whenever possible, so that we may get through on the present supply until storms come to fill the reservoir.

If you do not save now you may have
to do without water later.

JOHN MARSHALL, Water Superintendent
