DOINGS OF THE DISTRICT

Proposals Invited for Sites for New Engine Houses.

LAND GIVEN FOR PUBLIC USE

Conditional Dedication of the Ground for Naval Observatory Roadway—Part of B Street Southwest Temporarily Closed to Travel—Eokington and Soldiers' Home Railroad Company Must Pave a Crossing.

Proposals will be received by the Commissioners to-day for furnishing a site for each of two new engine houses, one for No. 2 company, near its present location, and the other for the proposed new company, to be located near the junction of New Jersey and New York avenues northwest.

Messrs. Robert Weaver, R. E. Fleming, Philip Young, and John W. Thompson, property-owners whose grounds about upon the proposed Observatory Circle, have professed to dedicate the land for roadway upon condition that the circle shall be made complete by including so much of the Industrial Home School grounds as may be necessary.

CONGRESS MUST AUTHORIZE IT. Congressional acquiescence in this plan will have to be first obtained, and the proceedings will be accordingly delayed, but meanwhile the gentlemen designated have filed a plat which bears the signatures of all those who are similarly interested, and under the terms that dedication will be perfected at the proper time upon the conditions stated.

The four gentlemen named were at the District building yesterday to formally present the proposition. Orders issued yesterday: That H. B. Wood, who had between Third street and Maryland avenue, be closed to travel, temporarily, on account of the work now in progress of replacing sewer in said street.

That Eugene Lucas, jr., be appointed bridgekeeper, temporarily, at \$50 per month, to serve in the absence of the regular keeper.

That a public street hydrant be erected at the northeast corner of Thirteenth street and South Carolina avenue southeast.

That a cement sidewalk be laid around the southeast corner of Twenty-first and F streets northwest, under permit system.

The proposed improvement of Kensington's sewerage system, which contemplates the dumping of the refuse into Rock creek, will be said next with opposition upon the part of the District authorities.

KENSINGTON'S COMMITTEE. The citizens of the town recently held a meeting to discuss the matter, and the result was the appointment of a committee, consisting of Dr. R. B. Dietrich, B. H. Warner, Dr. J. L. Lewis, J. P. Stock, H. F. McLaughlin, C. A. K. Smith, and others, whose duties were defined to be to investigate the practicability of establishing a pipe line to drain sewage into Rock creek, and also to appraise the cost of the improvement among the property owners interested, with instructions to report at a future meeting. The movement having thus taken ground, the committee of the District's interest in the proposition has come to the fore.

The arguments against the pollution of the stream are that it would prove to be detrimental to the health of the people and destroy the attractiveness of Rock Creek Park. Should the committee be authorized to the point when the District can step in and the Commissioners will probably obtain an injunction, and the issue will be argued out in the courts. It is also noted that such course can be taken under the law. There are doubts expressed as to the warrant of law for such procedure.

PERMITS TO BUILD. Building permits have been granted: W. W. Winfield, six dwellings, Nos. 1302 to 1310 Roanoke street, \$35,000; Brightwood Railway Company, brick carriage on site of one destroyed by fire, on lot 10, block 10, subdivision 2, \$4,000; John H. Nolan, brick dwelling, No. 1709 First street northwest, \$3,000; E. B. Smith, brick dwelling, No. 1804 M street northwest, \$3,000; Jennie Radcliffe, brick flat, No. 1622 Thirty-second street northwest, \$1,800; W. H. Grimes, frame building, \$1,100. Improvements: George Hummer, to build addition to dwelling No. 1112 K street northwest, \$1,000.

The commissioneers addressed a letter yesterday to the president of the Brightwood Electric Railway, advising him that unless he shall cause the space adjacent to and between the tracks of the road at the intersection of Rock Creek Church road and Seventh street extended to be paved or graded, the Commissioners will be obliged to do so by direction of the Commissioners at the company's expense.

John Boyle was appointed yesterday to the position of private driver for the police force, for duty at the Government Hospital for the Insane. L. S. Cotton, hitherto driver to the excise board, was yesterday designated as driver to the board of assistant assessors, with salary at the rate of \$600 per annum, and Frank Howard was appointed to succeed Cotton, with salary at the rate of \$450 per annum.

