## E. IRVINE & CO.

THE  
Southern Pacific  
RAILROAD

Has already been of inestimable benefit to Arizona. It has reduced the cost of transportation very materially, and lessened the time of receiving goods at least one half, besides adding greatly to the comfort and facility of travelling.

With this record in the past, the prospect of the same into the Territory is very encouraging for the future, as it will add very much to the prosperity and wealth of the whole country.

E. Irvine & Co.

Have taken advantage of the quick and cheap transit of merchandise, and are constantly receiving new goods, which they are selling very cheap.

They have just received an assortment of  
Plows, Hoes, Rakes, Picks, Scythes, Shovels,

And other Agricultural instruments.  
A few sets of Harness, Lines, Bridles, &c.

Also, Hardware, Tinware, etc., including a few Cooking Stoves and Ranges.

Blankets, Flannels, and other Dry Goods and Clothing, for winter use.

Hats for Men and Boys.

A full line of Dried Fruits, Canned Fruits, Canned Meats, Canned Honey etc.

A complete assortment of Groceries.

Giant Powder, Black Powder, Fuse, Picks, Hammers, Steel, etc., for miners.

Adobe and lumber have their respective merits for building purposes, and many a neat house of the latter stands out in striking contrast with the more sombre buildings of the former.

E. IRVINE & CO.  
100,000 FEET

of lumber, consisting of a general assortment of boards, plank and scantling.

Call and examine this before purchasing elsewhere.

## SALT RIVER HERALD.

Saturday, December 21, 1878.  
MINING NEWS.

The Tucson Star of the 12th has the following mining news:  
Some rich gold mines have recently been discovered in the Huachuca mountains. Dr. Strom and Lieut. Bailey are among the lucky ones.

W. S. Edwards returned on Tuesday last from a trip to the California and Swisshelm mining districts; reports a splendid show of good paying ore, and the districts present a great deal of activity among the miners.

John Swisshelm, Jim Bullard, Henry Henson and others are at work on their locations in Whitewater Basin, Chiricahua mountains. The Mountain Queen, Whale, Mammoth and Mountain Chief prospects are looking well—their ore assaying from 112 to 450 ounces to the ton.

Sheriff Shibley, Al McCann and Abe Franklin, accompanied by Prof. James, returned from a week's trip in the Tombstone district, on Tuesday last. The professor examined several mines in the district, and is very favorably impressed with what he saw. As he represents San Francisco capitalists, we are pleased to know his report will be encouraging.

Ben. Williams, superintendent of the San Xavier mines, was in town this week. He informs us that the main shaft at the 100-foot level shows in cross-cutting, a width of 30 feet of ore of such a character as will leave a handsome margin for working; no waste whatever. He has commenced a working shaft to strike the ore body at about 90 feet.

D. B. Ren is in from the mines and reports everything prosperous at the camp. He is opening another carbonate ledge that proves richer than anything before discovered in the camp. Ledge matter is 12 feet wide and Prof. Ricard's assay gives \$81 in silver per ton, and 50 per cent lead. Several discoveries of immense copper ledges have been made recently in the same district, which, besides being rich in copper, carry a good working per cent in silver.

Sam. Hughes is the owner of the Hope mine, located about twelve miles west of this city, and brought in some rock on Tuesday last from the location, which gave an average assay of \$325 silver to the ton. There are fifteen to twenty tons of ore on the dump, and the shaft shows a ledge four feet in width of very even quality. The discovery has caused considerable excitement among mining men.

Tombstone Mill Site is now the scene of activity. Houses, shanties and jacks are going up rapidly, and several families are now on the ground. A restaurant has been opened by Mr. Ike Clanton. The foundation of the mill site is being blasted and leveled off to receive the structure that is now being rapidly shaped up at the timber and saw-mill camp in the Huachuca mountains. A fine road is being graded from the mill up to the mines. The Mormons are progressing finely with the ditch and dam. Everything connected with this enterprise shows that Corbin & Co. mean business, and ere long we may expect to see a genuine silver brick.

