That a sewer in Benning road, between Fifteenth and twentieth streets northeast, be constructed during the fiscal year ending June 30, 1895, provided funds are available.

That a cement sidewalk be laid around the corner of Eleventh and P streets northwest, under permit system.

That the great need of a municipal building is realized by the Commissioners, and they hope for favorable action by Congress, and will do what they consistently can to accomplish the desired object, in no means a secret.

With the view of coming to some conclusion as to the eligibility of the present city hall, an estimate has been prepared of the floor space required to accommodate the several departments of the District government, including the courts.

The present amount of floor space in the courthouse is 37,554 square feet, and the amount required in the new building is 55,984. The available amount of floor space at present covered by the District offices is 25,946 square feet, and the amount required in the new building is 178,776 square feet.

The condition of H street, between Eleventh and Twelfth streets northwest, is not considered to be satisfactory. In the opinion of Health Officer Woodruff, and in view of the matter has been reported to the Commissioners.

Residents and property owners on Keyton street request the Commissioners to cause the Brighton Railway Company to replace the poles in use by the line on that street with iron poles to be set in the middle of the street.

COMING APPOINTMENTS. The President Will Soon Dispose of the Remaining District Plots.

Having disposed of the local postmaster, President Cleveland will soon take into consideration the other local appointments now at his disposal by reason of the expiration of the terms of the present incumbents.

The positions to be filled are those of register of wills and United States district attorney, Col. Levi P. Wright now holds the office named and Arthur A. Birney the last-named position. Both are hold-overs.

Applications are now on file with the President for these appointments, but the press of other matters has been such that the President has not been able to look over the papers. It is probable, however, that one or both appointments will be forthcoming shortly.

Hill or Morton? The best and fullest election returns will be found in Tax Times to-morrow morning. Remember THE TAXES costs only 1 cent and is the only morning paper in Washington having the full Associated Press service, the greatest news gathering association in the world, and whose correspondents are stationed in every city and town in the United States.

Presented to the President. A copy of the recent address by Dr. Joseph Nimmo, Jr., before the National Statistical Association on the Insurrection of June and July, 1891, growing out of the Pullman strike, was yesterday presented to the President of the United States by a committee appointed for that purpose, consisting of Hon. A Boy and a Suit of Clothes. One of the appy boys in Washington yesterday was Carroll Barock, who lives at 212 Thirteenth-and-a-half street southeast. The reason why Carroll is so happy is that his parents have the good sense to subscribe to THE TAXES, and yesterday when their paper was left at their house they were glad to see that art supplement No. 38, 392, which had come with their paper on Sunday, would be exchanged by M. Kaufman, Eighth and I streets southeast, for a child's suit. So yesterday morning Carroll went to Mr. Kaufman's store and was made happy by having his art supplement exchanged for as pretty a suit as any boy in the city of Washington wears.