Men Tried at Railroad Speed. Two men tried, convicted and sentenced in half an hour was the record in Judge McComas' court yesterday. Assistant District Attorney Jeffords conducted the prosecution. Five witnesses were examined in each case. There was no defense. The charge was the larceny of a bicycle, valued at \$150.00, by Eokington and Soldiers' Home power house near the city. Wooden saw he knew nothing of the theft, though there was convincing evidence to the contrary, and got ten years at Albany, while Smith was let off with two years and six months.

Judge McComas' court yesterday. Todd for leaving the wire out where it would tempt men to steal in times when work was so hard to get.

Emancipation Day Parade Arrangements. A meeting of the committee of the Emancipation Association was held Thursday night at No. 346 Pennsylvania avenue. The staff sub-committees reported that fully two thousand men will be in line from the different parts of the city, and headed by Capt. James Washington, from Alexandria. After some discussion it was decided that the chief marshal and his aides should wear white felt hats during the parade.

The will of the late Sarah R. K. De Ford, filed yesterday, leaves her property to her son, William H. De Ford, and makes him executor. It is dated at St. Louis, Mo., August 15, 1892.

Mrs. Margaret McCorpen, with her oldest son, Elisha, as executors under the will of her husband, the late John McCorpen. The property goes to her for life, with equal shares at her death to the children, Josephine, John, and Gideon, and \$200 more to Elisha than the others.

Howard I. Childs, by bill of sale filed yesterday, sold the saloon business at No. 721 Eighth street southeast to John T. Edelin for \$550.

Washington String Orchestra's Concert. The first concert of the Washington String Orchestra, of which Mr. Ernest Lent is the conductor, will be given this evening at the Universalist Church, corner Thirteenth and L streets. The orchestra will be assisted by Mrs. Edwin Z. Perkins, soprano, and Mr. John Porter, baritone, pianist. An excellent program has been prepared.

Defect in Court Rules. The position in which the case of Stout, Hall & Bangs against Secretary of the Interior Smith stands, calls attention to what appears to be a defect in the rules of the court. The attorney for the firm has asked that the case be dismissed, but it cannot be so ordered until court meets. The firm had a contract for work on the basement of the new Congressional Library, but were prevented by a charge of blame from filing it. The court of claims awarded them \$46,000, but they claim that the loss to them by the contract was over \$150,000. To leave the dismissal of the appeal incomplete makes no difference in this case, but if the appeal, as usually happens, is withheld until the next term, the case will be dismissed, he could not get it. It has been suggested that the clerk should be allowed to enter an order in such a case.

Not Done with George Hawkins. The testimony before Judge Samuel C. Mills, in the case of George Hawkins, a colored youth, charged with sending an obscene letter through the mails to Miss Lizzie Burgess, showed that the young colored girl is highly respectable, of good family, and that the letter was not acquainted with her, but offered a small boy 4 cents to find out her name. The police are investigating the case.

The court of claims awarded them \$46,000, but they claim that the loss to them by the contract was over \$150,000. To leave the dismissal of the appeal incomplete makes no difference in this case, but if the appeal, as usually happens, is withheld until the next term, the case will be dismissed, he could not get it. It has been suggested that the clerk should be allowed to enter an order in such a case.

Not Done with George Hawkins. The testimony before Judge Samuel C. Mills, in the case of George Hawkins, a colored youth, charged with sending an obscene letter through the mails to Miss Lizzie Burgess, showed that the young colored girl is highly respectable, of good family, and that the letter was not acquainted with her, but offered a small boy 4 cents to find out her name. The police are investigating the case.

Nervous Debility, Inactive Organs, Physical and Mental Decay Follow VARICOCELE. Varicocele destroys manhood and renders inquiry impossible. Weak, limp, nervous, varicocele don't make marriage a success. Dr. Parker has cured thousands of varicoceles without operation or pain. He has cured thousands of nervous, sexual weakness, and restored them to vigorous manhood. The youth of eighteen to the age of seventy, who had lived for months or years in hopeless despair, have been raised from their sadness to joy and happiness, and have become happy husbands and fathers.