Several days since Gov. Safford and Mr. Watson, of Connecticut, started from Tucson on a trip through the different mining districts. At the Patagonia they were joined by S. Hughes and E. N. Taylor, when they visited various sections of the country together, including the Tombstone district. Mr. Watson seemed almost astounded at the sights he saw in the Tombstone, and after a week's trip the whole party returned to Tucson. Mr. Watson represents eastern capitalists in Southern Arizona, being sent here on a tour of inspection. Gov. Safford and Sam. Hughes did everything to show the visitor the mining wealth of our country, and we are glad to learn Mr. Watson is well pleased.

Messrs. A. B. Hopkins and Shoenback brothers came in last week from the Sierratas, south of Tucson about thirty-five miles; they have been looking after their mining interest out there, where we are pleased to know they are owners of a group of five gold mines, all within a radius of one half a mile of each other. The ledges average from one to two and a half feet in width; the average assay is \$55 per ton, which is excellent for gold; the ledges are traceable for almost the full length of the claims. These are all old mines and have been extensively worked in days gone by; some of the shafts are over one hundred feet deep; the gulches near by have

also been extensively worked. They also make favorable report on the old Picacho mine, out of which they have taken some fine ore; this is another old mine which has a shaft about 200 feet deep; this is a silver mine. They have also recently visited their Patagonia property, which gives good results; the O K assays \$504 in silver, the Mocking Bird \$52 in silver and \$25 in gold, the Yellow Jacket \$128 in silver, all milling ores and near the old Trench mine. There is plenty of wood and water adjacent. Mr. Hopkins and his partners feel happy, and when the prospector is happy look out for something good.

The Prescott Miner says: A discovery of some very rich silver ledges has been made at or near the headwaters of Sycamore creek, a tributary of the Santa Maria. The locators are Messrs. Cooney, Burns and Waters. The principal vein has been named the "The Fourth of July." Assays go up in the thousands. The ledges are large and well defined.

Says the Yuma Exporter of the 12th: Mr. Jose Jarez brought in this week from the Copala mine, in this county, some of the richest ore we have ever seen, consisting of gold, silver and copper ore. The mine is very extensive, the ledge being six feet in width. It is owned by Jarez & Fleishman, who will employ a number of men to take out ore, which will be shipped to San Francisco. We are credibly informed that the ore assays over \$350 per ton.

TERRITORIAL ITEMS.  
At about 10 o'clock, a. m., on the 7th inst., the fine dwelling, together with the household effects, clothing of the family, etc., of Mr. George Banghart, of Chino valley, accidentally caught fire from the kitchen stove, and was in a few minutes entirely consumed.

J. C. Stubbs, general freight agent of the Southern Pacific railroad, writes to L. M. Jacobs & Co., of Tucson, as follows: "As you are aware, our road is being extended east of Yuma. Eight miles of track have already been laid, and every man that can be employed is being put to work to push it forward with the utmost rapidity. I think it reasonably certain that we shall reach Maricopa Wells within the next year, and hope that we shall then be able to control all the business of your section at rates which will be mutually satisfactory to carrier and dealer."

Star: The Prescott papers are just now terribly excited over the removal of the capital from that place to Phenix. How would Florence suit you, gentlemen?

Miner: Mr. Reed, who is in the interest of mail contractors, was at Wingate on the night when the 370 ton stack of hay caught fire and burned up. He says it made a big candle, lighting the country for miles around and never was surpassed except at Chicago during the great fire.

Two new counties will probably be formed during the session of the next legislature—one from Yavapai and the other from Pima.

Star: Upper San Pedro is constantly increasing in population. Several families are expected soon to arrive. Farmers are breaking ground for seedling; corn and barley of their last year's crops sell readily now at five and six cents per pound. Being in the vicinity of Tombstone, every incentive is given our farmers and gardeners to plant largely, as the best of markets will be afforded for all the grain and vegetables they can raise.

The new town project on the Gila, agitated by the Prescott papers, brings the Herald, of Phenix, to its feet. We firmly believe that the last town of any great importance in Southern Arizona, is already in existence. So says the Tucson Star.

The officers of the Hackberry Mill and Mining company, of Mohave county, has been removed to 324 Pine street, room 1, San Francisco, Cal.

Christian Foster has been appointed postmaster at Arizpe, Pima county, and Richard Gird as postmaster at Tombstone, Pima county, Arizona.

Under the direction of the acting engineer officer of the department, a survey will be made of the road which crosses the Mogollon mountains, and of the surrounding country, with the view of finding a shorter and better route between the military posts of Camps Apache and Verde, and Fort Whipple, in this territory.

The postoffice department has ordered a tri-weekly service on the mail route between Tucson and Altar, Mexico. The service will be put on at once.

The Yuma Exporter of the 12th says: The Atlantic and Pacific Telegraph company, who are extending their line onward to Tucson, have already reached Gila City. It is the purpose to keep along with the grad-

ing party, and hence its progress will not be more rapid than the location of the railroad line. Upon its completion we will then have two separate lines of telegraph to Tucson, the other being the government line and run under the direction of the signal service.

Some 40,315 pounds of machinery for the Tiger mine arrived at Yuma Wednesday, December 11.

Sheriff E. F. Bowers, of Yavapai county, has bought the Dudley house and saloon, at Prescott.

It takes beef to build and run railroads. The Trinidad News says that the operatives of the Atchison, Topeka and Santa railroad have consumed upwards of 2,000 head of beef cattle in the last six months.

Gov. A. K. Safford and Miss Margarita Grijalva were married in Tucson on the 11th inst., by the Rev. J. E. Anderson. The governor has hosts of friends in Arizona who wish him unalloyed happiness in his marital relations.

Passengers and express matter now leave Tucson on Mondays and Thursdays for Altar, in Sonora, going through in forty hours. The fare is ten dollars, and eating stations have been established along the route. The line passes near the Cerro Colorado, Arivaca and Oro Blanco mining districts of Arizona. Mr. Denetrio Velasco, the agent, is well known, and is always ready to give information to those desiring it.

Hon. J. A. Williamson, United States land commissioner, and party, passed through Yuma last week, en route for Florence, where Mr. Watson, of Tucson, will meet them. They will pay their respects to Mr. C. D. Poston, at that place.

Mr. Charles Baker has been appointed to fill the vacancy caused in the board of supervisors of Yuma county, by the resignation of David Balz. This is a good appointment; he has served on the board before, and has left a good record.

Track laying is again in progress on the southern extension of the Atchison, Topeka and Santa Fe road, Willow Springs, thirty miles south of Trinidad, will be the next important station, and they cannot be far from there now. For construction purposes a temporary track will be laid over the range, and the road pushed on to Las Vegas while the tunnel is being finished.—Alamosa News.

There seems to be no question now but the Atchison, Topeka and Santa Fe railroad will be built as far as Las Vegas, New Mexico, sometime early in the coming year, and by that time the California and Southern Pacific railroad will have reached as far east as Maricopa Wells, leaving an unfinished gap of about five hundred miles through New Mexico and Arizona to be closed up, when an all rail route from ocean to ocean through the lowliest country on the continent will be in operation.—New Mexico paper.

Citizen: In order to divide the patronage fairly, Prescott was given the headquarters of the army which was worth a half dozen capitals, but they were not satisfied and by fraud succeeded in capturing the capital. Now comes the punishment as it surely always comes for wrong doing. To aggrandize Prescott, a county debt has been contracted that is sapping the last drop of life blood from the people. The debt we greatly fear will eventually be repudiated, although we hope for the credit of the territory this will not occur.

The following extract of a letter, written by Bishop George Lake, dated at Brigham City, Yavapai county, November 5th, is reproduced from the Salt Lake Desert News: "The health of the saints in this part is good, and a good spirit prevails. Our crops are all gathered, and we are now busy putting in our fall wheat, etc. We have a good force of hands running the saw-mill; our dairy has done good business the past season. We are organized in companies with suitable foremen, viz: farming, carpenters, wagon shop, blacksmith, pottery, teamsters, etc., all of which work for one common interest. Sunset and this place have just sent teams to Nephi, Utah, for a carding machine, which we expect to have running. We have a nice flock of sheep, and we hope to be able to clothe the naked and feed the hungry. Our crops were good, and had it not been for the late flood we would have had a great surplus, but as it is we are posted as to the high water marks, and it will be of lasting worth to us. We have near 300 souls in this ward; we have good day and Sabbath schools; our meetings are well attended, and I am pleased to say that I never labored with a better set of brethren than we have here; all are willing to do their part, the grumblers are very scarce, and all are trying to carry out the spirit of their mission."
